Getting started with the DVD

Learn how to get the most from this issue's cover DVD

Problem solving

I insert the disc, it spins up, and then my PC freezes. Then things start crashing. What's going on?

These are very rare but do sometimes crop up. Return it to us and we'll happily supply a replacement – send it to: PC Utilities Plus+ magazine, Live Publishing International, Europa House, Adlington Park, Macclesfield, SK10 4NP, UK.

I keep getting errors saying that the browser program can't find 'browser.csv' or other files. However, I can access the folders on the DVD using My Computer without any trouble.

Once again, this sounds like a faulty disc. See the instructions above about returning it for replacement.

The disc used to work fine but now doesn't. What's gone wrong?

It might be that the DVD is dirty or has become scratched through mistreatment. Try placing it under a running cold water tap and gently rubbing the surface with a tissue to remove greasy stains. Examine it carefully for scratches and other blemishes. Please note that we cannot replace a disc which has been damaged through bad handling in this way.

I installed an application and it doesn't work/crashes/bugs!

This is outside of the control of PC Utilities Plus+. The best policy is to visit the website of the person or company responsible for that application. They're likely to know much more about any potential problems and might have a cure or workaround. Sometimes downloading the latest version of the application fixes the problem.

The DVD won't work on my PC but works fine on those of my friends.

A minority of older DVD drives have problems with newer DVD-ROM discs. This means they may not be able to read all DVD-ROM discs. Consider upgrading to a more recent DVD drive.

1 Insert the disc in your PC's DVD drive and the cover disc browser should launch automatically. If nothing happens, double-click My Computer and then double-click your DVD-ROM drive icon. Then double-click the 'browser.exe' program. Click OK to accept the disclaimer and then click on one of the tabs to choose a category.

2 Click on the browser tabs above the description programs. If you have a particular type of program in mind, click the Search button. Then enter a search term. If you are interested in mp3 software, for example, try typing 'MP3' (without the quotes).

3 Click on a program name to install it. If the program is in a zip archive, you'll see a warning about the need for an archive manager. With most such programs (like WinZip) you can simply double-click the 'setup.exe' file to start the installation, though in some cases you will need to extract the contents to your PC.

Getting started

DVD

helpline

If you're having problems using the coverdisc program, please contact

01625

855051

techsupport@livepublishing.co.uk

(Monday-Friday 10am-4pm)

Please note that this helpline is for coverdisc problems

only and NOT for general technical support

Windows 95

Please note that we do not guarantee any of these programs will work under Windows 95. You should however find that a large proportion of 98-compatible programs also work under 95.

Disclaimer

Some of the programs on the PC Utilities Plus+ cover DVD have the potential to seriously damage your PC if used incorrectly. It is your responsibility to thoroughly research a program and its function before using or installing it. PC Utilities Plus+ Live Publishing International and/or any associated company or individual cannot be held responsible for any problems arising from use of the coverdisc. You install and use the programs on the disc at your own risk.

US disclaimer

US law only allows you to make one backup copy of any software or media, for personal and archival purposes only. This is the intended purpose of the copying and extracting software supplied on the coverdisc. Any other use is strictly prohibited and we will not be held responsible for misuse of any of the included programs on the disc.

Remove programs

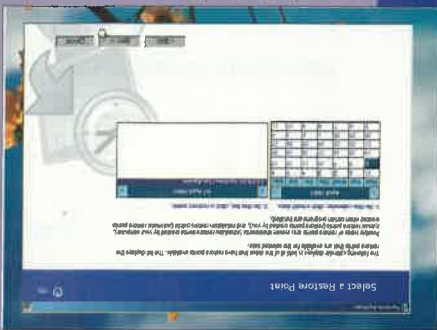

1 Before you install any program on our DVD, it's wise to create a System Restore point (if you're running Windows Me/XP). Click Start/Programs/Accessories/System Restore. Click Create A Restore Point, and follow the wizard, giving the restore job a name (something like "before installing tool on DVD").

2 Once you're tired of any program, simply look for its entry on the Start menu (under Programs), and click the uninstall entry. If there isn't one then open the Windows Control Panel (Start/Settings/Control Panel), and double-click on the Add/Remove Programs entry. Then select the program from the list and click Remove.

3 In the small minority of instances where the uninstall comes up with an error, you can use the System Restore point you created earlier. Just follow the steps above and choose to restore rather than create a new restore point. Try to avoid manually deleting the program files from your hard disk - this will probably cause problems.

1 Browser tabs The programs on the PC Utilities Plus+ are split into various categories, according to program type. If you're looking for music programs, for example, you'll find them under the Audio and video tab.

2 Search If you're looking for a specific program or type of application, the easiest way to find it is by clicking the Search button and entering your search term.

3 Search results The results of your last search will be listed here - these may be programs from anywhere on the disc.

4 Program name As well as listing program names, these buttons can be clicked to install the related software (if in .exe or .msi format) or launch the relevant .zip archive.

5 Description This field provides a brief description of what the program does. In some cases, you will also find important information in this field, such as a website to visit to receive a program unlock code.

6 System This field lists the operating systems under which the relevant program should work. Although we try to provide accurate information, we cannot guarantee that a program works for a given OS even if listed here.

7 Program type Most of the programs on our coverdisc are either full featured programs or freeware, which mean you can use them for as long as you like with no restrictions. Shareware software, on the other hand, can be trailed for a limited period only. After this period, you will need to register the software to continue using it.

8 Notes Any restrictions in the use of the software will be listed here. In the case of shareware programs, this may include the length of the trial period.

Ashampoo BurnYai! DataCD and AudioCD

Create your own audio CD compilations and back up valuable data with Ashampoo's powerful, easy-to-use burning software

It is possible to override the advanced options manually rather than using the default settings

Not only is Ashampoo BurnYai! incredibly easy to use, it looks great, too. While it's busy burning a new CD, it shows you what it's doing by displaying a CD on fire. If you're the sort of person who doesn't like fancy pictures and would prefer instead a precise list of what the pro-

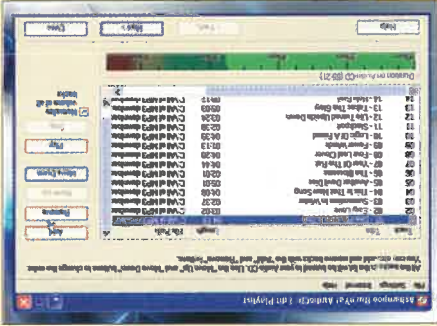

discs, it's possible to reuse a multisession CD and add more data to it, so you don't have to use a new disc each time. Our step-by-step guide below shows you how to work with multisession discs so don't worry if you've not familiar with them.

are much more convenient than standard single session CDs, which

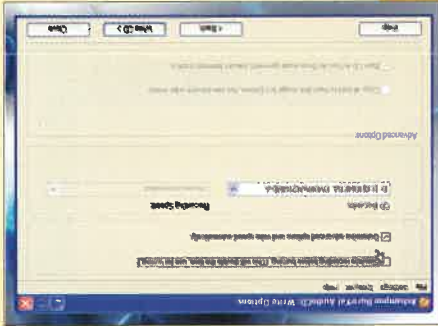

The DataCD program produces multisession CDs, which really don't come any easier to use than this.

then record the information onto CD – burning programs drop them onto the program. A single mouse click will data or a compilation of your audio tracks just drag and Windows Explorer. When you want to make a CD of your is that it works with files dragged and dropped from One of the most useful features of Ashampoo BurnYai! out making a big fuss and requiring excessive user input. of more than basic CD burning, it's just they do it all with- CD projects. This isn't to say these programs aren't capable interface, and the default settings are suitable for most types of user should be happy. Each program has a simple users. With Ashampoo's BurnYai! programs however, both ting under the sun, advanced features often confuse other may relish the prospect of tweaking every set- unnecessarily complicated. While power users ore often than not, CD-burning programs are

Create an audio CD with BurnYai! AudioCD

Step 1 Ashampoo BurnYai! AudioCD enables you to use songs in a number of different audio formats. These include .wav and .mp3 files – any .mp3 files you add are automatically decompressed, ready for burning. To add tracks to your audio CD, click Add and choose which songs you want to include.

Step 2 When you are happy with the order of your chosen songs, click Next to move on to the Write Options screen. It's possible to have your newly created CD verified by the program to ensure it's been written correctly, although this doubles the burning time. It's best to leave BurnYai! to determine the advanced options.

Step 3 As soon as you click Write CD, BurnYai! begins analysing your chosen tracks in order to prepare them for burning. If you left the Normalize option ticked in Step 1 the preparation stage takes a little longer, as you have to wait for the volume of each track to be checked and set.

Registering the programs

In order to use Burn Yai AudioCD and DataCD without restrictions, you will need to obtain registration codes from Ashampoo. During the installation process, tick the "Get full version key box. Immediately after installation you are then taken directed to the Ashampoo website. Enter your email address and you'll be sent a link to the registration details page – fill out your personal details and choose a password. You will then be emailed your registration key. Copy and paste the licence key provided into the registration box (you'll find this under Internet/ Register) to be unlock the full program. You only have to enter your personal details once – when you install the other BurnYai program, all you have to do is choose the Internet/ Register option to receive the registration code by email.

Upgrade offer

If you like what you see in BurnYai AudioCD and DataCD, you're sure to like their more advanced sibling, Ashampoo CD Recording Suite. We've teamed up with Ashampoo to give PC Utilities Plus+ readers the opportunity to upgrade to Ashampoo CD Recording Suite for just US\$14.99 – a saving of US\$15! For more details on what this advanced tools is capable of, visit www.ashampoo.com/products/0210/upgrade. Visit www.ashampoo.com/shop/0210/upgrade.

Add data to a multi-session CD with Burn Yai! DataCD

1 When you make a data disc you have the option to keep it open so you can add more files in the future. This type of disc is known as a multi-session CD. To add more files to an existing Data Disc from the DataCD main menu.

2 You can now see what is currently recorded on the folders of your choice. Files that haven't yet been burned onto the CD are shown with an open folder and green arrow next to them.

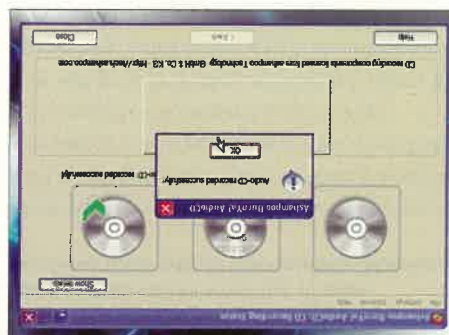

3 This screen should look familiar as the writing process is very similar to that of making an audio CD. The program first prepares the CD, which doesn't usually take very long, and then moves on to burning the data. You'll be able to play the finished multi-session CD in any CD-ROM drive.

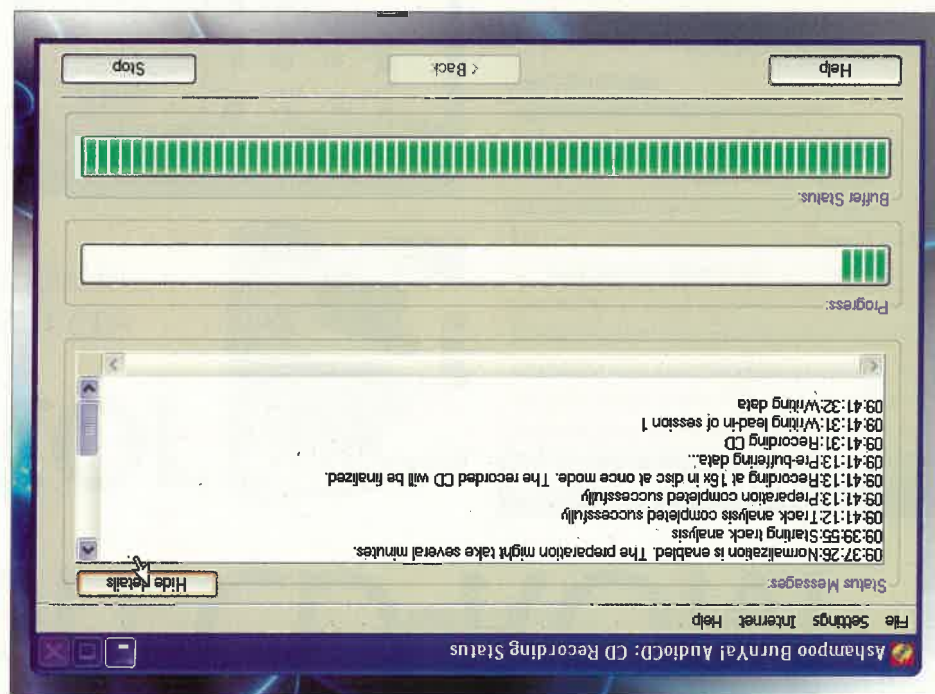

gram is up to you, you can change the display to a detailed log of completed tasks at the press of a button. Some CD-writing programs have trouble working with older or more obscure drives, and users of these drives are often reluctant to try out alternative software to that originally supplied with their burner. However, compatibility is all but guaranteed with Ashampoo BurnYai as the software supports over 1,500 different CD burners. While both these programs are superb, they are slightly limited in their functionality. You can't, for example, copy discs directly (you have to copy the source disc to your hard drive first). For every other CD burning use they are difficult to beat.

It shouldn't take long to go from choosing files to having a successfully burned CD in your hand

Click on Show details when BurnYai is writing your CD to view a detailed log of each stage

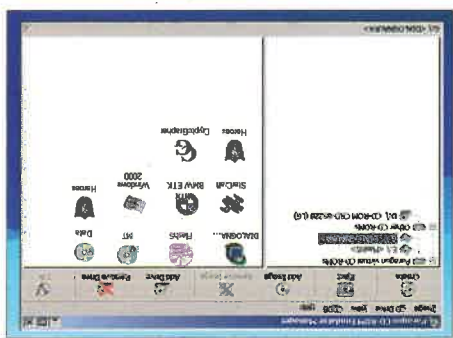

Paragon CD-ROM Emulator

Keep your most frequently used CDs within easy reach by storing them on virtual CD drives

The main menu grants easy access to new creation tools and existing virtual discs

The program stores a full list of your emulated discs within the Emulator Manager

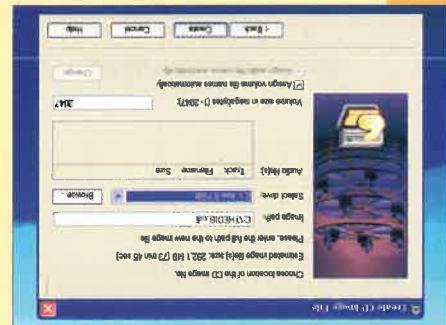

Paragon CD-ROM Emulator can be used to create several 'virtual drives' on your system. By using your hard drive space, the program can store all of the information from a CD (both data and audio discs), mounting it onto one of these emulated CD drives. When you attempt to run the program, instead of believing that it's still on a from a hard drive directory, the program thinks it's still on a disc in a CD drive. Not only is this clever, it's also very useful. Using the program is easy, and you don't need to have a vast knowledge of PCs to do so. Each action of the program

uses an easy-to-follow wizard to guide you through the emulation and grabbing process. Once the contents of a disc have been grabbed to the drive, you'll have a new virtual CD that can be accessed via the program's virtual CD drives. As well as the CD grabbing and emulation options, the program is also outfitted with a range of administration tools which enable users to take full control over these new drives. All drives and images can be made available to the operating system, and it's even possible to set a virtual drive to run on system startup. Created CD images can be 'inserted' and

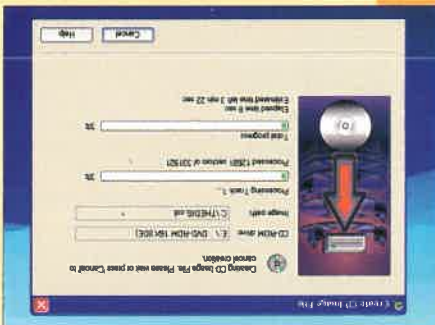

Step 1 Firstly, load up Paragon CD-ROM emulator. Insert the CD you wish to emulate and click Create. Select the image format (from CD, ISO, file etc) you wish to use. You can also choose the level of compression used in the image as you step through the wizard. Select the required option and continue.

Step 2 The next step is to choose a destination drive. If you only have one drive, or partition, you don't need to worry. But, if you have more than one, you will need to select which of the drives available you wish to host the emulated disc on. The wizard will display required and estimated space, as well as available drive space.

Step 3 Once you've gone through the wizard, you'll reach the grabbing process. The program will grab the data from the CD, compress it and mount it onto a virtual drive. This process can take a long time, so be prepared for a wait. Once done, you'll have a virtual drive ready and waiting.

Emulate a CD with Paragon CD-ROM Emulator 2.5

Upgrade offer

AlfaPad Notes Organizer

Don't rely on scraps of paper to store notes. Put them all in one place with AlfaPad

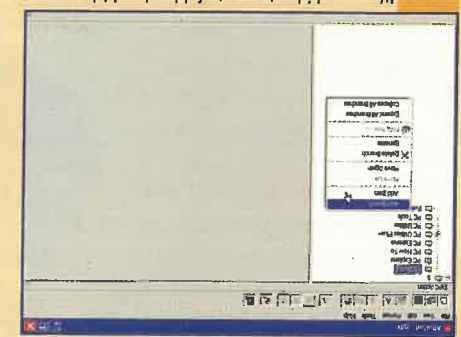

Easy to manage your contacts' various mail and email addresses and telephone numbers. However, unless you're using a more advanced tool like Outlook, you won't be able to manage other types of information, such as To Do list or schedule and you may instead need to rely on the likes of Post-it notes or a desktop diary in order to manage your busy schedule.

AlfaPad Notes Organizer is a good solution to this problem, as it enables users to store small pockets of information in an easy to browse. Windows Explorer-style hierarchical display. The program is split into two panes, the left-hand side with the right-hand pane displaying the contents of the currently selected note.

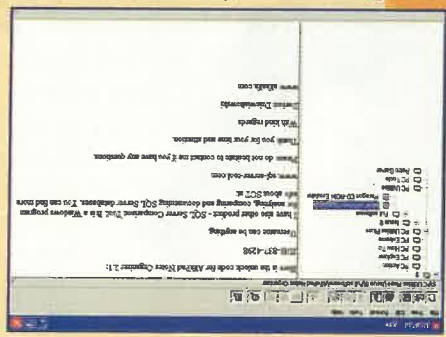

Although the program is relatively simple, there are a few things to be aware of. The program is relatively simple, there are a few things to be aware of. The program is relatively simple, there are a few things to be aware of.

Registering the program

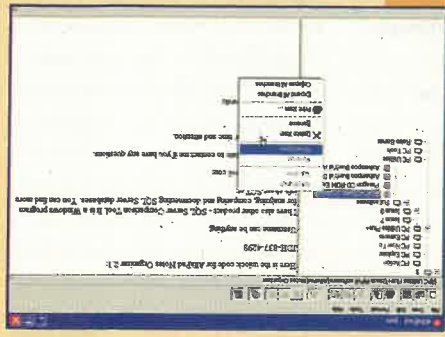

In order to use the program beyond the 30-day trial, you will need to enter a serial code. From the program's Help menu, select Register and enter whatever username you wish to use. In the Registration Number field, enter JDH-837-4298 and click the Register button. You can now use the program for as long as you like without limitations.

1 It's a good idea to create folders in which to store your notes. To do this, right-click on the \$ folder and select Add Branch. Type in the name of your new folder and hit Enter. After creating folders, you can move them to a different branch by holding down the left mouse button and dragging them to a new location.

2 To create a note, right-click the folder (or branch) where you would like to store the note and click Add Item. Click the New Item text in order to change this to a more suitable heading and press Enter. You can now enter text in the right-hand pane. Text can be formatted using the Format/Fonts option.

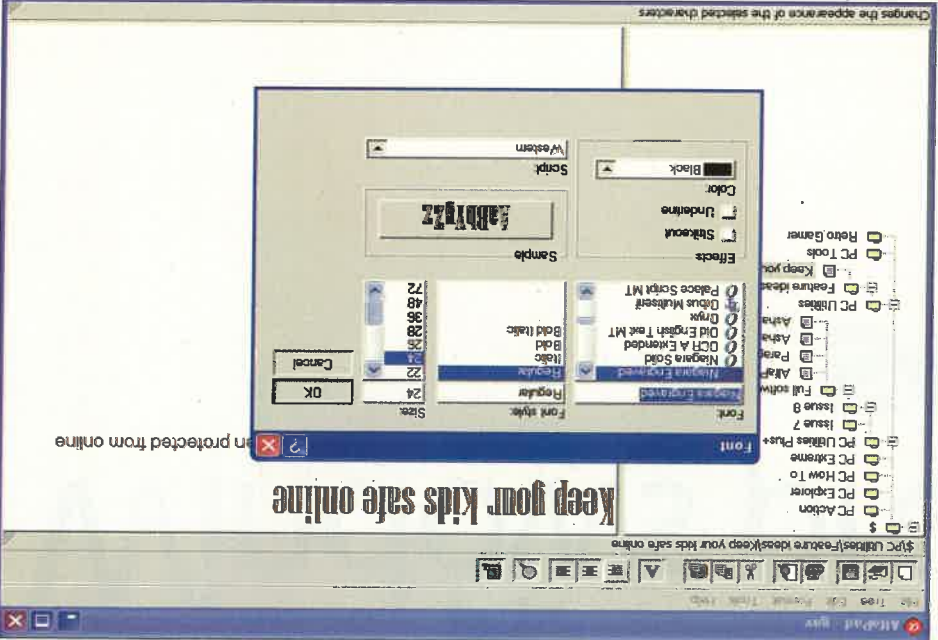

3 After creating a note, you can move it to another folder by dragging and dropping it to a different branch in the Explorer pane on the left. If you wish to change the order of notes or subfolders on a single branch, right-click the item and select Move Up or Move Down.

Location	Feature\alfaifa\apad.exe

Limitations	None
Contact	www.alfaifa.com

more advanced options on offer. For example, if you click Tools/Options you can select which note collection the program should start with, including a new collection. It is also possible to password-protect the program so that unauthorised users cannot access your notes.

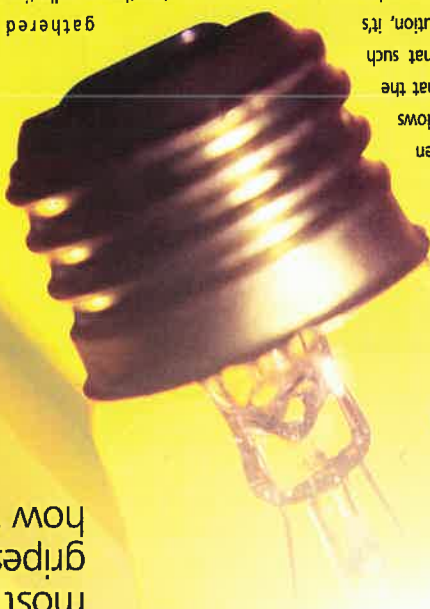

The fonts used in your notes can be altered to make them more readable or striking

FEATURED

The Top 40 Windows problems solved

When you have trouble with Windows there is no need for despair – we root out some of Windows' most troublesome gripes and explain how to fix them

Internet Explorer, Outlook Express, Windows Explorer and Media Player, each in their own section. Of course, we can't cover every single problem you're likely to encounter, so here is a selection of common ones that you are likely to come across at some point. Our collection focuses on some of the more complex problems and solutions, but others we've included are more trivial.

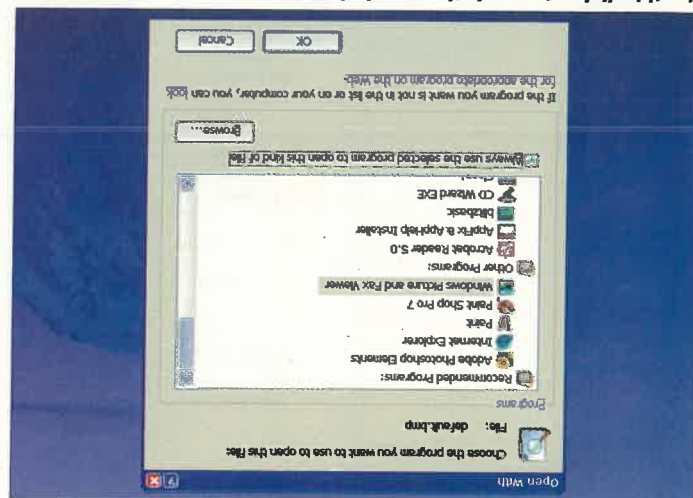

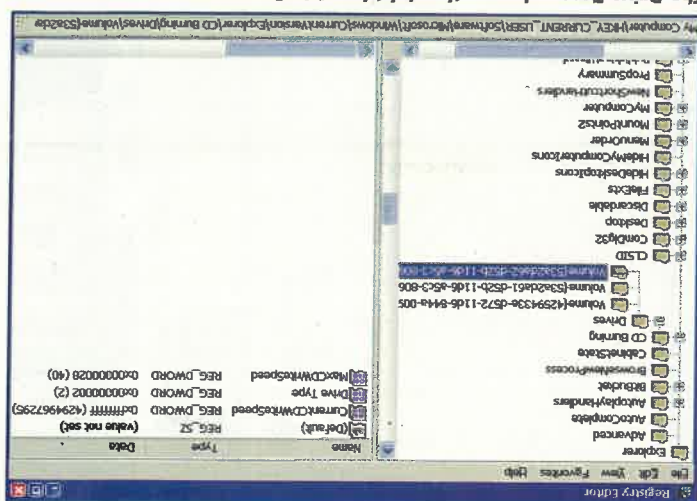

We don't expect you to read this article from start to finish because it is intended to be a reference guide. Save it and keep it somewhere handy near your computer. Even if you don't currently have a problem, you might have one tomorrow or next week, and the solution could well be listed here.

One of the most common methods of fixing problems is to reinstall Windows. By formatting the hard disk and reinstalling, you start with a clean state. It is guaranteed to fix everything and this is why you so often hear people say they reinstall Windows at least once a week. It is not that the operating system is so buggy that such drastic methods are the only solution, it's because they don't know how to solve problems.

You shouldn't need to resort to such desperate methods though, because we have

Windows is a reliable operating system, provided you don't install or run anything. Once you do, there is a potential that things will go wrong. It is not always the fault of Windows though – badly written or buggy hardware drivers are to blame for some faults, and utility software downloaded from the Internet or installed from CDs are to blame for others. Windows does have its fair share of bugs and problems, but so does any operating system. In fact, someone once said, "The only programs that do not contain bugs are trivial ones that do nothing important." It's true: all big and complex programs contain bugs and try as they might, the programmers can't eliminate them all.

The drive type value on the right is set to 2, which indicates this is a CD-RW drive.

The wrong file

If you put a blank CD-R or CD-RW in the drive, you might expect to be able to rename it in an Explorer window just as you can with other folders and disks, but it will not work. The solution is to rename the disc when you write data to it using the CD Burning Wizard process.

Cannot rename CD-R/RWs

If you have more than one operating system, Windows XP may not be on drive c: This may prevent Windows Explorer showing icons in the Folders pane. The solution is to use the subst command to point to the drive containing XP. Click Start/Run and enter 'cmd', Type 'subst c:\x\,' replacing x with the drive XP is installed on.

Missing icons

If you use Windows Explorer to view the contents of a CD, the CD name is displayed on the left and the CD contents on the right. If you eject the CD and replace it with another, the name on the left is updated, but the contents on the right may still show the old disc. This problem was fixed in Service Pack 1. Use Windows Update to download and install it.

Guidance

Windows Explorer

A matter of style

in the dialog box and tick the option at the bottom labelled Always use the selected program to open this kind of file. If the right program isn't listed, click the Browse button and select the .exe file on the hard disk.

Sloth-like performance

Also, for a clearer picture you should turn off visual styles. Click Start then right-click My Computer and select Properties. Go to the Advanced tab and click the Settings button in the Performance section. On the Visual Effects tab, clear the tick against Use visual styles on windows and buttons.

Missing floppy

When you switch on your computer and start Xp, you may see an irritating message prompting you to insert a floppy disk in the drive or click Cancel. This happens if you use the Restore previous folder windows at logon feature and you shut down or restart the

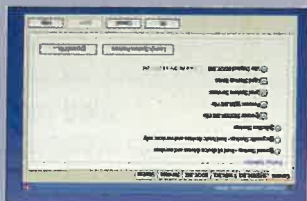

Does your computer sometimes run very slowly? Do the simplest tasks seem to take forever? When this happens, right-click a blank area of the taskbar and select Task Manager. Select the Processes tab and check the value in the CPU column for explorer.exe. Sometimes Explorer gets in a muddle and hogs all the CPU cycles. This problem was fixed in XP Service Pack 1 so use Windows Update to download and install it.

Can't copy to CD-R/RW

computer with a floppy disk drive window open. Windows naturally tries to restore the window. The solution is to remember to close the floppy disk window or disable the Restore feature. In any Explorer window, select Tools/Folder options, select the View tab and clear the tick against Restore previous folder windows at logon.

Windows XP may not recognise that a CD-ROM drive has CD-writing capabilities, and so prevent you writing to a disc. Fortunately, you can set the drive's capabilities in the registry. Click Start/Run and enter 'regedit' then go to HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\explorer\CD Burning\Drives. Click the volume GUID (the weird key on the left) for the drive and double-click Drive Type on the right. A value of 1 specifies a CD-R, 2 is a CD-RW and 3 is a plain CD-ROM drive. Enter the appropriate value.

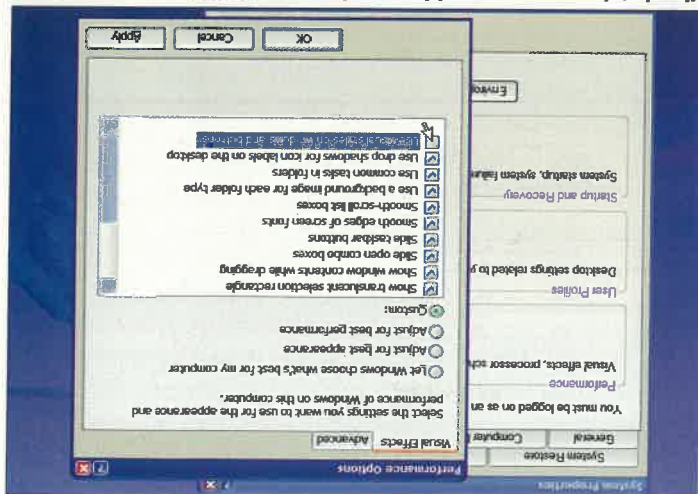

This utility can be used to disable problem programs loaded when booting up

Clean boot your PC

Clean boot your PC

Visual styles can cause problems with some monitors

New drivers

The solution to many Windows problems is to get new hardware drivers. Problems can range from games not working to DVDs not playing properly. Scanners, printers, sound cards, video cards, TV cards, firewire cards, motherboards and other devices all require drivers in order to operate. Compatibility problems and bugs can cause a variety of problems and the standard response to problems from many help lines is to update your drivers. New versions are released regularly, so use a program like Sandra (www.sisoft.com) to find out the make and model of the components in your PC

Make sure your drivers are up to date because they are the cause of many problems

Media Player

Get a codec

Video clips are highly compressed and require special software to decompress them called a codec. There are different types and if you haven't got the right one for a video clip, Media Player displays an error message like "invalid file format" or "Cannot play back the file. If you install the right codec, the file will play. A good collection of codecs can be downloaded from <http://codecs.nirx.ru> and www.planesimulation.com/video2.htm. Also get DivX from www.divx.com.

Eradicate clicks and pops

If you play an audio CD and the music contains irritating clicks and pops, it means that your CD-ROM drive is not compatible with digital playback. If you

Updating links

If you move an audio or video file in Windows Explorer, the entry in Media Player's library is not updated. If you then play the file in its new location, a new entry is added. After a while, the library contains lots of bad links and when you try to play files, Media Player skips the bad ones until it comes to a good one and you will wonder why the wrong file is playing. If you

have Media Player 7, select Tools/Options and go to the CD Audio tab. In the Playback Settings section, click Use error correction. If this does not cure the problem, dear the tick next to Digital Playback. If you have Media Player 9 or the Windows XP version then select Tools/Options and go to the Devices tab. Select the CD-ROM drive, and click the Properties button. Tick Use error correction, but if that does not cure the problem then select Analog as the playback method.

Not internet enabled

If you install an alternative media player, you may find that Media Player produces the error message, "Windows Media Player is not configured for the Internet..." This happens even though your computer is already configured for the Internet and even if you are currently online. It happens when the third-party player changes Media Player's settings. If you have Media Player 9, go to the Tools menu and select Options. On the Player tab, tick Connect to the Internet. With older versions of Media Player you need to run the Internet Connection Wizard and follow it through to completion.

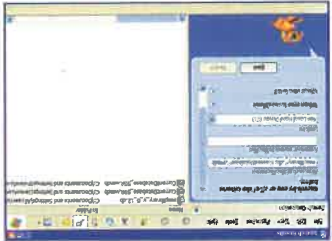

Improve compatibility

Media Player 9 is not 100% compatible with all programs and some do not work properly after upgrading, but the bypass list may help. When a program on the bypass list invokes Media Player's controls to play a clip, it uses an older version of itself that enables the program to work. The bypass list is held in the registry so click Start/Run and enter 'regedit'. Go to HKEY_LOCAL_MACHINE\Software\Microsoft\Windows\CurrentVersion\MediaPlayer\BypassList

Kernel errors

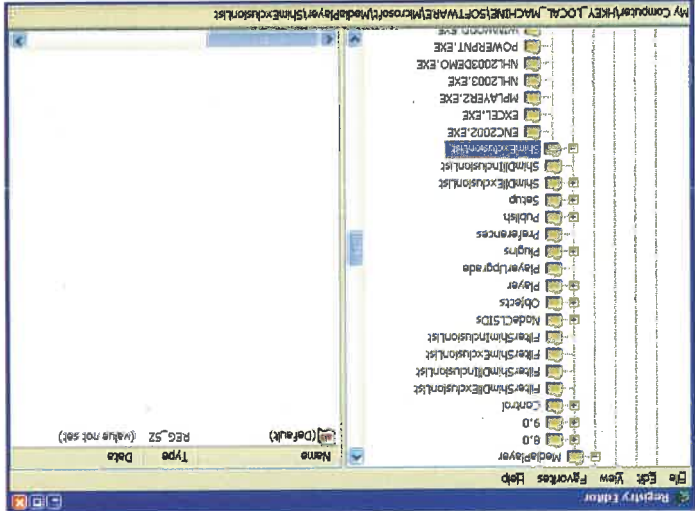

If you start Media Player 9 and it displays, "Windows Media Player has encountered a problem and needs to close" or "Windows Media Player Caused an Error in Kernel32.dll", it indicates a file called C:\Windows\Media\Kernel32.dll is either missing or corrupted. You need to download and install Media Player 9 again from www.microsoft.com/windows/windowsmedia/download/. It is best to remove the old player, but there may not be an entry in Add/Remove Programs in the Control Panel, so use System Restore to return Windows to a previous state.

If Media Player's database becomes full of bad links, delete these files and start again

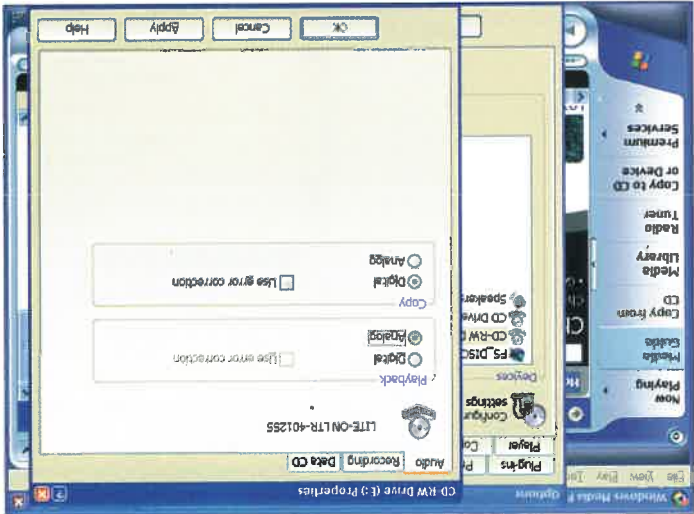

Troubleshooting Media Player

If you are having problems playing files with Media Player, you should try playing an old version of the program instead. Click Start/Run and enter 'wmp12'. Click File/Open

Adding items to this key in the registry enables programs to work with Media Player 9

Pop may be fun, but pop-ups aren't. Eliminate crackles by setting analog playback

the next dialog, then tick Disconnect when the connection may no longer be needed.

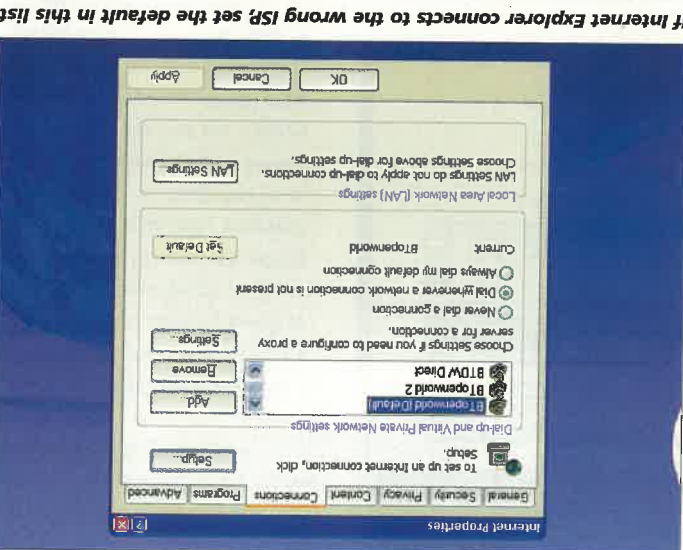

Opening Office documents

If you click a link to a Microsoft Office document on a webpage, you may find that it opens in the Internet Explorer window instead of running the appropriate application. To cure this problem, click Start/My Computer and select Tools/Folder Options. Go to the File Type tab and select an Office document, such as DOC Microsoft Word. Click the Advanced button then the tick next to Browse in the same window, or clear Open Web documents in place.

Unable to set the homepage

Normally you can set Internet Explorer's start page by selecting Tools/Internet Options and clicking Use Current or by entering a URL into the address box. However, a virus, spyware, Trojan or utility can prevent you. Run a complete scan of the computer with a virus checker (free from www.grisoft.com) and a spyware remover (free from www.lavasoft.de), then check the Add/Remove Programs list for rogue software. If you still can't set the homepage, click Start, Run and enter 'regedit'. Go to

"SOME PEOPLE HAVE REPORTED STRANGE THINGS HAPPENING WHEN INTERNET EXPLORER'S CACHE IS FULL"

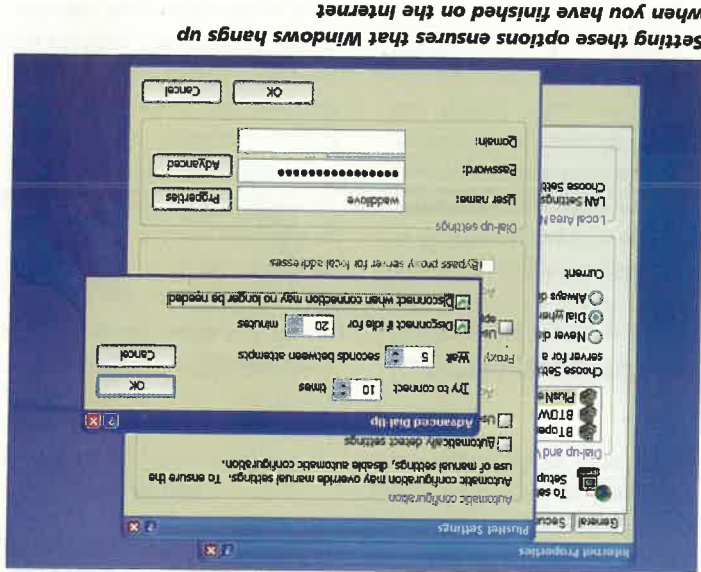

If Internet Explorer connects to the wrong ISP, set the default in this list

Webpage backgrounds are not printed by default and you need to enable them

Still connected

Windows should automatically prompt you to disconnect from the Internet when you close Internet Explorer. If it does not, you could accidentally stay connected for ages. You can enable the automatic disconnection feature. Run Internet Explorer then select Tools/Internet Options and go to the Connections tab, select the default dial-up connection and click the Settings button. Click Advanced in

Setting these options ensures that Windows hangs up when you have finished on the Internet

and select one of the problem files. If it plays OK then there is a problem with the latest version of Media Player so download and

install it again. Media Player makes heavy use of DirectX so click Start/Run and enter 'dxdiag'. Go to the Display tab and click Test DirectX then click Text DirectX. If any problems are reported, it means that you need new video drivers from the manufacturer's website. Finally, go to the Sound tab and click Test DirectX. If there are any problems, get the latest sound card drivers from the manufacturer's website.

Speed up Media Player

Does Media Player download content from the Internet very slowly? It could be that its speed setting is wrong. Go to the Tools menu and select Options. Click the Performance tab and in the Connection Speed box, then select the speed at which you connect to the Internet.

Internet Explorer

Set the default ISP

When you run Internet Explorer it connects to the Net and fetches the default homepage. If you have switched ISPs, you may find that it dials the wrong ISP. To set the ISP, select Tools/Internet Options and go to the Connections tab. Select the default connection, and click the Set Default button.

No images

Some people have reported strange things happening when Internet Explorer's cache is full, such as the inability to display images on webpages. If you are having a problem displaying pages,

try clearing the cache. Select Tools/Internet Options and go to the General tab. Click Delete Files and Clear History.

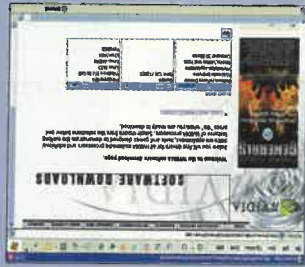

Printing problems

If you print out a webpage and all or part is missing, it may be because Internet Explorer does not print the background image or colour by default and you need to enable the option. Select Tools/Internet Options and go to the Advanced tab. Scroll down to the Printing section and tick Print background colours and images.

Pick an email client

If you click a mailto link on a webpage, Internet Explorer loads your email client and starts a new message. What if it starts the wrong program? It is easy to select the email client to use, just go to Tools/Internet Options and click the Programs in the list, such as Outlook, Outlook Express and Hotmail.

Use the Recovery Console

The Recovery Console is a bit like the old Dos prompt and is just as hard to use

This is a special mode of Windows XP that enables you to fix faults when you can't start the operating system. All you need to do is to switch on the computer with the Windows CD in the drive. Press R for the Recovery Console when you are prompted. There is a long list of commands available and there's a list of them, and type 'Help' followed by a command to see a description. Go to <http://support.microsoft.com> and enter '307654' into the search box for a full description of the Recovery Console.

View tab). Log off and log back on with this new account. Now delete c:\Documents and Settings\youroldname and rename the new folder name to the old folder name.

Repair Internet Explorer

computer uses the FAT32 filesystem you can create a boot disk on a Windows 98 PC, boot up with it, then enter:

If you try to re-install Internet Explorer, it may tell you that it is already installed. However, you can fool Windows into thinking you have an old version so that you can continue. Click Start/ Run and enter 'regedit'. Go to HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Setup\Uninstalled Components\{98922020-ECBD-11cf-8B85-00AA005B4383} and change the value from 1 to 0.

Windows XP

Fight corruption

Are you plagued by dialog boxes that pop up stating that you or a program has requested information from the Internet? This is followed by the Internet connection dialog prompting you to pick a dial-up connection and log on. The problem is Windows Messenger. Double-click the Messenger icon in the system tray to open it and select Tools/Options. Go to the Preferences tab and clear the tick against Run this program when Windows starts. Other programs can start Messenger, such as Outlook Express. Run Outlook Express and select Tools/Options then go to the General tab. Clear the tick against Automatically log on to Windows Messenger.

Forgotten password

What if you have forgotten your password and cannot log in to XP? Log on using another account with administrator status then click Start>Run and type '(control userpasswords2'. All the accounts on the computer are listed and you can select your account and click the Reset Password button. Enter a new password and you can log off then log back into your account.

Are you plagued by dialog boxes that pop up stating that you or a program has requested information from the Internet? This is followed by the Internet connection dialog prompting you to pick a dial-up connection and log on. The problem is Windows Messenger. Double-click the Messenger icon in the system tray to open it and select Tools/Options. Go to the Preferences tab and clear the tick against Run this program when Windows starts. Other programs can start Messenger, such as Outlook Express. Run Outlook Express and select Tools/Options then go to the General tab. Clear the tick against Automatically log on to Windows Messenger.

Irritating messages

With the NIFS filesystem you need to boot up using the Windows CD and select the recovery console before entering those commands. If the text scrolls up the screen too quickly, press Ctrl+S to pause it.

```
C:\windows
type setupact.log
```

Unexpected passwords

When you upgrade to Windows XP, it is possible for XP to assign a password to your account, even though you never had one before. Of course, you can't log on to XP because you don't know what that password is. You'll find it in `c:\Windows\Setup\log` and this text file contains a line that says "Random password for Username is XXXX", if the computer uses the FAT32 filesystem you can create a boot disk on a Windows 98 PC, boot up with it, then enter:

Are you plagued by dialog boxes that pop up stating that you or a program has requested information from the Internet? This is followed by the Internet connection dialog prompting you to pick a dial-up connection and log on. The problem is Windows Messenger. Double-click the Messenger icon in the system tray to open it and select Tools/Options. Go to the Preferences tab and clear the tick against Run this program when Windows starts. Other programs can start Messenger, such as Outlook Express. Run Outlook Express and select Tools/Options then go to the General tab. Clear the tick against Automatically log on to Windows Messenger.

WINDOWS

Set the default account to use when sending emails. It must match your ISP

need to download a patch from the Microsoft website. Go to <http://support.microsoft.com> and enter '816506' into the search box to find the file.

Hotmail hiccup

Outlook Express can be configured to access your Hotmail account for sending and receiving email. If you do this, but get an error message like, "Unable to poll for new messages on your HTTP server," it means that your privacy settings are too high in Internet Explorer. In the Privacy tab, click the Edit button and in the Address of website box, enter www.hotmail.com. Click the Allow button then close the dialogs.

Disabled hyperlinks

If you receive an email that contains hyperlinks, but nothing happens when you click the blue underlined text, then you need to re-register some files. Click Start/ Run and enter each of these commands one at a time:
 regsvr32 urlmon.dll
 regsvr32 shdocvw.dll
 regsvr32 browseui.dll
 regsvr32 msjava.dll

Errors in messages

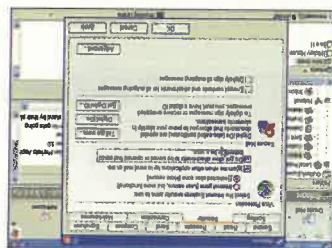

If you try to open an email and an error message says, "There was an error opening this message. An error has occurred," it might be due to McAfee VirusScan. If you have an old version, it is not fully compatible with Outlook Express 6 so you need to upgrade to the latest one. Go to www.mcafee.com.

"THERE WAS AN ERROR OPENING THIS MESSAGE"

enter '256219' into the search box to see a full description of the procedure.

Inaccessible attachments

If you have installed Service Pack 1 for Windows XP and cannot access email attachments, it is because Outlook Express considers them dangerous. You can disable this feature, but you need to ensure that you are protected with anti-virus software. In Outlook Express, select Tools/ Options and go to the Security tab. Clear the tick next to Do not allow attachments.

This security option catches a lot of people out because it removes email attachments

Bugs and errors

There is a bug in Outlook Express 6 included with Windows XP Service Pack 1 and you may see an error message that states, "Outlook Express has encountered a problem and needs to close." If you look at the cause of this error, the files msimn.exe and mshtml.dll are listed. If this happens, you

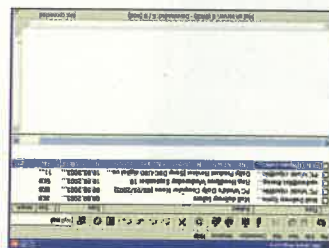

Outlook Express

Can't send emails

After switching to a new ISP, you may discover you can no longer send emails and an error message is displayed. This is because you can only send email through the ISP you are connected to. Run Outlook Express and select Tools/ Accounts. Select the email account for the ISP you use and click Set as Default. If you do not have an account with your ISP, use the Add button to add a mail account.

Email frozen

When you run Outlook Express to fetch your email, it can appear to lock up if someone has sent you a message with a large attachment. The solution is to use an email program that can read the headers on the server and delete messages without downloading them. Download a free copy of Popcorn from www.witcraft.com/products/popcorn/. This requires no installation, but you do need to enter your email server address and password. Once you have done this, click the red Inbox icon to list the emails on the server. Tick the one blocking your Inbox and click the Delete icon. You can now use Outlook Express to fetch the rest of your email.

If Outlook Express freezes when fetching messages, the cause could be a large email. Use Popcorn to delete it

Upgrade problems

If you get an error message like, "Outlook Express could not be started because MSOE.DLL could not be loaded," it is probably because of an incomplete upgrade that has resulted in a mixture of old and new files. If there is a newer version of Internet Explorer available, then download and install it because this will overwrite the old Outlook Express. It is best if you remove the old version, but this is a complicated process. Go to <http://support.microsoft.com> and

Next. Windows will shut down and restore the previous configuration.

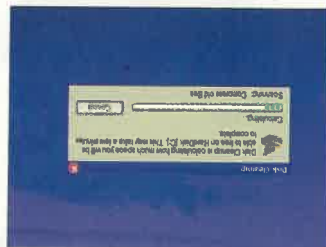

Sticky tooltips

The tooltip windows in the System Tray should be removed automatically, but if you have problems with part of them sticking on the screen, you should turn off the fade effect. Right-click an empty area of the desktop and select Properties from the menu. Go to the Appearance tab and click the Effects button. Clear the tick against Use the following fade effect for menus and tooltips.

Disk cleanup lockups

If you run Disk Cleanup and it locks up, there may be a corrupt file in the Windows Temp folder or Internet Explorer cache and you manually need to delete it. Click Start/ Run and enter '%temp%' to open an Explorer window showing the contents of the Temp folder. Press Ctrl+A to select all the files then press the Delete key. A file that is currently in use can't be deleted, but you can remove everything else. Then double-click Internet Options in the Control Panel and click Delete all Files on the General tab. Tick Delete all offline content.

Corrupt files in the Temp folder can cause Disk Cleanup to lock up at this stage

Can't defragment

Disk Defragmenter may display a message like, "Drive's Contents Have Changed: Restarting..." and the program never finishes. There are two solutions and you can either perform a clean boot or boot up in Safe Mode. To enter Safe Mode, tap the F8 key a few times when Windows starts to load. When you get to the screen that lists the startup options, are asked for the administrator password, press Return if it is blank, or enter it if you have set one. When the desktop appears you can run Disk Defragmenter. See the box on page 13 for details on performing a clean boot.

Advanced CD creation

There's much more to CD authoring than show you how to get the most from your disc-burning hardware

Over the past 10 years, the digital storage arena has changed dramatically. Turn back the clock to the early 90s and the only portable means for storing files were tremendously limited floppy disks and – for the more fortunate or well off amongst us – more bulky backup and storage devices such as tape drives and Zip disks. Eventually, writable CD drives and media were introduced to desktop PCs and the whole nature of computing changed. Initially, writable CD drives were incredibly expensive and were only used by those with a real need to author discs, true gadget lovers for whom money is no object, and software pirates. As prices have fallen – both in terms of the drives themselves and the writable discs accompanying them – CD authoring has become accessible to all, and CD-Rs

are fast replacing floppy disks as the standard storage and backup medium. In fact, with DVD media constantly on the rise, the standard CD-R could soon be replaced as the most popular backup method, but there's plenty of life left in the old media yet. Almost all new PCs sold come with a CD writer fitted as standard, and even for those who don't own such a device, CD writers are often a high priority on the upgrade list. The low price of CD-R discs (particularly when bought in bulk), coupled with their high capacity and convenience, have made them a popular way of backing up vital files or sending large documents to friends or colleagues, but CDs are capable of much more than just data storage. No doubt you've already used your CD writer to create audio CD compilations and perhaps even

Over the course of this article, we're going to explain how to get more life from your humble CD burner. Whether it's creating CD-based photo albums, constructing menus or getting better performance from your drive, we have all the know-how – and essential utilities – you need.

right programs. VideoCDs. However, there is so much more that can be done with your drive and a few blank discs. There is a wide variety of tools available that make it easy to create much more varied and imaginative CD-based projects. You can create an autorunning presentation, for example, or build an interactive menu system to aid navigation through a disc's contents. You don't even need any programming experience either, as a lot can be achieved using the

Power presentations

Another possible use for the humble CD-R is creating disc-based presentations. We've covered the likes of slideshows, but suppose you want to create a business proposal, or need to demonstrate something to others. Microsoft's PowerPoint is one of the most popular programs around for this type of media, with businesses and organisations around the world using it in meetings and PowerPoint-style presentation using custom images and a slideshow program as seen on the previous page. But why struggle to

if you fancy creating something a little more versatile than a PC slideshow CD, you may want to dabble with tvCD. This slideshow program can produce CDs that are viewable in any normal DVD player. Like the other programs here, all you need to do is collect together the images you want to use and then set up the CD options. When you're ready, you can burn the slideshow onto a CD for viewing via your DVD player and TV.

This CD will launch the PhotoPlayer browser from which you can access all of the slideshow features. Creating one of these slideshow applications is easy: from the main program, select the Create Autoturn CD option; create a new folder and drag the images you want to include on the CD over to the relevant folder. You can also add music if you wish. Once the files are copied over, burn the contents to a CD, and

same approach. Once the pieces are all in place, you need to burn the directories and program files to a CD using your usual CD-burning application.

A more complex and involved program for creating slideshows is Unidream PhotoPlayer Plus. This is a packed program that can be used as a powerful image viewer and organiser, and is capable of building an

and you can make as many copies as you like for backup (in case of disc error, damage or loss) and to share with family and friends.

PhotoCDBrowser is a simple and easy-to-use program that doesn't even require the use of a standard graphical interface. Instead, PhotoCDBrowser operates by accessing pictures placed into the program's directory contained within the program's directory.

displaying your pictures properly may be even more of a problem. The chances are your pictures are gathering digital dust in a folder on your hard drive where no-one, other than yourself, is likely to see them. Regardless of whether your photo collection is digital or traditional in nature, CD-writing technology can provide an ideal means of ensuring your pictures will be seen, as well as backed up safely.

Whilst it's perfectly possible to back up digital pictures – or scanned in film prints – onto CD-R discs, there's a lot more you can do with the right tools. For example, you can create your own rolling or interactive slideshow that can be played on any system – a great way of showing off your holiday snaps or remembering your wedding day. Your photos will stay in a perfect condition,

"YOU CAN CREATE YOUR OWN ROLLING OR INTERACTIVE SLIDESHOW SYSTEM – A GREAT WAY OF SHOWING OFF YOUR HOLIDAY SNAPS"

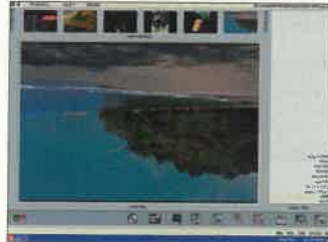

Digital photo albums

PhotoPlayer Plus has an excellent array of slideshow creation options to help you customise your project

By using a simple directory structure and a collection of image and text files, you can create a slideshow

As well as creating slideshows discs for use on your PC, you can use tvCD to create DVD player-compatible discs

Windows XP PowerToys

Microsoft has released a PowerToy for Windows XP that can assist in creating CD-based slideshows. This tool is not provided with Windows XP itself and needs to be downloaded from www.microsoft.com/windowsxp/pro/downloads/powerToys.asp, where you'll also find a range of other useful tools. Select CD Slide Show Generator and once downloaded, double-click the file to install it.

Once installed on your system, the CD Slide Show Generator option will be available whenever you attempt to write a group of image files to a CD using XP's built-in CD-burning tool. The CD Writing Wizard will give you the option of adding an autoturn picture viewer to the disc, which operates in a similar way to the picture slideshow option in Windows XP, with the added advantage that it autoturns and will operate on any Windows system.

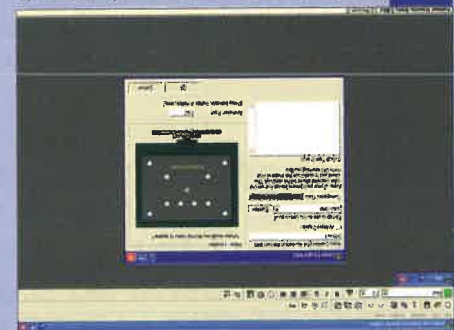

The XP PowerToys CD Slide Show Generator is simple yet effective

1 Install the program onto your system then browse to the directory and open the Maestro editing program (the file is called *Maestro.exe*). You'll be given the choice of creating a new menu or editing an existing one. Choose the new option to begin creating your menu.

2 For this guide we'll keep things simple and use the program's existing background and buttons. First though, we need to select the menu position. Choose the required option and enter in the name of the new menu. If you want, enter some text into the custom text window.

Use Autorun Maestro

If you don't have a copy of PowerPoint, or if you the option of starting the slideshow. and the PPCD window will appear giving you the option of starting the slideshow. Once the disc is written, place it into a system. .exe file and autorun.inf is already set up. has all of the folders already laid out and the burned onto a CD-R. This directory structure files into a directory structure which is then program. Instead, you place the required don't use any form of GUI to manipulate the page). Like the slideshow software, you similar way to PhotoCDBrowser (previous in the CD and you're away. PPCD works in a need to proceed with the presentation, slip complete with an autorun facility. When you burn existing PowerPoint files onto a disc, PPCD is a program that enables you to based version?

tion when it's possible to create a disc- recreate an existing PowerPoint presenta- have a presentation already created, you'll no doubt want to find another option. CDFrontend Lite is one such choice. This is a powerful authoring program that lets you create your own presentation using the included range of tools. You can place text and images onto the pages of the project and music and video clips can also be added. This makes the program excellent for presentation to CD, which can then be run on other systems. Adding video and music isn't difficult either, and consists of dragging and

Create your own PowerPoint-style presentations from scratch with CDFrontend Lite

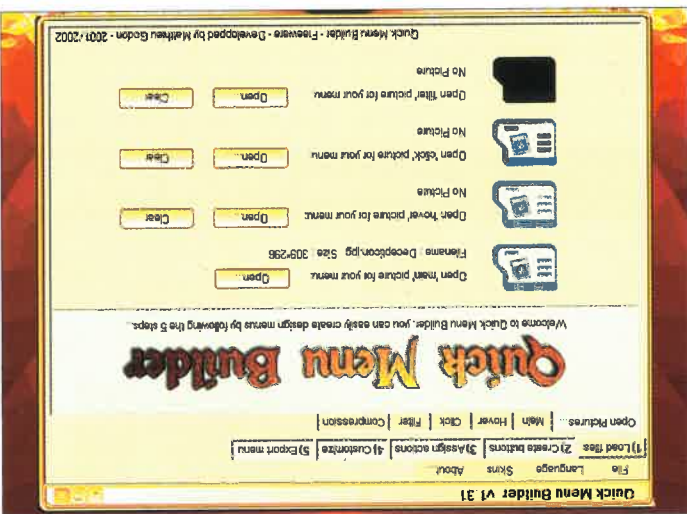

If you've got PowerPoint presentations that you need to take with you, create autorun CDs with PPCD

MediaMenu can be used to create your own custom full-screen menus for your CD creations

Quick Menu Builder is one of the best menu creation programs available and is a breeze to use

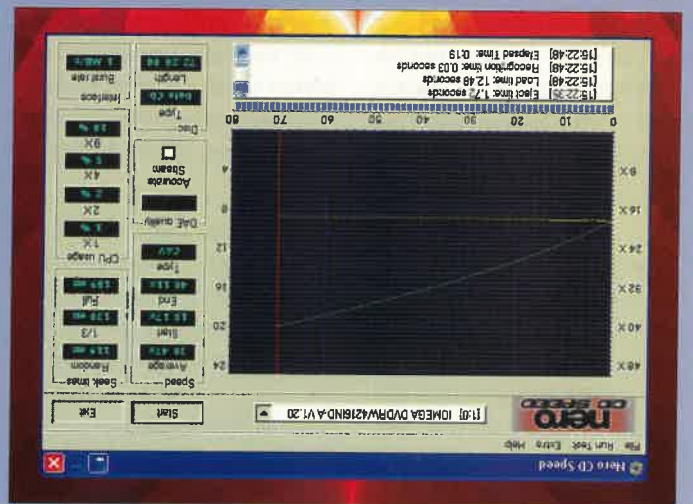

dropping items into place. You can also give items hyperlinks to enable connections to relevant websites. For security purposes, each individual page in the presentation can be assigned a password, which is requested upon opening a page (this feature is only available in the pro version, however).

Menu manipulation

A lot of professional CDs – including our very own PC Utilities coverdisc – feature a front-end menu from which to browse the contents. These menus can not only make using your CDs much easier, but they can also add a high level of professionalism to a disc.

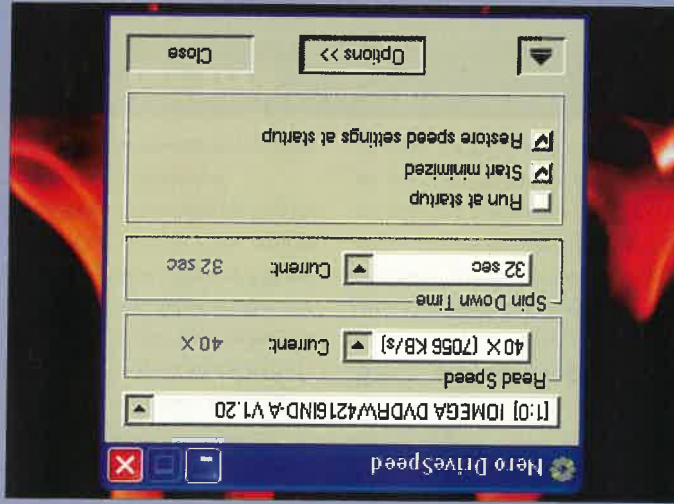

Getting the most out of your CD burner isn't just about the things that you can do with it; it's also about the performance of the device. If you've got an old drive, you may start to notice the writing speed degrading over time, or you may start to produce a higher volume of corrupt CDs. For this reason, it's a wise idea to regularly test your drive's performance to highlight any possible errors.

Nero CD Speed is a small tool that can be used to check your drive and CDs for any problems. It can run a full

Using Nero CD Speed, you can check your CD drive and individual CDs for any problems

Nero DriveSpeed is a small app that lets you limit the speed of a drive. Why would you want to do this? Well, although a lot of drives around at the moment let you write at high speed, they can be noisy and are sometimes more prone to errors (often depending on the quality of the discs being used). DriveSpeed lets you select a maximum writing speed for the drive, hopefully cutting down on any errors and possible CD noise. DriveSpeed runs in the System Tray and can be used to adjust the drive speed at any time.

If you've got a noisy CD drive, or keep getting write errors, try reducing the maximum speed

selection of speed tests on the various drive functions (such as seek times and CPU usage), and can also check CDs for any corrupted sectors and data.

Another CD-checking program is the appropriately named CDCheck. This, like CD Speed, can run a series of checks on your CDs and will report any errors it encounters. As well as the scanning aspect, CDCheck can also compare files and folders and perform special CRC tasks. Should you have any corrupted data, you can even use the rescue option in an attempt to retrieve the lost data.

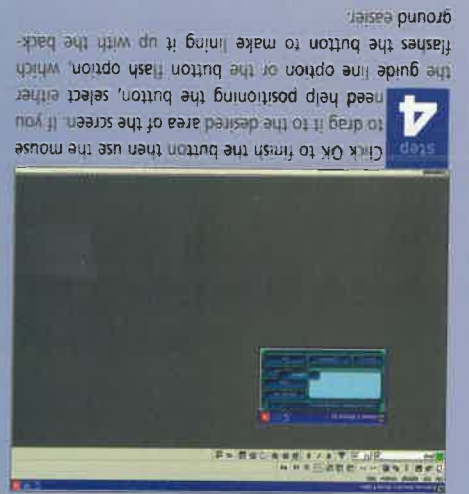

Creating a professional-looking front-end for a disc compilation usually requires some programming knowledge, and many CD menus are created using Visual Basic. There are also languages such as Flash or even C++ Obviously, many people don't have the time

to go and learn a whole programming language in order to create a CD menu, but Quick Menu Builder is an easy-to-use application that lets you create your own menus for use on your discs. Using the tabbed interface, select the images you

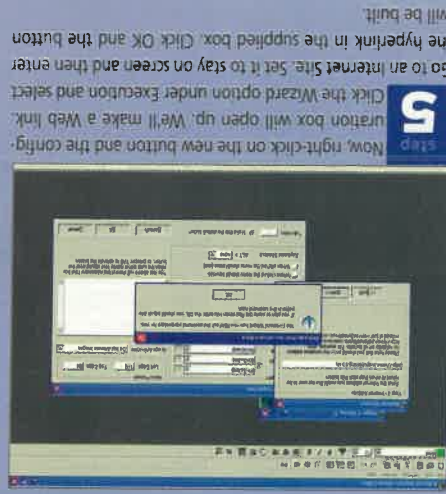

wish to use for the backdrop of your menu and then create the buttons you require, assigning actions to each one. This is all done via the straightforward menu system, and there's no need for any coding whatsoever. Selecting the actions for buttons is simply a case of choosing the relevant

option from a drop-down menu. You can even set up different button sounds and rollover states.

MediaMenu is another option, although this requires greater input from the user, and is more complex. You can create a full-screen menu, complete with custom images, text

Click OK to finish the button then use the mouse to drag it to the desired area of the screen. If you need help positioning the button, select either the guide line option or the button flash option, which flashes the button to make lining it up with the background easier.

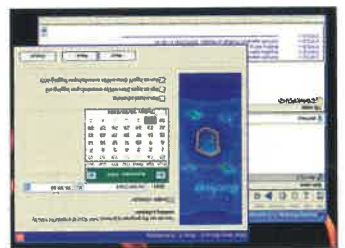

Now, right-click on the new button and the configuration box will open up. We'll make a Web link. Click the Wizard option under Execution and select the hyperlink in the supplied box. Click OK and the button will be built.

Go to an Internet Site. Set it to stay on screen and then enter the hyperlink in the supplied box. Click OK and the button will be built.

Click OK to finish the button then use the mouse to drag it to the desired area of the screen. If you need help positioning the button, select either the guide line option or the button flash option, which flashes the button to make lining it up with the background easier.

WINDOWS

creator that can be used to create menus for your CDs. These menus can contain a range of different buttons, all with various states (such as rollover, pressed etc). You can also configure the various buttons to perform different tasks. Specific programs can be launched, websites can be opened and you can open and view documents. There's even a small window containing rollover text for each button. The program comes with an included autorun.inf file that references the menu and launches it when you insert the CD into the drive. For more information on Autorun Maestro, see our guide on the previous page.

Back up to disc

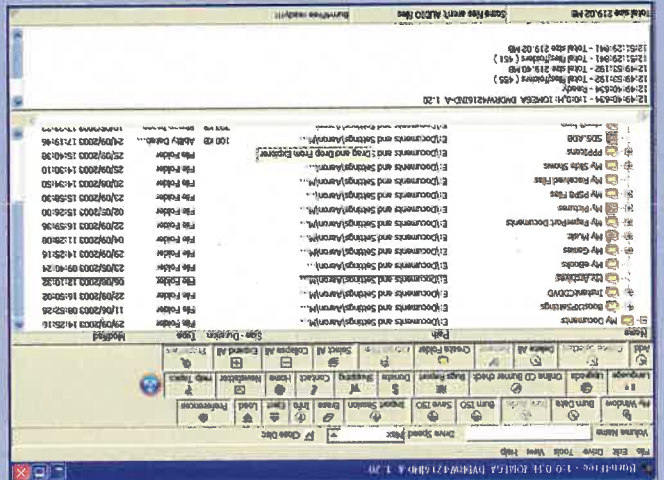

Getting the most from your CD writer doesn't necessarily mean using it to create multimedia projects or showing off your photos. You can also use it to ensure that you don't lose irreplaceable data. Backups are one of the most common uses of the CD writer, but this is usually in a standard

Burn for free

Most people will already have access to a CD-writing package of some form, as most new PCs and CD writers come with a bundled title. Ahead Software's Nero and Roxio's Easy CD Creator are the two most popular CD-writing applications around at the moment, but these are full-price programs: if you've bought a CD writer in a clearance sale, or second hand, it may not have any writing software at all. In this instance, the freeware scene is a great help, and there are a number of free CD-burning alternatives available.

Burnfree is one such free alternative, although only .wav files are supported. You can create both data and audio CDs both standard CDs and re-writable discs, and other version of Windows. It supports application that can be used both in XP. Despite the name, this is a free burning. Another option is CDBurnerXP. A burn option.

forward, and there's a special two-click burn ISO files. The program is straight-forward, and DVD, and will even burn ISO files. The program is straight-forward, and there's a special two-click burn option.

**"WITH THE RIGHT SOFTWARE
INSTALLED, YOU CAN TURN YOUR CD
WRITER INTO A FULLY FUNCTIONAL,
AUTOMATED BACKUP SYSTEM."**

drag-and-drop way, with files moved onto a disc and then burned. This doesn't have to be the case as you can use CD-Rs in a backup capacity in much more flexible ways. One of these ways is scheduling automatic backups, just like the ones used by companies to back up data on a daily basis (using tape drives). With the right software installed, you can turn your CD writer into a fully functional, automated backup system. This means that you can leave a CD in your writer, and the backup will take place automatically, with no multiple CDs.

Back4Win is another backup program that can archive your files in a compressed

input needed from you (except a new disc when required). Handy Backup is a program that lets you do just this, and a whole lot more besides. It's a fully featured backup suite that lets you perform all sorts of backup at a later date.

It's a common problem when trying to burn a disc that the data you want to burn won't fit onto it. This is an irritating problem, and trimming down the data so it does fit can be a problem. Burn to the Brim should help with this space-saving problem, letting you quickly and easily get the most out of your blank CDs. By selecting items to be included on the disc.

Pushing the envelope

format onto a CD. Compressed archives can be encrypted for a better level of protection in case you lose the disc and spanning is included. The program can also be used to extract files from an existing archive at a later date.

Overburning

you may find you have no problems whatsoever. One of the best ways to try over-burning is to use Nero. This has built-in support for overburning and the whole thing is done in the same way as building a standard CD. All you need to do is add a little more data than usual to the disc and Nero will show this with a visual readout. Once the data is piled on, burn the disc as usual. If all goes well, you'll have an over-burned CD.

Please note however, that overburning is done at your own risk. It's common for overburned discs to be unreadable by some drives, and in some rare cases, over-burned discs have been known to damage CD drives. In most cases though, you should have no problems, and most new drives around at the moment will perform overburning smoothly.

PC Tweaker .Net Edition

Utility name	File name	File size	System	Notes	Description
1 Click & Go	1clickgo.zip	302KB	98/NT/2000	Limited trial	Gain easy access to files and folders
100xCD	100xCD_2-7.exe	667KB	XP	Limited trial	Speed up the performance of your CD drive
123Registry 1	DemoSetup.exe	788KB	98/Me/XP/NT/2000	Limited trial	See what starts up when your PC is turned on
123WashAll Professional Edition	123washall.exe	1,830KB	98/Me/XP/NT/2000	Limited trial	Clean up all unwanted history data on a computer
1st Evidence Remover	evremove.zip	984KB	98/Me/XP/NT/2000	Limited trial	Destroy all hidden windows and needless activity
1st TurboRun	turborun.exe	751KB	98/Me/XP/NT/2000	Limited trial	Quickly get to any program, document or bookmark
1st Virtual Multi Zone Promotional Clock	se23.exe	808KB	98/Me/XP/NT/2000	Free	3D animated desktop alarm clock with three different time zones
1st Virtual Promotional Clock	cv23.exe	749KB	98/Me/XP/NT/2000	Free	Customize this clock with your promotional material and distribute it as a free gift
1toX	1toX.zip	526KB	98/NT	Limited trial	A handy file splitter for Windows
2XExplorer	2xex1412.zip	347KB	98/Me/NT/2000	Free	Manage your files with this dual-pane replacement for Windows Explorer
ADiskClean	Adiskclean.exe	936KB	98/Me/XP/NT/2000	Limited trial	Delete your temporary, junk and old backup files
4t Tray Minimizer Free	4t-min.zip	700KB	98/Me/XP/NT/2000	Free	Minimize active applications to the System Tray, freeing up space on your taskbar
7-Zip	7z312.exe	915KB	98/Me/XP/NT/2000	Free	Compress and decompress files in the ultra compact .7z format
A Note	A_Note_1_2.zip	500KB	98/Me/XP/NT/2000	Free	A Post-it-style program for your desktop so you never forget those important times
A Shutdown	a_sdown.zip	937KB	98/Me/XP/NT/2000	Free	Manage the way Windows closes with this professional shutdown manager
A&C Amber PDF Merger	abcpdfmg.zip	1,107KB	98/Me/XP/NT/2000	Limited trial	Powerful tool to merge a number of .pdf files
AB-Key Manager	titanix.exe	629KB	98/NT/2000	Free	Keep track of your system passwords
AbiCalc	abicalc.zip	673KB	98/Me/XP/NT/2000	Free	Simple easy to use calculator that shows big numbers in a natural style
AbsoluteControl	AbsoluteControl-ENG-Setup.zip	184KB	98/Me/XP/NT/2000	Free	Simplify and automate many standard Windows functions
Aburd Terminator	term.exe	305KB	98/NT	Limited trial	Shut down your computer with help of hotkeys
Accelerate	accesetup1.exe	1,106KB	98/Me/XP/NT/2000	Limited trial	Optimize settings for enhanced Internet data transfer
AccessNum	accessnum.zip	23KB	XP/2000	Free	View access permissions for files, folders and registry keys
Acc Utilities	accutils.exe	779KB	98/Me/XP/NT/2000	Limited trial	Optimize windows by cleaning the hard disk and registry, and by erasing history files
Action!	action_e.zip	552KB	98/Me/XP/NT/2000	Limited trial	Capture the action and sound from your Windows desktop and save it to a movie file
Active Keyboard	actkeyb.zip	829KB	98/Me/XP/NT/2000	Limited trial	Run a whole range of common functions and programs
Active Keys	Active-keys-2.02.exe	760KB	98/Me/XP/NT/2000	Limited trial	Create and manage keyboard shortcuts
Active KillDisk	KillDisk.exe	434KB	98/Me/XP/NT/2000	Free	Securely delete all of the information on a disk – unrecoverable so use with care
Active Launch	al.exe	654KB	98/Me/XP/2000	Limited trial	Launch the same applications every time you start Windows
Active@ UNDELETE	Undelete-Demo-Full.exe	1,810KB	98/Me/XP/NT/2000	Limited trial	Recover files that have been deleted on hard drives, floppies, memory cards or RAID arrays
Active@EXIT	aeexit22-setup.exe	344KB	98/Me/XP/NT/2000	Limited trial	A set of tools for Windows that can run a program automatically
Active@Printer	activePrinter_1.3.exe	358KB	98/Me/XP/NT/2000	Limited trial	Small yet powerful printer utility
Active@SMART	activesmart241.exe	877KB	98/Me/XP/NT/2000	30-day trial	Monitor the SMART parameters of your hard disk
Activicons	acticon.zip	1,66KB	98/Me/XP/NT/2000	Free	Customize your desktop, system icons and cursor attributes
Actual Title Buttons Lite	atbsetup.exe	1,581KB	98/Me/XP/NT/2000	Free	Keep any window on top or in the System Tray
Actual Windows Minimizer	awmsetup.exe	1,370KB	98/Me/XP/NT/2000	Limited trial	Minimize your applications to a smaller box
Add/Remove Cleaner	addremov.zip	256KB	98/Me/XP/NT/2000	Free	A small program to clean the Add or Remove programs dialog in Windows
ADM Active Directory	ADM_Viewwrmst	2,004KB	98/Me/XP/NT/2000	Limited trial	A super directory analyzer program
Adrenaboard	AB_setup.exe	342KB	98/Me/XP/NT/2000	Free	Extended the functionality of the Windows clipboard
Advanced File Organizer	aforg.exe	1,290KB	98/NT/2000	30-day trial	Catalogue your files and directories across your disk collection

Internet

A large proportion of home computers are now Internet-enabled and both Web browsing and email have become common pastimes. You may think you know your way round the Web quite well, but are you making the most of your Net connection? On this issue's packed DVD there are almost 600 Internet-related tools to help you do just that. As well as a massive number of browsers, Internet Explorer add-ons and privacy tools, we've also collected together a generous selection of email tools to help you sort your messages or overcome the menace of spam, and networking tools to put you in complete control of your LAN.

Turbo Mailer	TurboMailer-Setup.exe	999Kb	98/Mc/XP/NT/2000	Limited trial	Professional mass mailer program
VampireX Antispam Plugin for The Bat!	vampirex-setup-160-02-04.exe	281Kb	98/Mc/XP/NT/2000	Free	Add spam-blocking capabilities to The Bat! email client
V-Mailer	vmail101.zip	154Kb	98/Mc/XP/NT/2000	Free	Send a message to a single email address via a batch file or DOS prompt
WinAntiSPAM	wast117.zip	685Kb	98/Mc/XP/NT/2000	Limited trial	Protect your email boxes with this small program
Xjam	XjamSetup.exe	546Kb	98/Mc/XP/NT/2000	Free	Match incoming emails against a list of knowing spammers
X-Spam	X-SpamSetup.exe	4,200Kb	98/Mc/XP/NT/2000	Limited trial	Eliminate spam emails before downloading them from your mail server
Zeap AntiSpam	zpepsrv.exe	1,063Kb	98/Mc/XP/NT/2000	30-day trial	Eliminate spam messages using a challenge-based response system
ZcureAttach	zattach.zip	425Kb	98/Mc/XP/NT/2000	Free	Send your email hassle free with this attachment
ZerAT	zerat.zip	27Kb	98/Mc/XP/NT/2000	30-day trial	A tiny console-based email and news client for Windows
Utility name	File name	File size	System	Type	Description
32bit Service Monitor	32bssx.exe	573Kb	XP/NT/2000	Limited trial	Monitor whether a WebRemailerFTP server is on- or offline
A-A-5 Application Access Server	aas.zip	316Kb	98/Mc/XP/NT/2000	Free	Manage your computer over the Internet with this network tool
Absolute Time Server	acs22.exe	632Kb	98/Mc/XP/NT/2000	Free	Keep your system's time spot on with this atomic clock
Agent Password Sniffer	AgpSetup.exe	726Kb	98/Mc/XP/NT/2000	Limited trial	Most powerful and effective password sniffer
Active Ports	aports.zip	461Kb	NT/2000	Free	View which TCP/IP and UDP ports are open on your computer
Active Server Watcher	asw.zip	471Kb	98/NT/2000	Free	Receive notification when webpages or other Internet servers change
Add/Remove Plus!	arpmke.exe	885Kb	98/Mc/XP/NT/2000	30-day trial	Extend the functions of the Windows Add/Remove Programs list
Advanced IP Address Calculator	ipcalc1.1.zip	233Kb	98/Mc/XP/NT/2000	Free	Quickly discover your Internet IP address
Advanced Port Scanner	pscan1.1.zip	377Kb	98/Mc/XP/NT/2000	Free	Scan systems for available and open ports
Agent Password	agentpas18.exe	922Kb	98/Mc/XP/NT/2000	Limited trial	Log all passwords entered on your system
Anyplace Control	AnyplaceControlinstall.exe	1,109Kb	98/Mc/XP/NT/2000	30-day trial	View and operate an another user's PC from a remote computer
Ares Lite	areslite181.exe	916Kb	98/Mc/XP/NT/2000	Free	Search and download any file on the Ares network
Bizzy Net	Bizzynet.exe	4,660Kb	98/Mc/XP	Free	Search P2P networks for the files you seek
BMExtreme	BMExtreme v2.30.exe	312Kb	98/Mc/XP/NT/2000	Limited trial	Monitor your Internet bandwidth
BySoft Network Monitor	NetworkMonitor.exe	143Kb	98/Mc/XP/NT/2000	Free	Monitor the traffic and activity taking place over your network
CurrPorts	cports.zip	40Kb	98/Mc/XP/NT/2000	Free	View which ports are currently in use on your system
Cybercat Software	cybercat.zip	491Kb	98/Mc/XP/NT/2000	Free	A complete software solution for cyber café management
DialerSpy	dspy1_2en.exe	347Kb	98/Mc/XP/NT/2000	Free	A free program for controlling modem connections
DNS Detainer	dnss.exe	466Kb	XP/NT/2000	Limited trial	Visually query DNS servers and view the results as a detailed list
EMCO RemoteAudit	remoteaudit2setup.exe	3,160Kb	XP/NT/2000	Limited trial	Collect installed software and hardware
EtherSnop Light	EtherSnop-Setup.zip	2,410Kb	98/XP/NT/2000	Free	Monitor all the information traversing your network via a tree-based Explorer-style view
Famine NetSend	netsend.zip	243Kb	98/Mc/XP/NT/2000	Free	Send messages over a network
HealthMonitor	HealthMonitor_1.75stable.zip	287Kb	XP	Free	A free health monitor for your network needs
HOST Searching	hosts_setup.exe	480Kb	98/Mc/XP/NT/2000	Free	Search all your networked machines for their MAC addresses
IO0 Trace IT	IO0TraceIT2-0.exe	501Kb	98/Mc/XP/NT/2000	Free	Trace routes to a domain or IP address
Invisible Chat	ic_121.zip	677Kb	XP/NT/2000	Limited trial	Real-time chat program for office LANs of all sizes
IP Control	ipcontrol.zip	88Kb	98/Mc/XP/NT/2000	Free	Receive information about your current IP address
IP->Com	ip.com_v2.5_7.exe	524Kb	98/Mc/XP/NT/2000	Free	Enable any serial port on your PC to interface directly with a TCP/IP network
Konst Flinger	Flinger.EXE	1,008Kb	98/Mc/XP/NT/2000	Free	Perform ping, whois and traceroute functions
LANFinder	LANFinder.exe	442Kb	98/Mc/XP/NT/2000	Free	Scan your network to identify all the computers in your workgroup
LANHelper	LHSetup.exe	739Kb	98/Mc/XP/NT/2000	30-day trial	A powerful network management utility
LANMessages	lanmessage.zip	294Kb	XP/NT/2000	Limited trial	Send messages to others on your LAN
LANTalk XP	lantalk-xp.exe	828Kb	98/Mc/XP/NT/2000	Limited trial	Communicate with other users across your local area network
LogLadY	LogLadY10.exe	454Kb	98/Mc/XP/NT/2000	Free	Collect the syslog traffic on your network
Mac Makeup	macmakeup153d.zip	294Kb	98/Mc/XP/NT/2000	Free	Spoof your system's MAC address at will
MACView for Netware	macview.zip	230Kb	NT	Free	MACView for Netware displays
Moore's Proxy Checker	proxycheck.zip	14Kb	98/Mc/XP/NT/2000	Free	Check proxy lists and servers for availability
Moore's Whois	Whois.zip	33Kb	98/Mc/XP/NT/2000	Limited trial	Grab domain name information with this tool
MSN Sniffer	MsnSniffer_trial_setup.exe	715Kb	98/Mc/XP/NT/2000	Limited trial	A handy network control utility for Windows that records MSN conversations
Name2IP2Mac	Name2IP2Mac.zip	166Kb	98/Mc/XP/NT/2000	Free	Convert computer names into IP or MAC addresses and vice versa
Net Explorer Pro	netexplorer.zip	664Kb	98/Mc/XP/NT/2000	Limited trial	Search your LAN for working computers
NetGraph	NetGraph.rar	204Kb	XP/2000	Free	A realtime network monitoring tool

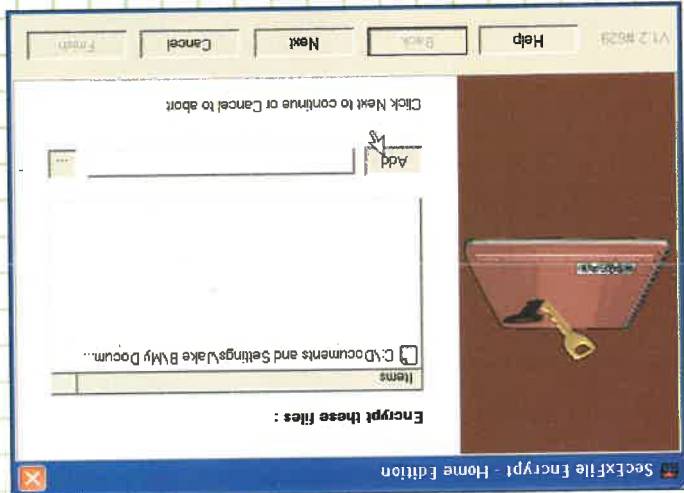

Utility name	File name	File size	System	Notes	Description
NetMonitor	frmpx.exe	855Kb	98/McXP/NT/2000	Free	Calculate your Internet connection speed
NetPeeker	NetPeeker260.zip	1,500Kb	98/McXP/NT/2000	Free	Monitor network usage, test speed and find spyware
Netstat Live	nsli.exe	257Kb	98/McXP/NT/2000	30-day trial	Continually scan your network to keep track of when users switch their PCs on and off
Netstat Viewer	NetstatViewer.zip	276Kb	98/McXP/NT/2000	Free	An easy to use TCP/IP protocol
Network Assistant	nassi.zip	1,090Kb	XP/NT/2000	Limited trial	A handy GUI replacement for the standard console-based input for Netstat
Network Messenger	NetMsg.zip	1,530Kb	98/McXP/NT/2000	Free	Simple network messenger tool
Network Password Changer	PasswordChanger.exe	409Kb	98/McXP/NT/2000	Free	Change passwords on multiple computers
Network Probe	NetProbe-0.3-Install.exe	2,500Kb	98/McXP/NT/2000	Free	Identify and isolate traffic problems
NS-Batch	nsb32-6e.zip	904Kb	98/NT	Free	Perform NS-lookups to identify IP addresses
NU75	NU75.EXE	908Kb	98/McXP/NT/2000	Free	A suite of network administration tools aimed at IT professionals
Office Mail	om_inst.exe	826Kb	98/McXP/NT/2000	Free	Display the IP addresses and configuration details of all the systems on your network
Offline IP-Location	ipLocate_Setup.exe	376Kb	98/McXP/NT/2000	Free	Make email available on every PC on a network
PacketMon	pmon.exe	184Kb	XP/2000	Free	Identify the country of origin of an IP address without being connected to the Internet
Penguin Monitor 8s	pmon8.exe	184Kb	XP/2000	Free	Easy-to-use packet sniffer program for Windows
Ping	Pingvs.asp.zip	500Kb	98/McXP/NT/2000	Limited trial	Use a secure SSH connection for monitoring networks
PingIt	pingit_eng.zip	293Kb	98/McXP/NT/2000	Free	See if a host is reachable with this program
Ping-O-Meter	pingometer1.5.exe	1,310Kb	98/McXP/NT/2000	Free	Ping other computers with this program
PingPlotter	pingplot.2.exe	840Kb	98/McXP/NT/2000	Limited trial	A intuitive graphical network troubleshooting program
Planefire Remote Control	pdnsrem3v115.exe	1,420Kb	98/McXP/NT/2000	30-day trial	Access your PC remotely via an Internet browser
Port Invader	portinv.exe	2,679Kb	98/McXP/NT/2000	Limited trial	Scan a range or a list of IP addresses
PortMapper	pmapper.exe	229Kb	98/McXP/NT/2000	Free	Log unauthorised port access attempts with this program
PortPeeker	PortPeeker.zip	481Kb	98/McXP/NT/2000	Free	Map any TCP/UDP port with this handy tool
Proxy+	pplus.us.exe	918Kb	98/NT/2000	Free	PortPeeker is a standalone port listener, that logs whatever TCP/UDP port you specify
Putty	putty.exe	364Kb	98/McXP/NT/2000	Free	Share Internet access across a LAN
Remote Command	RmcmdGUI.zip	37Kb	98/McXP/NT/2000	Free	Run remote commands
Remote reboot	reboot.zip	48Kb	98/McXP/NT/2000	Free	Reboot or shutdown a computer on a network
Remote shutdown mkl	remshd.exe	124Kb	98/McXP/NT/2000	Limited trial	Reboot your computer remotely
Remoteshutdown	remshdln.exe	115Kb	98/McXP/NT/2000	Free	Remotely shutdown power of a computer on a network
RobotTest	Rbtst2.zip	843Kb	98/McXP/NT/2000	Free	Make repetitive connection testing simple
RSNUT Pro	rshut.zip	534Kb	98/McXP/NT/2000	Limited trial	Advanced Internet computer power management program
Sam Spade	spade114.exe	1,802Kb	98/McXP/NT/2000	Free	An integrated network query tool
Secure Copy 2	sc2setip.exe	2,029Kb	98/McXP/NT/2000	Free	Enable file transfer pausing and resuming over a local network
ServerTalk	ServerTalk.exe	120Kb	98/McXP/NT/2000	Free	Send and receive strings to or from TCP or UDP servers
Sharemon	Sharemon221.exe	113Kb	XP/2000	Free	A real time Windows share watcher
SIT	sit.zip	20Kb	NT	Free	Start and stop services on Windows NT
SmartSchedule	Schedule.zip	20Kb	NT/2000	Free	Amend the tasks scheduled on an NT/2000 machine
SMB File Sniffer	smb.zip	1,340Kb	98/McXP/NT/2000	Limited trial	Log SMB file operations, and intercept files transmitted via LAN
Sniffer	Sniffer.exe	38Kb	98/McXP/NT/2000	Free	A network sniffer program for Windows
SNMP4PC	SNMP498.zip	120Kb	98/McXP/NT/2000	Free	A simple network program for Windows
Softros LAN Messenger	messenger.exe	1,340Kb	98/McXP/NT/2000	Limited trial	Send messages securely via your LAN
Spike	Spike500.exe	139Kb	98/McXP/NT/2000	Free	A utility bundle with block scanning capabilities
Switch	switch.exe	542Kb	98/NT/2000	Free	Monitor your printers, servers etc. Receive email when they're down
TCPSpeed	tcpseed.zip	375Kb	98/McXP/NT/2000	Free	Measure the bandwidth of your Internet connection
TelnetVNC	telnetvnc_instal1_src_bin.exe	560Kb	98/McXP/NT/2000	Free	Telnet client controlled by VB Script
TFTPing	tftping.zip	860Kb	98/McXP/NT/2000	Free	View and control remote computers - designed for slower networks
Trace3D	TRACE3D.EXE	789Kb	98/NT	Free	Perform ping and trace route commands
TrafficMeter	TrafficMeter4.exe	1,790Kb	XP/NT/2000	Free	Trace the route from one machine to another or even a website
Tray Ping	trayping150.exe	969Kb	98/McXP/NT/2000	Free	Monitor all of the TCP/IP traffic taking place over your network
Trusted Messenger	tmv2.exe	1,004Kb	98/McXP/NT/2000	Limited trial	Effective chat tool for the whole office
Ultima Port Scanner	ultima-port-scanner.exe	1,450Kb	98/McXP/NT/2000	Limited trial	Quickly scan both remote and local ports
Ultima Traceroute	ultima-traceroute.exe	860Kb	98/McXP/NT/2000	Free	Converts and IPHost into a server using traceroute
Virtual Network Computing	vnc-4-0b4-x86_win32.exe	563Kb	98/McXP/NT/2000	Free	View and operate a computer from a remote PC anywhere on the Internet
Visual Ping Monitor	vnc4-0b4-x86_win32.exe	563Kb	98/McXP/NT/2000	Free	View and operate a computer from a remote PC anywhere on the Internet
VisualRoute	vr.exe	244Kb	98/McXP/NT/2000	Free	Simple ping tool that displays results graphically
VisualSniffer	VisualSnifferEDTU.zip	1,539Kb	98/NT/2000	Limited trial	Trace the route of your IP packet on a map of the world
VNC Admin Console	vncac.1.5.exe	3,100Kb	98/McXP/NT/2000	Limited trial	Perform protocol analyses
Webslower	Webslower.exe	839Kb	98/McXP/NT/2000	Free	Manage your VNC connections into different groups
WhoOpen	WhoOpen12.zip	614Kb	XP/NT/2000	Free	Test different connection speeds on your network
WinMTR	winmtr_bin.zip	133Kb	98/McXP/NT/2000	Free	Identify who has opened files and closed them
WITSGateway	witsgateway_setup.exe	796Kb	98/McXP/NT/2000	Free	A Windows clone of Matt's traceroute
ZNetWatch	zneWatch101.exe	280Kb	98/McXP/NT/2000	Free	Quickly see which computers on your network and eating bandwidth
Zx Sniffer	ZxSniffer.exe	283Kb	98/McXP/NT/2000	Free	A network traffic analyser program for Windows

Security & antivirus

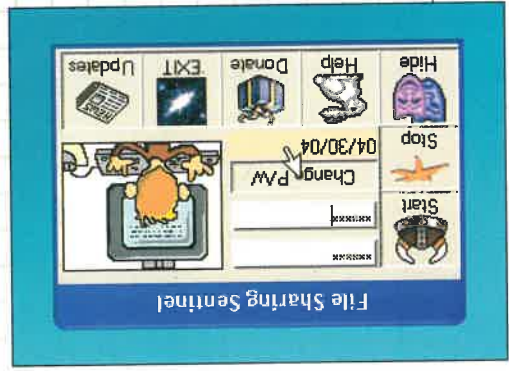

Whether you're permanently connected to the Internet via a broadband connection, or you never hook up to the Web at all, PC security is a vital concern that simply can't be ignored. Between viruses, hackers and unauthorised users logging on to your PC, it pays to take precautions to secure your data and your privacy. In this section, we've brought together over 300 tools to help you do just that. Whether you want to protect your system against viruses or keep your children safe whilst browsing online, we've got a tool for you every need.

AbsoluteShield File Shredder

SecxFile Encrypt

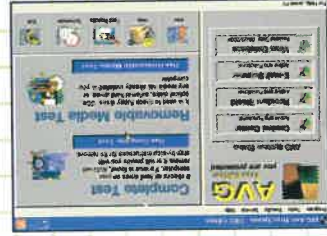

File Sharing Sentinel

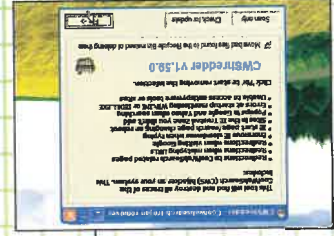

LockBox

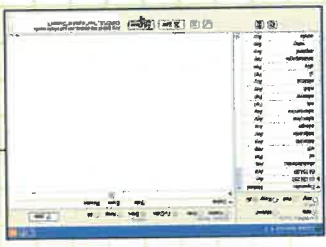

AVG Free Edition

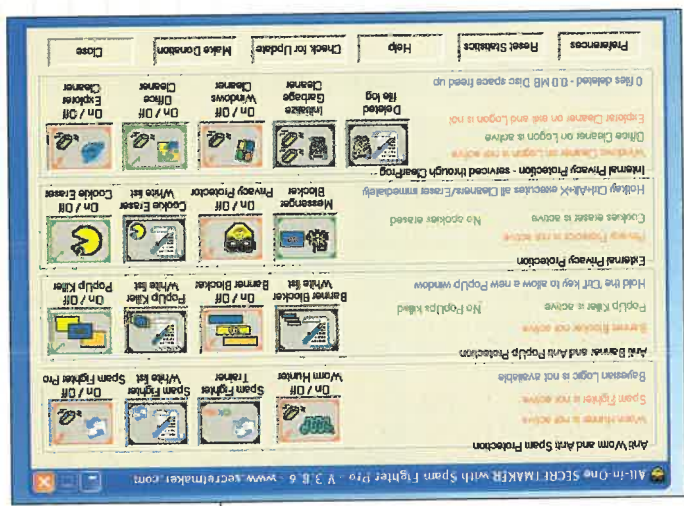

X-Cleaner

CWSredder

Cookie Selector

All-in-One SecretMaker

Utility name	File name	File size	System	Notes	Description
1st Privacy Tool	wptool.zip	1,300Kb	98/Me/XP/NT/2000	Limited trial	Restrict access to Windows resources
1st Security Center Pro	sc.zip	1,200Kb	98/Me/XP/NT/2000	30-day trial	Control users' access to Windows
4t Hit Mail Privacy Lite	4t-hit.zip	929Kb	98/Me/XP/NT/2000	Free	Encrypt important text by hiding it in an image file
AB Hide folder	abfl.exe	880Kb	98/Me/XP/NT/2000	Free	Hide folders in Windows so that other users can't stumble upon them
ABC Security Protector	nomspdos.zip	510Kb	98/Me/XP/NT/2000	Free	Password security program for Windows
ABl-Coder	Coder2.exe	2,340Kb	98/Me/XP/NT/2000	Limited trial	Encrypt files using one of the three secure encryption algorithms
AbsoluteShield File Shredder	fileshtredder.exe	509Kb	98/Me/XP/NT/2000	Free	Shred files beyond recovery
Accent Office Password Recovery	aofpr_211_setup.exe	547Kb	98/Me/XP/NT/2000	Limited trial	Recover passwords for files created using MS Office 95/98/2000
Access Denied	AccessDenied340.exe	529Kb	98/Me/XP/NT/2000	Limited trial	Block unauthorised users from accessing your system at boot time
Access List	access.zip	27Kb	98/Me/XP/NT/2000	Free	Provide a convenient method for storing passwords
Accurate PopUp Killer	popupkiller_setup.exe	438Kb	98/Me/XP/NT/2000	Free	Kill both Internet Explorer and Windows Messenger pop-ups
Acetose Password vault	apvsetup.exe	1,000Kb	98/Me/XP/NT/2000	Free	Reliable and secure password management
ActiveScreenLock	ActiveScreenLock.exe	760Kb	98/Me/XP/NT/2000	Free	Keep others from entering your computer
Activity Monitor	actmon.zip	1,600Kb	98/NT/2000	Limited trial	Activity Monitor monitors usage of networked computers remotely in real time
Ad-aware	aaaw6181.exe	2,101Kb	98/Me/XP/NT/2000	Free	Scan your memory and registry for ad-supported software components
Advanced Anti Spy	advanced-anti-spy.zip	481Kb	98/Me/XP/NT/2000	Free	A powerful anti-spy tool for Windows
Advanced Cypher	adv-cypher.zip	791Kb	98/Me/XP/NT/2000	Free	Encrypt or decrypt the text that you input into the program
Advanced EFS Data Recovery	aefdsr.zip	883Kb	98/Me/XP/NT/2000	Limited trial	Decrypt files encrypted on NTFS partitions
Advanced Email Monitoring	advanced-email-monitoring.zip	368Kb	98/Me/XP/NT/2000	Free	Monitor email activities with this program
Advanced Intuit Password Recovery	ahpr.zip	838Kb	98/Me/XP/NT/2000	Limited trial	Recover lost or forgotten passwords with this tool
Advanced Keylogger	advanced_keylogger.exe	917Kb	98/Me/XP/NT/2000	Limited trial	Record every keystroke to an encrypted log
Advanced Mailbox Password Recovery	ambpr.zip	461Kb	98/Me/XP/NT/2000	Limited trial	Recover login and password information
Advanced Office Password Breaker	apob.zip	589Kb	98/Me/XP/NT/2000	Limited trial	Decrypt Office passwords
Advanced Password Generator	apg.zip	152Kb	98/NT/2000	Limited trial	Generate random passwords to save you thinking them up!
Advanced Password Keeper	SetupAPK45.zip	984Kb	98/Me/XP/NT/2000	Limited trial	Store and edit password information with this program
Advanced Windows Password Recovery	awpr.zip	722Kb	98/Me/XP/NT/2000	Free	Recover logon and screenaver dial-up programs
AIDA	aida32ee_368.exe	1,200Kb	98/NT/2000	Free	A program that tells you about your system
Air EXE Lock	ael.zip	1,120Kb	98/Me/XP/NT/2000	Free	A utility password protected hard drive for Windows
Airy Secrets	airy30.zip	329Kb	98/Me/XP/NT/2000	Free	Keep all your passwords safe
All-in-One Secretmaker	secretmakersetup.exe	873Kb	98/Me/XP/NT/2000	Free	Protect your privacy and security with these great tools
AmbaSoft Password	ambapass.zip	713Kb	98/Me/XP/NT/2000	Limited trial	Create, organise and protect your passwords for a secure system
Amnihilator	Amnihilator.zip	611Kb	98/Me/XP/NT/2000	Free	Add a right-click menu to the Recycle Bin
Anonymous Privacy Analyzer	pardfrt03.zip	368Kb	98/Me/XP/NT/2000	Free	Free anonymiser privacy analyser
Antidummar	antidummar-EN.exe	57Kb	98/Me/XP/NT/2000	Free	Rid your system of the W32.Dummar@mm virus
AntiFirewall Anonymizer	antifw1.zip	399Kb	98/Me/XP/NT/2000	Limited trial	Connect to email, newsgroups and chat programs if you're behind a firewall
AntiFizzer	Antifizzer-en.exe	60Kb	98/Me/XP/NT/2000	Free	Protect yourself from the Fizzer virus
AntGanda Removal Tool	Antganda-en.exe	34Kb	98/NT/2000	Free	Protect yourself from the Ganda Virus
Antigoner	Antigone.exe	240Kb	98/NT/2000	Free	Detect and remove the virus W32.Gone.A
AntikowBot	AntikowBot.exe	100Kb	98/Me/XP/NT/2000	Free	Remove the Inrol virus from your PC
AntikowBot.exe	AntikowBot.exe	59Kb	98/Me/XP/NT/2000	Free	Remove the KowBot Internet worm from your PC
Antilogate	Antilogate-EN.exe	59Kb	98/Me/XP/NT/2000	Free	Remove the LoveGate virus from your PC
AntiQpasser Removal Tool	AntiQpasser-en.exe	54Kb	98/Me/XP/NT/2000	Free	Detect and remove the Qpasser virus
Antisven	Antisven-en.exe	59Kb	98/Me/XP/NT/2000	Free	Remove the Sven virus from your computer
Antivirus Personal Edition	awwinstk.exe	98/Me/XP/NT/2000	Free	The most secure and reliable freeware antivirus program available	
Antivir 2004	avk2004trial.exe	16,600Kb	98/Me/XP/NT/2000	Free	Trial version of one of the most secure antivirus programs around
Any Password	apw.zip	536Kb	98/Me/XP/NT/2000	Free	Store passwords, login IDs and related information
Appasword	apw101.exe	1,250Kb	98/Me/XP/NT/2000	Free	Create random passwords
AppAlarm	Saklabs AppAlarm.exe	419Kb	98/Me/XP/NT/2000	Limited trial	Detect and halt the launch of any illicit processes
Ashamoo Privacy Protector	ashamoo_privacyprotector104_plus_se.exe	3,111Kb	98/Me/XP/NT/2000	Free	Securely encrypt any file or folder and burn backups to a secure CD
Asphalis	asphalis_setup.exe	2,570Kb	XP/NT/2000	Free	Encrypt any file using a secure cryptographic method
Asterisk Key	astiskkey.exe	292Kb	98/Me/XP/NT/2000	Free	Recover passwords hidden by asterisk characters
Authentication	authentication.zip	70Kb	98/Me/XP/NT/2000	Free	Change a login and password to a basic authentication counterpart
Auto Keylogger	Auto-Keylogger-Setup.exe	509Kb	98/Me/XP/NT/2000	Free	Record keystrokes and more to an encrypted file
avast! 4 Home Edition	setupeng.exe	7,608Kb	98/Me/XP/NT/2000	Free	Terrific free virus scanner for home users
avast! Virus Cleaner Tool	aswclnr.exe	336Kb	98/Me/XP/NT/2000	Free	Remove selected viruses and worms from your computer
AVG Antivirus	avg6655tlu_free.exe	6,950Kb	98/Me/XP/NT/2000	Free	Free antivirus application. Visit www.avgsoft.com to obtain a serial number
Aviware's Password Generator	APassGen1.0.exe	100Kb	98/Me/XP/NT/2000	Free	A quick and fast easy password generator
Aye Parental Control	ayc.zip	813Kb	98/Me/XP/NT/2000	Free	A powerful encryption tool that integrates into Windows Explorer
BarWare Personal Firewall	firewall.zip	623Kb	98/Me/XP/NT/2000	Limited trial	Parental control tool for Windows
BCWipe	bcpw17.exe	300Kb	98/Me/XP/NT/2000	Free	Block most of the unauthorised Internet traffic on your system
BitDefender Standard 7	kit_standard7.exe	9,900Kb	98/Me/XP/NT/2000	Limited trial	Prevent recovery of deleted files by completely removing them from your PC
Black Screen	black.zip	152Kb	98/NT	Free	Fully functional trial of one of the more reliable antivirus packages in our tests
bmpPacker	bmpacker.zip	1,210Kb	98/Me/XP/NT/2000	Free	Lock out all other users with this utility
BotBlock	blb.zip	64Kb	98/Me/XP/NT/2000	Free	Protect your files from attacks

Utility name	File name	File size	System	Notes	Description
Bootminder	bootminder.zip	108Kb	98/NT/2000	Free	Protect yourself against boot viruses
BullGuard	BullGuard.exe	6,954Kb	98/Me/XP/NT/2000	Limited trial	Fully functional trial of this secure antivirus and Internet security suite
Callert	callert.exe	375Kb	98/Me/XP/NT/2000	Limited trial	Detect, track and report callers with this program
Canary	canary.zip	759Kb	98/Me/XP/NT/2000	Free	Keep a log of what websites are accessed on your system
Capture	cp_setup.exe	476Kb	98/Me/XP/NT/2000	Free	Capture video from a webcam, TV tuner card or other sources
CD-Lock	cdl.exe	476Kb	98/NT/2000	Limited trial	Encrypt your files with this program
Centricorp's WallSafe	WallSafe.exe	1,440Kb	98/NT/2000	Limited trial	Save all your IDs and passwords to encrypted files
Cleaner	cleaner.zip	137Kb	98/NT/2000	Free	Securely delete file data located in free disk space
Cleaner	cleaner.zip	234Kb	98/Me/XP/NT/2000	Free	Encrypt text using the Windows clipboard
ClipSecure	dissecure12.zip	5,623Kb	98/Me/XP/NT/2000	Free	Protect your files with secure key-based encryption
Cloak	CloakSetup.EXE	133Kb	98/Me/XP/NT/2000	30 day trial	Keep tabs on what happens on your PC whilst you're not there
Codename Alvin	alsetup.exe	920Kb	98/NT/2000	Limited trial	Clean out your Internet cache and Web browsing history
Complete Cleanup	cleanup.exe	944Kb	98/Me/XP/NT/2000	Free	Take full control of cookie activity on your system
Cookie Selector	CookieCleanerSetup.exe	4,270Kb	98/Me/XP/2000	30-day trial	Use your webcam as a motion-sensitive security monitor
Crime Catcher	cc2-setup.exe	160Kb	98/Me/XP/NT/2000	Free	Encrypt your files using 128-bit encryption algorithms
Crunch	crunch_release_3.1.zip	2,350Kb	98/Me/XP/NT/2000	Free	Easy-to-use encryption application that creates encrypted vaults
Cryptainer LE	cryle.exe	206Kb	98/NT	Free	Encrypt your files to keep them protected with this shell extension
Cryptext	cryptext.exe	23Kb	98/Me/XP/NT/2000	Free	A good encryption program for Windows
Cryptit	Cryptit.zip	289Kb	98/Me/XP/NT/2000	Free	Securely encrypt files using this accessible encryption tool
CryptMAGE	CryptMAGE5.zip	4,005Kb	98/Me/XP/NT/2000	Limited trial	Encrypt files for secure transmission
Cryptock	cryptock.exe	923Kb	98/Me/XP/NT/2000	31-day trial	Create an encrypted drive that can only be accessed with a password
Cryptolocker	cryptolocker20035td_setup.exe	407Kb	98/Me/XP/NT/2000	Free	Restrict access to your executable files by password-protecting and encrypting their content
Cryptolocker Free	cmfree410en.exe	450Kb	98/Me/XP/NT/2000	30-day trial	Encrypt text on your desktop or Pocket PC - requires the .NET framework
Cryptotext	CryptotextTrial.zip	751Kb	XP	Free	Protect your data by encrypting files with up to 2,048-bit encryption keys
CryptUp	cryptup2.exe	143Kb	98/Me/XP/NT/2000	Free	Eradicate all traces of the browser hijacking CoolWebSearch components
CWSHredder	CWSHredder.exe	340Kb	98/Me/XP/NT/2000	Free	Protect yourself from network intrusion
Cyber-Defender	install.exe	10Kb	NT	Free	A Windows NT domain password program
Cycle password	Cyclepass.exe	441Kb	98/Me/XP/NT/2000	Free	See the password behind the asterisk with this program
DA Password Recovery Free	dapasswordrecovery.exe	441Kb	98/Me/XP/NT/2000	Limited trial	Enter text using your mouse in a strange 3D environment
Dasher	Dasher 302.exe	580Kb	98/Me/XP/NT/2000	Free	Remove sensitive information with this program for Windows
DataDestroyer	DataDestroyer.zip	2,670Kb	98/Me/XP/NT/2000	Free	Use encryption techniques to keep your files and folder secure
ddcrypt	eugold.exe	4,830Kb	98/NT/2000	Free	Decrypt files from a cloak and data stealth user
Decrypt HD	decrypthd.exe	5,867Kb	98/Me/XP/NT/2000	Free	Conceal and encrypt small files with this steganography-based security tool
Dounds's Steganography	StegSetup.exe	413Kb	98/Me/XP/NT/2000	Free	Secure your files using a range of encryption algorithms
DPCRYPT	dpcripto.zip	729Kb	98/Me/XP/NT/2000	Free	Scrub data from your hard disk
DriveClobber	drivesclobber.exe	729Kb	98/Me/XP/NT/2000	Free	A secure file deleter program for Windows
dsDEL	dsdel.exe	7Kb	98/Me/XP/NT/2000	Free	A file scrambler that uses the XOR stream conversion
dsMask	dsmask.exe	8Kb	98/Me/XP/NT/2000	Free	A new way to generate, manage and recall passwords
Dynapass1	dynpass1.zip	21Kb	98/Me/XP/NT/2000	Free	A new way to securely manage and restore passwords
Dynamical Passwords	dynamical Passwords for Palm	710Kb	98/Me/XP/NT/2000	Free	A great file shredder program
East Tec File Shredder	etfsfree.exe	715Kb	98/Me/XP/NT/2000	Free	An easy file encryption program
EasyEncrypter	ec_free.zip	4,120Kb	98/Me/XP/NT/2000	Free	Advanced webcam tool that offers motion detection, email alerts and much more - adware
EasyFreeWebCam	freecam.exe	595Kb	98/Me/XP/NT/2000	Free	A software utility for encrypting documents
EC3	setup1.exe	269Kb	98/Me/XP/NT/2000	Free	Check the integrity of files with this checksum checker
Express Checksum Verifier	xcsvl.exe	25Kb	98/Me/XP/NT/2000	Free	A simple yet powerful key generator
EKG	EKG.zip	1,770Kb	98/Me/XP/NT/2000	Limited trial	Hide folders and secure files with this program
Encrypted Breifcase Personal	ebpsSetup.exe	389Kb	98/Me/XP/NT/2000	Free	A secure text editor for creating, editing and sharing encrypted documents
EncryptedPad	EncryptedPad-1.01.exe	24Kb	98/Me/XP/NT/2000	Free	Encrypt individual files or entire folders using symmetric encryption keys
Encript	Encript.zip	3,866Kb	98/Me/XP/NT/2000	Free	Protect your computer from unauthorized invasion and Net usage
Enigma Firewall	EnigmaFireWall.exe	61Kb	98/Me/XP/NT/2000	Free	Be sure of the best security on your PC with this program
eq Privacy	privacy.zip	750Kb	98/NT	Free	Erase files completely so they cannot be recovered
Eraser	Eraser57Setup.zip	1,630Kb	98/Me/XP/NT/2000	Limited trial	A multifunctional set of network utilities
Essential NetTools	ent3.zip	395Kb	98/Me/2000	30-day trial	Cut off a TCP/IP connection without having to drop your entire network connection
eSTOP	estop330.zip	4,867Kb	98/Me/XP/NT/2000	Limited trial	Comprehensively delete evidence of all kinds of activity from your machine
Evidence Eliminator	eliminator.zip	317Kb	98/Me/XP/NT/2000	Limited trial	Encrypt files and programs
Express File Encrypter	Encrypter.exe	918Kb	98/Me/NT/2000	Limited trial	A powerful data/decoder program for Windows
Faust	Faust.zip	330Kb	98/NT/2000	Limited trial	Encrypt files with multi-choice questions
File Own Guard	foSetup.exe	1,300Kb	98/Me/XP/NT/2000	Limited trial	Protect your personal folders with this handy tool
File Secure Software	fhinst.exe	330Kb	98/NT/2000	Free	Prevent your children from using file sharing programs
File Sharing Sentinel	File_Sharing_Sentinel.exe	580Kb	98/Me/XP/NT/2000	Free	Lock files on your system with this program
FileVault	Fv27Setup.exe	882Kb	98/Me	Free	Protect your files with this secure encryption utility
Find'n'Block Personal Firewall	fnbPMSetup.exe	809Kb	98/Me/XP/NT/2000	30-day trial	Protect your PC against intruders and Trojan viruses with this personal firewall
FileCrypt	filecrypt.exe	4,239Kb	98/Me/XP/2000	Free	Self-testing encryption tool for creating robust, secure file archives
FingerPrint	FingerPrint_Setup.zip	614Kb	98/Me/XP/2000	Free	Detect whenever a file on your system is changed
FileCrypt	FileCrypt	58Kb	98/Me/XP/NT/2000	Free	Hide text inside images with this steganography tool

Utility name	File name	File size	System	Notes	Description
Firelite	Firelite.exe	1,160KB	98/Me/XP/NT/2000	Limited trial	Rapidly scan your system for viruses (this free utility finds viruses but doesn't get rid of them)
FirelogXP	FirelogXP_Setup.zip	615KB	XP	Free	Read the contents of the Windows XP firewall log
Firewall X-treme	FirewallX_Install.exe	11,000KB	98/Me/XP/NT/2000	Limited trial	Monitor your internet access with this firewall
FIVE	Install_five.exe	600KB	98/Me/XP/NT/2000	Free	File integrity verification and encryption program
FixYaha	FixYaha.com	169KB	98/Me/XP/NT/2000	Free	Prevent the W32_Vahha.E@mm virus from taking over your system
Folder Crypt	FolderCrypt11a.zip	401KB	98/Me/XP	Limited trial	Protect Windows folders from accessing and viewing
Folder Guard Professional	fgpro55a-setup.exe	624KB	98/NT/2000	Limited trial	Protect files and folders on your system
Folder Lock	f-lock.exe	1,180KB	98/Me/NT	Limited trial	Protect specific files by locking down folders
Fp-Check	fpck85-12.exe	572KB	98/NT/2000	Free	Utility for the virus scanner F-ProT
F-ProT Antivirus	fp-win_trial.exe	7,220KB	98/Me/XP/NT/2000	30-day trial	Protect all your information against the threat of viruses
FreeCrypt32	fcrypt32.zip	143KB	98/Me/XP/NT/2000	Free	Allows you to encrypt your files with a password
F-Secure Anti-Virus	fsav2003n.exe	6,383KB	98/Me/XP/NT/2000	30-day trial	Full evaluation version of the most reliable antivirus utility in this month's roundup
GoldTach	gt1612.exe	1,120KB	XP/2000	Free	Compact personal firewall program that includes email protection
GoldTach Pro	gtpo.exe	1,970KB	98/Me/XP/NT/2000	Free	Protect your PC from hackers, Trojans and worms
Goodbye Spy	goodbye_spy_trial.exe	678KB	98/Me/XP/NT/2000	Limited trial	Remove spyware and adware files with this tool
GuardMax	gdmx19.exe	1,400KB	98/Me/XP/NT/2000	60-day trial	Secure your sensitive information with this guard tool
HardEncrypt	HardEncrypt.zip	66KB	98/Me/XP/NT/2000	Free	Encryption tool that boasts completely uncrackable encryption techniques
Hide Files and Folders	hidefiles.zip	794KB	98/Me/XP/NT/2000	Limited trial	Secure your files and folders by hiding them
Hide Folder Now	hidefolder_setup.exe	1,679KB	98/Me/XP/NT/2000	30-day trial	Encrypt folders so they can only be accessed using a password
Hide in Picture	hnp21_en_nogif.zip	367KB	98/Me/XP/NT/2000	Free	Use the science of steganography to conceal information in an ordinary picture
HideInPic	hideinpicsetup.exe	867KB	98/Me/XP/NT/2000	Limited trial	Encrypt and hide any type of files
HidePro	hidepro.zip	875KB	98/Me/XP/NT/2000	Free	Encrypt your files using the DES and AES algorithms
HiJackThis	hijackthis.zip	125KB	98/Me/XP/NT/2000	Free	A general homepage hijacker detector and remover
History Cleaner	historycleaner.exe	326KB	98/Me/XP/NT/2000	Limited trial	Erase the tracks of your internet activity with this tool
HKSVP	hksvpsetup.exe	227KB	98/Me/XP/NT/2000	Free	Create or check .sh and .mnd files to ensure that two copies of a file are identical
ICEEncrypt	ICEEncrypt.exe	200KB	98/Me/XP/NT/2000	Free	A simple file/folder encryption program
ICEMatch	icematch.zip	98KB	98/Me/NT/2000	Free	Analyse your BlackICE Defender (firewall) logs
IE Internet Security	iesecurity.zip	830KB	98/Me/XP/NT/2000	Limited trial	Customise different settings
IE Privacy Keeper	iepk.exe	1,302KB	98/Me/XP/2000	Free	Remove all traces of your internet activity
IE Security Pro	iesecpro.zip	985KB	98/Me/XP/NT/2000	Limited trial	Customise many aspects of Internet Explorer
ImageHide	imagehide.exe	1,085KB	98/Me/XP/NT/2000	Free	Disguise text within images with this program
IMSecure	imsecure_setup_10_10.exe	2,430KB	98/Me/XP/2000	Free	Prevent your instant messaging conversations from being monitored
Infiltrator Network Security Scanner	infiltrator.zip	1,320KB	XP/NT/2000	Limited trial	Audit your network computer for possible access points
InJoy Firewall	ifire.exe	2,490KB	XP/2000	Limited trial	Deliver deep inspection and vulnerability protection
Internet Explorer Key	iekeyd.exe	721KB	98/Me/XP/NT/2000	Limited trial	Reset the Internet Explorer Content Advisor password
Internet Explorer Password	iepassword.exe	380KB	98/Me/XP/NT/2000	Free	Recover passwords to websites which Internet Explorer saves in its cache
Internet Security Manager	ismn.exe	918KB	98/Me/XP/NT/2000	Limited trial	Tools to retain and manage your Web browser
InternetPrivacyKit	ipksetup.zip	682KB	98/Me/XP/NT/2000	Limited trial	Take control and protect your computer
IRClean	irclean.exe	33KB	98/NT	Free	Combat Internet Relay Chat (IRC) worms
Iron Key	ikkey.exe	702KB	98/NT/2000	Free	Encrypt files and create self-extracting files
ISafeGuard Firewall	isafefw.msi	3,338KB	98/Me/XP/NT/2000	Free	Digitally sign your emails and files to ensure unauthorised users can't access them
ISafeGuard Firewall	isafefw.msi	3,338KB	98/Me/XP/NT/2000	Free	Put forgotten passwords behind you with this secure encrypted password manager
Key Folder	KeyFolder12.exe	363KB	98/XP/NT/2000	Free	Securely manage your passwords and any other sensitive information
Keyboard Tracer	KTInstaller.exe	105KB	98/Me/XP/NT/2000	Free	Log what keys are pressed to monitor computer use when you're away
KeyMaker	keymaker_setup.exe	426KB	98/NT/2000	Free	Generate secure passwords for use with any program or website
KeyWallet	keywallet.exe	1,420KB	98/Me/NT/2000	Free	Keep track of your website login passwords
KFSensor	kfsens10.exe	925KB	98/Me/XP/NT/2000	Limited trial	Stop worms, hackers and Trojans with this security program
Kill2Me	kill2me.zip	13KB	98/Me/XP/NT/2000	Free	Remove all versions of the Look2Me spyware component from your system
Lock Folder XP	lockfldt.exe	516KB	98/Me/XP/NT/2000	Limited trial	Protect your important data using a password
Lock It Xpress	lock.exe	112KB	98/Me/XP/NT/2000	Free	Lock folders for security and privacy
Lock My PC	lmpc.zip	796KB	98/Me/XP/NT/2000	Limited trial	Lock your computer when you leave it unattended
Lock O'Clock	LOClockt.exe	337KB	98/Me/XP/NT/2000	Free	Protect your system with another password – not just your Windows login one
Lockbox	lbinst20.exe	933KB	98/NT	Free	A safe password storage utility
LockTight Security System	locktight.zip	842KB	98/Me/XP/NT/2000	Free	Encrypt up to 10,000 files with this program for Windows
Logon Reminder	LogonRemindersSetup.exe	295KB	98/Me/XP/NT/2000	Free	A simple program to remember passwords
LogonAssistant	last122w.exe	838KB	98/Me/XP/NT/2000	Limited trial	Store all your usernames and password information in a single file
LogonReminder	LogonRemindnzp	177KB	98/NT/2000	Free	Save yourself the embarrassment of forgotten passwords
MaxCrypt	MaxCrypt_v1_10.exe	1,001KB	98/NT/2000	Free	Secure the contents of your computer
MaxPasswords	MaxPasswords.exe	350KB	98/Me/XP/NT/2000	Free	Create random passwords and generate password masks
Melare Removal tool	AntiMelare-EN.exe	60KB	98/Me/XP/NT/2000	Free	Protect yourself from the Melare virus
Microsoft Outlook Security	MSOS15.EXE	384KB	98/Me/XP/NT/2000	Free	A security add-in for Outlook
Message Encryptor	MSGEC.exe	424KB	98/Me/XP/NT/2000	Free	Strong encryption for your data
Message Ad Blocker	messenger_ad_blocker.exe	552KB	98/Me/XP/NT/2000	Limited trial	Stop Windows Messenger pop-up messages
Messenger Key	msg/key.exe	279KB	98/Me/XP/NT/2000	Free	Easy-to-use tool to recover passwords from ICQ

Utility name	File name	File size	System	Notes	Description
Mince	Mince.zip	64Kb	98	Free	Encrypt text files so that only the password holder can view them
MIRCryption	mircryption32.zip	187Kb	98/Me/XP/NT/2000	Free	Securely encrypt conversations in mIRC
Mouse Lock	ml.zip	141Kb	98/Me/XP/NT/2000	Limited trial	Prevent unauthorized use of your computer by freezing the mouse pointer
Multi-Pass	multiass.zip	844Kb	98/Me/XP/NT/2000	Free	Delete your recent documents lists to keep things private
Mutate File Wiper	mutinst.exe	567Kb	98/NT	30-day trial	Store your private information securely on your computer
My Old Safe	mosafe21.zip	692Kb	98/Me/XP/NT/2000	Free	Ensure that sensitive files are securely deleted
My Old Safe	mosafe21.zip	692Kb	98/Me/XP/NT/2000	Free	Quick and easy password protection for Windows
Ncrypt TX	NCryptTXtrial16.zip	419Kb	98/Me/XP/NT/2000	30 day trial	A file encryption utility for Windows
Network and Dial-Up Password Revealer	npasrev.zip	565Kb	98/Me/XP/NT/2000	Free	View logins and passwords for access to the Internet or LAN
nscript	nscriptw.zip	23Kb	98/Me/XP/NT/2000	Free	An encryption utility with unlimited key length
OmniGuard MyPrivacy	mypriv.zip	2,596Kb	98/Me/XP/NT/2000	Free	Clean up Internet history and temporary office files
Outblitz	outblast.exe	832Kb	98/NT/2000	Free	A fully featured password manager
Outlook for Outlook	wblock.exe	173Kb	98/Me/XP/NT/2000	Free	Add message encryption capabilities to Microsoft Outlook 2000/2002/2003
Outlook Express Key	oekeyd.exe	538Kb	98/Me/XP/NT/2000	Limited trial	Recover passwords for Outlook Express identities
P2P Identity Secure	P2Psecure.exe	986Kb	98/Me/XP/NT/2000	Free	Keep your online activities private and hide your IP address when using file-sharing tools
Panda QuickRemover for Sasser.A	pqremovb.com	1,700Kb	98/Me/XP/NT/2000	Free	Remove the Sasser.B virus from your PC
Panda QuickRemover for Sasser.A	pqremovb.com	1,340Kb	98/Me/XP/NT/2000	Free	Remove Sasser.A from your computer
Paq KeyLog	eng1204.exe	546Kb	98/Me/XP/NT/2000	Limited trial	Log all keyboard events with this tool
Parental Filter	ParentalFilterSetup.exe	7,360Kb	98/Me/XP/NT/2000	Free	Block your children from entering harmful explicit websites
PassGen	passgen2.exe	338Kb	98/NT	Free	Generate passwords quickly and easily
Passlock	ps1setup.exe	271Kb	98/Me/XP/NT/2000	Free	A safe and easy way to keep passwords safe
Passpack	passpack.exe	15Kb	98/Me/XP/NT/2000	Free	A great compact manager program for Windows
Passware Recovery Kit	kitd.exe	2,008Kb	98/Me/XP/NT/2000	Limited trial	Recover any manner of password from your computer
Password Agent Lite	pwagnt21.exe	997Kb	98/NT/2000	Free	Store all your passwords so you don't get locked out of programs or websites
Password Cracker	pwdcrack.zip	29Kb	98/Me/XP/NT/2000	Free	Find out your forgotten passwords
Password Depot	pddepot16.exe	2,329Kb	98/Me/XP/NT/2000	Limited trial	Keep your passwords secure and in one place
Password Director	pwdtr.zip	904Kb	98/Me/XP/NT/2000	Limited trial	Powerful and versatile password manager
Password Generator	password-generator.exe	516Kb	98/Me/XP/NT/2000	Free	Generate secure passwords for use wherever a password is required
Password Kernel	pwdokrn.exe	315Kb	98/Me/XP/NT/2000	Limited trial	Securely store all your passwords in a single, protected location
Password Keychain	passkeychain_setup.exe	934Kb	98/Me/XP/NT/2000	Free	Manage the passwords you need to access with this program
Password Manager XP	PwdManager-Setup.exe	320Kb	98/NT	Limited trial	Keep your passwords secured from prying eyes
Password Provider	passwordprovider.exe	253Kb	98/Me/XP/NT/2000	Free	Easy, quick and secure password creation utility
Password Recovery Toolbox	prtbx.zip	768Kb	98/Me/XP/NT/2000	Free	Recover Internet Explorer, Outlook Express and network passwords
Password Spy2K	spyer2k.zip	54Kb	98/Me/XP/NT/2000	Limited trial	Uncover passwords hidden by asterisks, such as Windows or FTP login passwords
PC Activity Monitor Pro	pcapro.zip	751Kb	98/Me/XP/NT/2000	Limited trial	Log the activity of users on your computer
PC Inspector e-maxx	pcl_emaxx.exe	732Kb	98/Me/XP/NT/2000	Free	Securely delete any data from hard drives
PC PhoneHome	PCPH.zip	1,670Kb	98/Me/XP/NT/2000	Limited trial	Track your stolen computer with this handy email program
PC TattleTale parental control	pcattsetu.exe	225Kb	98/Me/XP/NT/2000	Limited trial	A powerful Internet monitor program and parental control system
pAudit	pcaudit.exe	44Kb	98/Me/XP/NT/2000	Free	A free security evaluation program for Windows
PC-Safe	pc_safe_2.1.zip	288Kb	98/Me/XP/NT/2000	Free	Store login information on your computer
PEC Security Master	pecsmdemo.exe	1,840Kb	98/Me/XP/NT/2000	Free	Keep unwanted users out of your computer
Perfect Process	ppfree.zip	3,300Kb	98/Me/XP/NT/2000	Free	Scan for back doors and spyware
PGP (Pretty Good Privacy)	PGP802-PF-W.zip	8,440Kb	98/Me/XP/NT/2000	Free	Encrypt your email conversations using this uncrackable encryption tool
PINs	PINs450.exe	625Kb	98/Me/NT/2000	Free	Keep your passwords and PINs safe with powerful 448-bit Blowfish encryption
Pop-up and Privacy Defender Pro	PaPD7.0.4a.exe	535Kb	98/Me/XP/NT/2000	Limited trial	Stop annoying pop-up windows
PortBlock	portblock.zip	1,466Kb	98/Me/XP/NT/2000	Limited trial	Lock your open ports with this quality security tool
PowerCrypt 2000	pcrypt44.exe	1,690Kb	98/Me/XP/2000	Free	Use a highly secure algorithm to encrypt your files
Primedius Firewall Lite	PrimediusFirewallLite.exe	653Kb	XP/2000	Free	Protect your system against intrusion from the Net with this robust firewall
Privacy Defender	PrD7.0.2a.exe	417Kb	98/Me/XP/NT/2000	Free	Clean up your Internet history
Privacy Eraser	privacy-eraser-pro-setup.exe	1,320Kb	98/Me/XP/NT/2000	Limited trial	Securely protect your privacy on your PC
Private Infokeeper	apikd.zip	426Kb	98/Me/XP/NT/2000	Limited trial	Store and protect our passwords
Process Sniper	Saklabs_ProcessSniper_20.exe	392Kb	98/Me/XP/NT/2000	Limited trial	Detect the launch of processes and applications
Quark	Quark.zip	452Kb	98/NT/2000	Free	A powerful security tool which helps you protect your computer
QuickBooks Key	qbkeyd.exe	576Kb	98/Me/XP/NT/2000	Limited trial	Recover lost or forgotten passwords with this program
QuickCrypt	QuickCryptv3.zip	1,230Kb	98/Me/2000	Free	Incorporate encryption using shortcut keys
QuickKey	quickkeyd.exe	589Kb	98/Me/XP/NT/2000	Limited trial	Recover forgotten or lost passwords
Quick-Fix	QwikFixCurrent.exe	137Kb	98/Me/XP/NT/2000	Free	Identify and fix vulnerabilities in Windows that could allow worms onto your system
RAR Password Cracker	rpc412.zip	200Kb	98/Me/XP/NT/2000	Limited trial	Recover your lost passwords for WinRAR
RAT Package	rat_source.zip	450Kb	98/Me/XP/NT/2000	Free	A superb remote admin program
Resolve for W32/Sasser	sassgui.com	80Kb	XP/2000	Free	Remove the MSBlaster-style Sasser virus from an infected system
RIPcoder	ripcoder15f.zip	417Kb	98/Me/XP/NT/2000	Free	Encode your files with secure, password-protected encryption
RunsAs Professional	runasp_setup.exe	110Kb	98/Me/XP/NT/2000	Free	Start applications with other credentials
S Lock	slock_setup.exe	1,577Kb	98/Me/XP/NT/2000	Free	Security feature to stop people accessing your computer
Safe Express Free	sef.exe	840Kb	98/Me/XP/NT/2000	Free	Encrypt POP3 email messages using public key encryption
Scrambler	scrambler.zip	277Kb	98/Me/XP/NT/2000	Free	A free 92-bit encryption program
Scriptrap	strap.exe	45Kb	98/Me/XP/NT/2000	Free	Trap scripts when they attempt to run on your computer

Utility name	File name	File size	System	Notes	Description
Scrub	Scrub.zip	256Kb	98/Mc/XP/NT/2000	Free	Securely erase files using measures that exceed US Government recommendations
Secure! Home Edition	secure!home.exe	1,748Kb	98/Mc/XP/NT/2000	Free	Encrypt your folders and files to keep them secure
Secura Archiver	psa1.4.exe	399Kb	98/Mc/XP/NT/2000	Free	Archive your files with a 128-bit data encryption
SecureWord	secureword.exe	552Kb	98/Mc/XP/NT/2000	Limited trial	Securely store password and login information
Shredder	Shredder.EXE	1,265Kb	98/NT	Limited trial	Digitally shred sensitive material
SIFU	sifud9en.zip	751Kb	98/Mc/XP/NT/2000	Free	Encrypt files with a few mouse clicks using the Blowfish algorithm
Signature995	signature995.exe	43Kb	98/Mc/XP/NT/2000	Free	Encrypt and protect your .pdf and Office files for sending to others
Silent BossKey	SbKsetup.exe	871Kb	98/Mc/XP/2000	Limited trial	A simple virtual desktop program for Windows
Simple Password	simplepassword.zip	282Kb	98/Mc/XP/NT/2000	Free	A simple-to-use password manager
Slap	Slap.exe	470Kb	98/Mc/XP/NT/2000	Free	Slap IP addresses that are scanning your ports
SnadBoy's Revelation	RevelationV2.zip	210Kb	98/Mc/XP/NT/2000	Free	See behind the ***** in a password
Snaguard	sneguard.exe	671Kb	98/Mc/XP/NT/2000	30-day trial	Block any specific URL
Softwrap	Wrapper.exe	659Kb	98	Free	Protect your programs from piracy
Solid Encryption	SolidEncryptionSetup.exe	912Kb	98/Mc/XP/NT/2000	Limited trial	Get completely and utterly unbreakable file protection for your PC
SpyBlocker	spyblock.exe	2,023Kb	98/Mc/XP/NT/2000	Free	Stop spyware from transmitting details about you and your browsing habits
Spybot Search and Destroy	spybotstd12.exe	3,510Kb	98/Mc/XP/NT/2000	Free	Get rid of spyware and the like which may be causing system crashes
Spyware Inoculator	spynoz0.zip	2,200Kb	98/Mc/XP/NT/2000	Free	Stop and delete malicious code with this program
Startup-Mechanic	Mechanic.EXE	715Kb	98/Mc/NT/2000	Free	Improve your system security and speed up boot times in the process
Steganos Internet Anonym5	InternetAnonym5.exe	584Kb	98/Mc/XP/NT/2000	7-day trial	Keep your Web activity secret with this useful security and anonymity tool
Steganos Internet Trace Destructor 6	InternetTraceDestructor.exe	5,890Kb	98/Mc/XP/2000	7-day trial	Eliminate the telltale traces left on your PC that betray your Internet activities
Strong Arm Data Encryption	StrongArmV1-1-0-1.zip	956Kb	98/Mc/XP/NT/2000	30-day trial	Securely encrypt or copyright-protect a number of widely used file formats
Super Spy	SpySetup.exe	304Kb	98/Mc/XP/NT/2000	Free	Record and monitor computer activities automatically
SurfSecret File Encryptor	crypt.exe	889Kb	98/Mc/XP/NT/2000	Limited trial	Encrypt and protect your important files
Syslock	syslock.zip	58Kb	98/Mc/XP/NT/2000	Free	Securely lock your desktop at the touch of a button
System Safe Gold	SSGold.exe	1,600Kb	98/Mc/NT/2000	Free	Back up and restore your vital system files
System Security Suite	Sssetup1031.zip	840Kb	98/Mc/XP/2000	Free	Remove all traces of your Internet activity and clean out your temporary files
System Spyware Interrogator	sissetup.exe	1,960Kb	98/Mc/XP/NT/2000	Free	Provide your computer with real-time protection against spyware
Taskbar	taskbar.zip	23Kb	98/NT/2000	Free	Remove the taskbar from the screen
Tiny Disk Eraser	Internet-eraser-setup.exe	872Kb	98/Mc/XP/NT/2000	Free	Securely erase all trace of your Internet history
Traces Viewer	trace.zip	641Kb	98/Mc/XP/NT/2000	Free	Extract information from a website
Trackless	trackless-setup.exe	123Kb	98/Mc/XP/NT/2000	Free	Eliminate all traces of your Internet activities
Transparent Screen Lock	tslw2k.exe	594Kb	XP/NT/2000	Limited trial	Protect your server while viewing running programs
Truly Random	tr.exe	610Kb	98/Mc/XP/NT/2000	Limited trial	Generate random passwords and remove duplicate random strings
Universal Shield	ushield15.exe	1,980Kb	98/Mc/XP/NT/2000	30-day trial	Hide your important files and folders
Vault	vsetup.exe	37Kb	98/NT/2000	Limited trial	Organize the logins and passwords you acquire on the Web
VBK Key	vbkkeyd.exe	412Kb	98/Mc/XP/NT/2000	Limited trial	Crack the passwords for VBA projects
Visual Log	visuallog.exe	135Kb	98/Mc/XP/NT/2000	30-day trial	Control business and monitor Web activity
W32.Bugbear Removal Tool	Ragbear.exe	100Kb	98/Mc/XP/NT/2000	Free	Remove the Bugbear virus with this program
W32.Etkeze@m Removal Tool	Fekkez.exe	153Kb	98/Mc/XP/NT/2000	Free	Track and terminate the W32.Etkeze@m virus
W32.Mimail Removal Tool	FkMimail.exe	188Kb	98/Mc/XP/NT/2000	Free	Remove the A, C, D, E, F, G, I and J variants of the Mimail virus from your system
W32.Sobier@m Removal Tool	Fixsobier.exe	186Kb	98/Mc/XP/NT/2000	Free	Eliminate the W32.Sobier@m virus from your system
W32.Sobigf@m Removal Tool	Fixsbigf.exe	172Kb	98/Mc/XP/NT/2000	Free	Safely remove all traces of the Sobig.F variant worm from an infected PC
W32.Swen Removal Tool	Fixswen.exe	100Kb	98/Mc/XP/NT/2000	Free	Remove the Fixswen virus from your computer
Webmaster Password Generator	passgen-setup.exe	667Kb	98/Mc/XP/NT/2000	Free	A powerful easy-to-use password generator program for Windows
Whisper 32	whisper.zip	422Kb	98/Mc/NT/2000	Free	Whisper 32 is a very easy-to-use password manager
Who's There	wsetup.zip	2,350Kb	98/NT/2000	Free	Identify who is trying to access your PC
Win32.Bogje.A@m Removal Tool	Antibogje-EN.exe	57Kb	98/Mc/XP/NT/2000	Free	Remove the troublesome Bagje/Bogje virus from an infected system
Win32.Mimail Removal Tool	Antimimail-EN.exe	200Kb	98/Mc/XP/NT/2000	Free	The Win32.Mimail BitDefender removal tool
Win32.Msbias Removal Tool	Antimsbias-EN.exe	100Kb	98/Mc/XP/NT/2000	Free	Remove all traces of the MSBlast virus from your system
Win32.Novarg.A@m Removal Tool	Antinovarg-EN.exe	57Kb	98/Mc/XP/NT/2000	Free	Remove all traces of the Win32.Novarg.A@m virus from your system
Win32.Sober Removal Tool	Antisober-EN.exe	100Kb	98/Mc/XP/NT/2000	Free	The removal tool for Win32.Sober virus
Win32.Worm.Sasser.D removal tool	Antisasser-EN.exe	58Kb	XP/2000	Free	Eradicate all traces of the self-replicating Sasser.D worm from your system
WinDefender	windefender.zip	780Kb	98/Mc	30 day trial	Protects files and folders by making it impossible to delete them
WinGuard Pro 2004	wgpro.exe	750Kb	98/Mc/XP/NT/2000	Free	Lock certain elements of Windows to deter unauthorised access
WinPatrol	wsetup.exe	782Kb	98/Mc/XP/NT/2000	Free	Detect which programs start on your computer
WinSecure IT	winsecure.exe	631Kb	98	Free	Much like the Windows NT Lock system
Word Decryptor	wdecrypt.exe	430Kb	98/Mc/XP/NT/2000	Free	Protect programs, windows and webpages
Word Key	wordkeyd.exe	943Kb	98/Mc/XP/NT/2000	Free	Recover passwords for Word documents
WordPerfect Key	wpkeyd.exe	625Kb	98/Mc/XP/NT/2000	Limited trial	Recover your WordPerfect document passwords
WSecurity	WSecur.zip	97Kb	98/Mc/XP/NT/2000	Free	Protect your data with this small security tool
X-Cleaner Freeware	xcleaner_free.exe	418Kb	98/Mc/XP/NT/2000	Free	Protect your computer from spyware
Xizzo	XizzoSetup.exe	730Kb	98/Mc/XP/NT/2000	Limited trial	A secure password manager that protects data with blowfish encryption
XPY	xpy-0-7-win.zip	37Kb	XP	Free	Close some of the default security threats in Windows XP such as the RPC service
Zero Footprint Crypt	zero_footprint_setup.exe	3,252Kb	98/Mc/XP/NT/2000	Free	Encrypt your files with the Blowfish algorithm – includes an image viewer and media player

Making music.

PCs are capable of performing a wide range of tasks, and with the right tools at your disposal, composing your own music can be one of them.

Technology is constantly evolving, which means that PCs become more powerful on an almost daily basis. There is no part of the average home computer setup that is left untouched by progress and this includes the sound card. For those who find the PC's innards something of a mystery, this is the part of your PC that generates sound effects and music, and that the speakers on either side of your monitor connect to.

In the early days of the PC, the only thing that made sound was the beeper – a single small speaker built into the case of a PC. This is still around in modern PCs and its main purpose back then (and now) was to make angry noises when the user did something wrong.

As time moved on, games made use of this

wimpy speaker to play music or create special effects, but something more effective was needed. It arrived in the form of the sound card, an add-in component that slotted into the main PC motherboard and effectively added music-making capabilities. It was always accompanied by stereo speakers, which usually took up residence on either side of the monitor.

Early sound cards were initially based on simple sound synthesis, as was the fashion at the time, but soon digital audio recording and playback were added, meaning the card could playback pre-recorded snatches of audio or music. This might be a realistic explosion in a game or a clip of orchestra music.

As time went on, the quality of both aspects of the sound card increased. Sound became

16-bit with 44kHz sampling, effectively mirroring the quality of audio CDs, whilst the music-making capabilities started to use 'waveable' (samples of real instruments that are slightly manipulated). Although their development was originally driven by the desire for more realistic gaming, sound cards soon found themselves infringing on the territory of professional music-making equipment.

After years of development, even the most basic sound card built into a PC is a highly capable music-making device. All you need is some software, and you'll find a generous selection packed onto this issue's PC Utilities Plus+ DVD-ROM. In this feature, we will explore the principles behind making music. No talent is required – all you need is a little patience and the desire to learn.

What Hardware Will I Need?

You probably already have the makings of a basic setup for composing music on your PC. Virtually all modern sound cards include wave-table synthesised sounds, as well as the ability to playback sampled sounds. The only additional piece of equipment you need is a sequencer program. Things become problematic when you want to input music, however. It's possible to enter notes individually using the mouse and the computer's QWERTY keyboard (so-called 'step editing'), but this lacks the fluidity of actually playing tunes using a musical keyboard. It's possible to attach any MIDI-equipped musical keyboard to your PC (even inexpensive children's keyboards have the required MIDI ports, you simply need to get hold of a MIDI-to-PC cable. These can be bought from most specialist musical instrument shops or even PC spares shops. Usually they need to attach

A MIDI cable is all you need to attach synthesises to your PC and input music

duces music – to all intents and purposes you're controlling a musical instrument that is separate from the PC. Of course, it's also possible to plug in musical synthesizers and control these into the sequencer program). For this, you'll need a MIDI lead for your PC. For more details, see the What hardware will I need? box above.

"AS YOU MIGHT EXPECT, THE AVERAGE TUNE INVOLVES HUNDREDS OF THESE 'NOTE ON' AND 'NOTE OFF' MESSAGES EVERY SECOND"

together to pretend they're connected by a MIDI cable. In this way, the sequencer software controls the sound card and thus produces music – to all intents and purposes you're controlling a musical instrument that is separate from the PC. Of course, it's also possible to plug in musical synthesizers and control these into the sequencer program). For this, you'll need a MIDI lead for your PC. For more details, see the What hardware will I need? box above.

are sent and no actual music or audio is sent

through the cable.

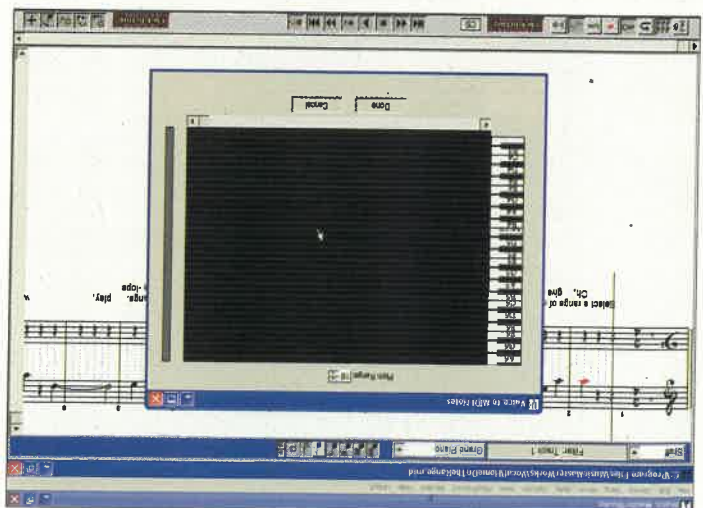

As you might expect, the average tune involves hundreds of these 'note on' and 'note off' messages every second and every instrument that needs to be controlled is sent the musical data. In order to control all the instruments, a computer program called a MIDI sequencer is used. This effectively records all the note on and off messages and lets you manipulate them, as well as save them to disc.

A MIDI sequencer can be used on a PC that doesn't have any musical instruments attached. The sound card and software work

to connect musical synthesizers together. Each keyboard has at least a MIDI IN and a MIDI OUT port. Rather than sending actual audio signals down the cable, only the musical data is sent. In other words, when you press a key on a musical keyboard, the keyboard sends a signal via MIDI saying that a note has been pressed. When you let go of that note, the keyboard sends another message saying the key has been released. In both instances, only small quantities of data

MIDI

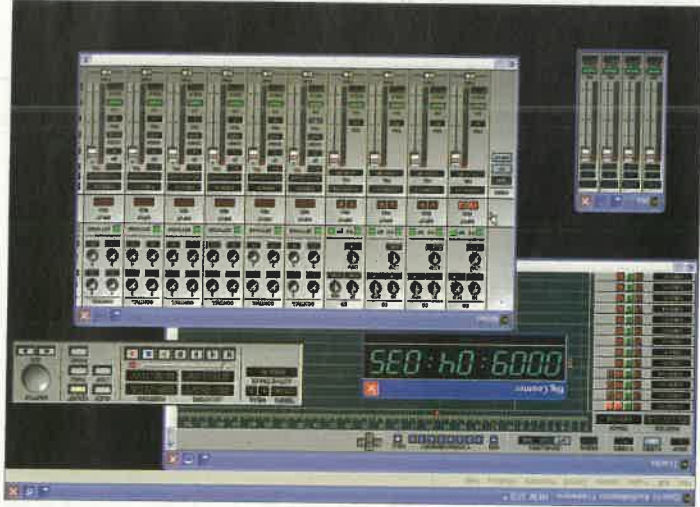

Music MasterWorks is a shareware MIDI sequencer that is ideal for non-musicians

Thanks to its virtual sampler and cool design, MIDI Locator Free! is far more than a standard MIDI sequencer

Quartz AudioMaster is another excellent freeware audio and MIDI sequencer

Sampling

When samplers were first produced in the 1980s, they promised a lot. Many people believed that it was possible to simply attach a microphone, record middle C on a Steinberg piano, and instantly be able to reproduce the instrument. Whilst this is possible, the truth is rather more complicated. A large amount of post-production work must be performed on any set of samples before they can be used. For example, the higher or lower a sample is transposed (ie the higher or lower it's played on the keyboard), the more out of tune it sounds. There's also the problem of harmonics - most instruments generate lots of audio frequencies in addition to simply reproducing the note itself, and a good sampler has to emulate these too. It should also take into account the attack, sustain, decay and release (ASDR) of a note.

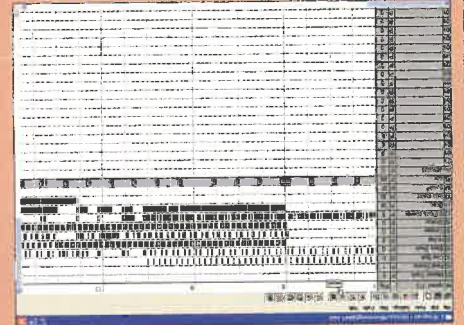

Sometimes the easiest solution is to record each individual note an instrument can play, then assign them to individual keys on the synthesizer, as is done with some modern digital pianos. However, this requires knowledge about how sound synthesises works, such as how to create the ADSR envelope. Very few budget sound cards offer these kind of functions - in most cases you'll have to purchase cards aimed at the power user.

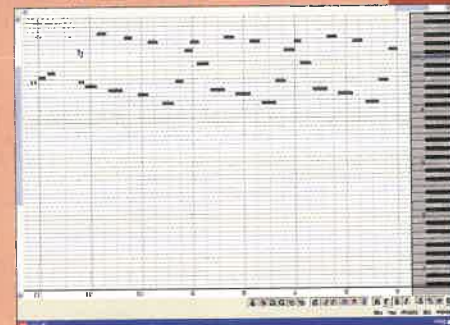

The Emulator II cost as much as a house yet revolutionised music, bringing sampling to the select few

Create MIDI music with Jazz++

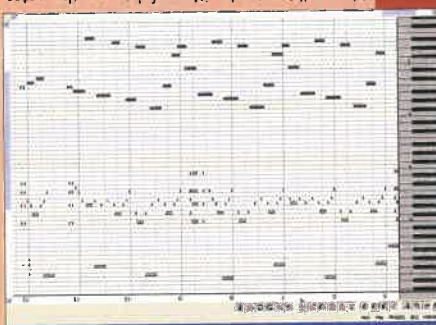

1 Jazz++ is a MIDI sequencer with powerful audio features. The Track display is the first thing you see when you load Jazz++. Each horizontal line represents a note. To record a new track, or to record more notes over an existing track, highlight the track and press record.

2 To see what notes have been recorded for each track, right-click over the track name to open the Piano Roll window. Follow the horizontal gridlines to work out which notes are already recorded. You can paint on your own notes and move or delete existing ones.

3 When editing tracks, it's useful to see the notes that have been recorded in the other tracks. Clicking the Show Events button displays all the notes recorded in your piece of music. You can now accurately line up the tracks' notes to ensure there are no unpleasant sound dashes.

"PART OF THE BENEFIT OF USING A COMPUTER TO SEQUENCE IS THAT THE MUSICAL DATA CAN BE DISPLAYED AND MANIPULATED GRAPHICALLY"

A MIDI sequencer simply records musical data from a keyboard and then plays this data back either through your PC's built-in sound card or an external keyboard/synthesizer. Of course, it's entirely possible to play the musical data back through both devices simultaneously, creating extra musical possibilities.

Most synthesizers operate by offering multiple 'tracks'. Each track can hold any number of musical notes, but can only output on one MIDI channel. The standard way of working is for each MIDI channel to operate one musical instrument on the synthesizer. Each track can hold any number of musical notes, but can only output on one MIDI channel. The standard way of working is for each MIDI channel to operate one musical instrument on the synthesizer.

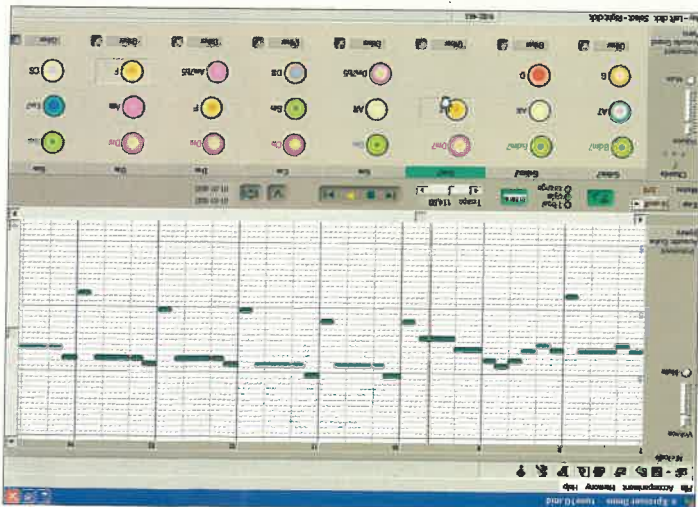

Most synthesizers operate by offering multiple 'tracks'. Each track can hold any number of musical notes, but can only output on one MIDI channel. The standard way of working is for each MIDI channel to operate one musical instrument on the synthesizer.

Sequencing

Tracktion's easy-to-understand interface makes professional MIDI sequencing more accessible

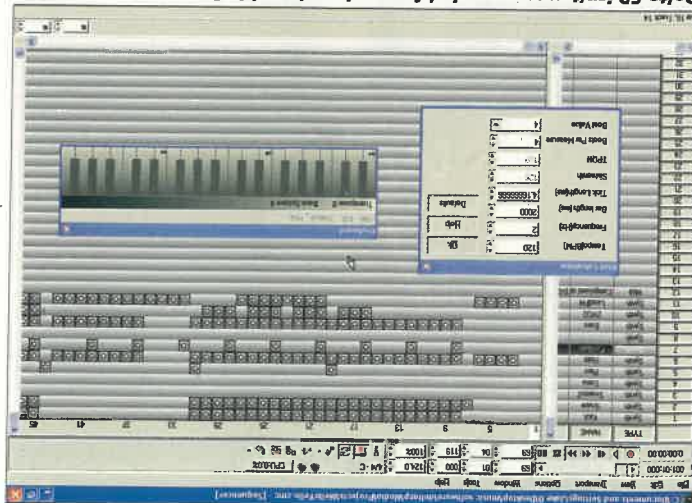

e-Xpressor can create chord progressions that complement your MIDI melody

beat. Quantising automatically fixes this and, depending on the time signature and the mood of the piece, the data is usually 'quantised' to the nearest 16th note (ie the nearest semiquaver). Quantising isn't limited to tidying up, however – it can also move notes off the beat in subtle ways in order to emulate a 'swing' style of playing, for example. Not only can you quantise timing, but the volume can also be fixed (ie how loud the note is played depending how hard you hit the key).

Sample sequencing

A good sequencer will also allow data other than musical information to be recorded, such as instrument changes or pitch bend-wheel data. Other standard features of sequencers include transposing tools and the ability to copy and paste sequences of music.

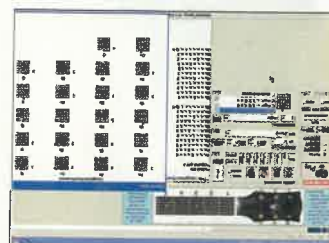

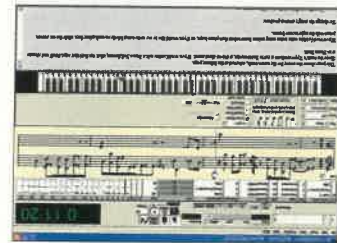

Most modern sequencers also include audio capabilities, something which is quite useful if you don't know what a tone is. To combat this, the sample sequencer program was invented. This is effectively

Delta SP isn't recommended for novices, but this freeware sequencer and .wav editor is packed with features

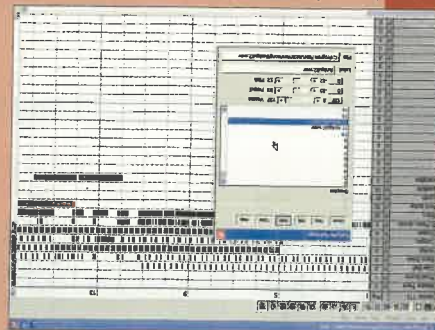

sequence is that the musical data can be displayed and manipulated graphically. This is usually done on a grid, with each note appearing as a black bar at various co-ordinates depending on its pitch (the size of the bar indicates the note's length). However, you can also view the music as a score, as well as in various other clever ways that are designed to help you manipulate the data sometimes play a little messily and miss the whilst you're recording, even the best of us. Although a metronome usually sounds playing by shifting notes onto the beat.

Anvil Studio is one of the best known freeware MIDI sequencers and audio-recording tools

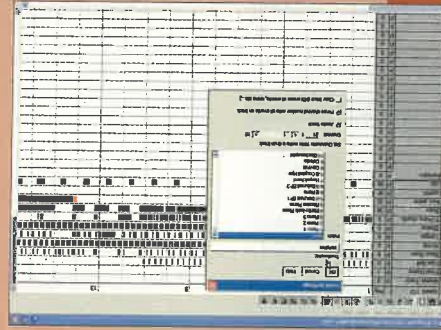

Desktop Guitarist enables users to create MIDI files or practice the rhythm guitar from the Windows desktop

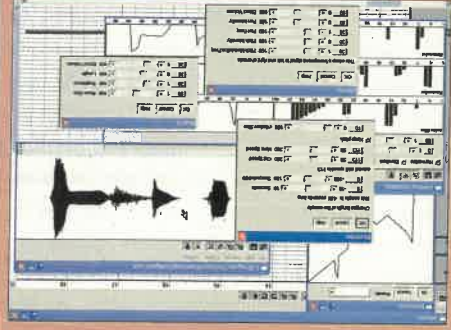

Jazz++ lets you play audio sounds as if they were MIDI sounds, which means there is no limit to the library of sounds you can use. To load audio samples, go back to the Track window, choose Sample Settings, and select the .wav files from your hard drive.

To use the samples you've just loaded into the Sample Bank, you first have to create a new audio track. Click on the next empty track and Jazz++ displays the Track Settings window. Give the track a name and, most importantly, click the Audio Track checkbox.

Once you've recorded your audio track, you have a large selection of tools at your disposal to alter the sound of the samples. Open the Piano Roll window for the audio track, click on one of the notes, and you'll see the .wav file. Now you can open up windows to add effects.

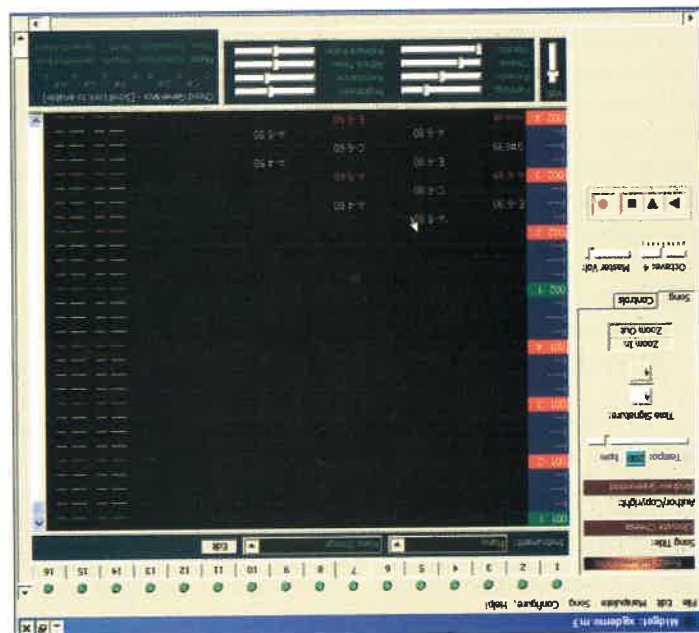

musical sequencing with all the hard work taken out. Instead of manually inputting notes and melodies, you manipulate chunks of ready-made musical samples (usually four beat bars of music). Hundreds of these are provided and they're all matched in key and time signature so that they work together.

Making music is therefore simply a matter of clicking and dragging various samples onto a timeline system similar to that used in MIDI sequencing, and seeing whether they work - it's a musical form of painting by numbers. The user is offered guidance in their choice of samples (they're catalogued as 'bass lines' or 'chords', for example) and it's possible for even the most musically inept to create impressive tunes.

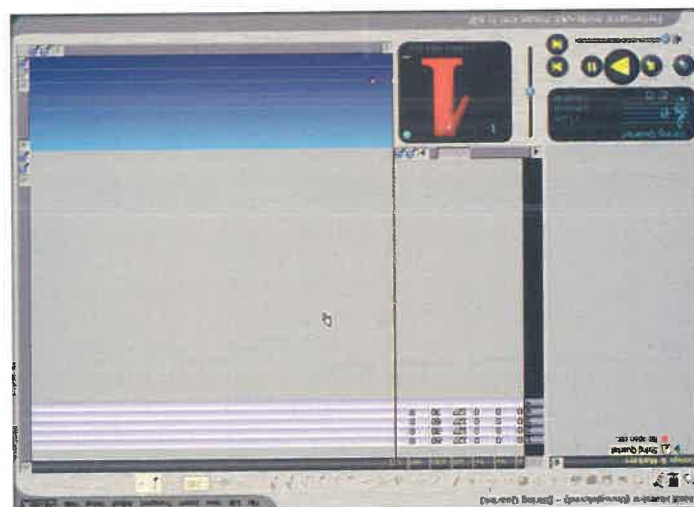

The very best sample-sequencing programs enable users to record their own samples or use special effects add-ins to heavily manipulate those that are built-in. And before you ask, yes, the samples are copyright free, so if you so desire you can attempt an assault on the pop charts with what you come up with.

The problem with sample sequencers is the very thing that makes them easy to use: the samples of music that they offer. Often these are clichéd and can vary enormously in quality. Creating tunes has been made easy by sample sequencers, but creating *original* music is all-but impossible.

Midget looks very different to typical MIDI sequencers to make it easier for non-musicians

MIDI Maestro is designed for use in live performances and as such, is highly powerful

Electronic music

A small electrical component called the oscillator brought about modern electronic music. The oscillator was able to emit electrical pulses at changeable frequencies, which corresponded to the frequencies of musical notes.

One of the oscillator's first musical uses was in the Theremin, which was invented in 1920. This was unique in that it used radio frequencies to sense where the player's hand was in the air. However, moving the hand would alter the pitch of the musical note.

Various other attempts at the production of electronic music were made in following years, usually as part of avant garde movements. These include Musique Concrète in the 1940s, which involved using tape recorders to manipulate and repeat snatches of audio.

It wasn't until the 1970s that electronic music became firmly established with the invention of the Moog synthesizer. A variety of musical acts incorporated the new electronic sounds into their way into vitally all pop music.

They were followed by the likes of Jean Michel Jarre, Tangerine Dream and Vangelis in the 1980s. By then, digital technology had influenced synthesizer design, with the infamous Yamaha DX7 introducing FM synthesis. The sampler, in the form of the Fairlight and Emulator instruments, also took hold. Sampled sounds and synthesis would eventually be combined to form the groundbreaking Korg M1.

In the 1990s, synthesizers, samples and acoustic instruments were used interchangeably and it became increasingly hard to tell the three apart. In our modern age, electronic music is perhaps best personified by techno music, which is found in the nightclubs of Ibiza, but synthetic sounds find their way into vitally all pop music.

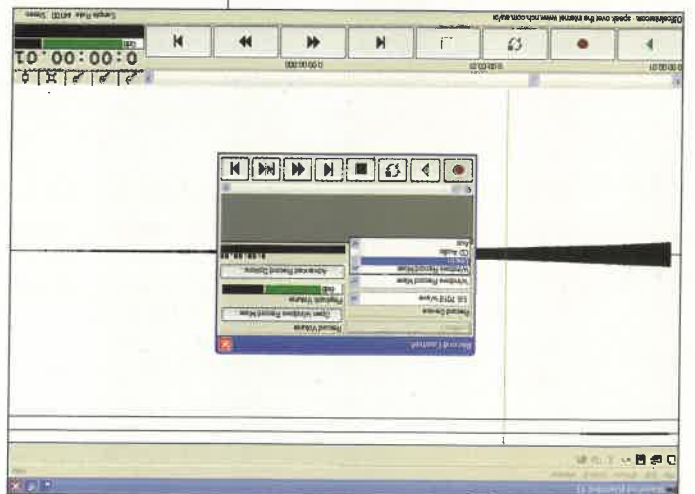

High science met music making when the Moog was invented, pictured here with its inventors

Audio & Video

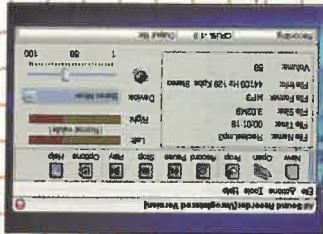

In this issue's Audio and video section we have gathered together a generous selection of almost 400 tools to help you turn your PC into a desktop media player. You'll find everything here from simple .mp3 players to audio-conversion tools, and from video editors to DVD-recording software. There are plug-in tools for Winamp, CD extractors and you'll even find tools to help you burn your own audio CDs. Whether you fancy yourself as a budding movie director or a club DJ, we've got just the tools you need.

Utility name	File name	File size	System	Notes	Description
0303	0303.zip	159Kb	98/M/XP/NT/2000	Unlimited trial	Turn your PC's piezoelectric speaker into a beat machine
10-Strike MP3-Scanner	10s_mp3scan.zip	613Kb	98/NT/2000	Free	Scan your L&M for .mp3 files
1by1	1by1.zip	35Kb	98/M/XP/NT/2000	Free	Create and update playlists for your media files
1Click DVD Copy	1clickdvdcomsetup.exe	4,500Kb	98/M/XP/NT/2000	Limited trial	Make backup copies of your DVD movies
1Click DVD to MPEG Mpg	dvdtompeg.exe	973Kb	98/M/XP/NT/2000	Free	1 Click DVD to Mpeg conversion
1Click DVD to SVCD	dvdtosvcd.exe	975Kb	98/M/XP/NT/2000	Free	Easy-to-use DVD to SVCD converter
1Click DVD to VCD	dvdtovc.exe	975Kb	98/M/XP/NT/2000	Limited trial	Copy DVD to VCD and convert DVD to VCD
1st AVI to DVD	cuad.exe	2,480Kb	98/M/XP/NT	Limited trial	A powerful utility for video file converting
1st Clone DVD	clonedvd.exe	1,160Kb	98/M/XP/NT/2000	Limited trial	Make perfect clones of your DVD movie discs
2xAV Plug-In for Windows Media Player	2xAVWMMP_installPHF.exe	1,590Kb	98/M/XP/NT/2000	Limited trial	A great plug-in for Windows Media Player
3D MP3 Sound Recorder	3drec.exe	1,003Kb	98/M/XP/NT/2000	Limited trial	Record sounds played through your sound card
4-Track MP3 Mixer	mp3mixer.exe	3,220Kb	98/M/XP/NT/2000	Free	Mix your .mp3s with this handy program
AA4 DVD Ripper	sdvdr.exe	944Kb	98/M/XP/NT/2000	Limited trial	Convert DVD movies into DivX or MPEG formats
ABC Video Roll	abc_2570.zip	2,421Kb	98/NT/2000	Free	Join two separate video files into one
Abomnactivia	abomnactivia.zip	221Kb	98/M/XP/NT/2000	Free	Link up to 128 random noises to create your own cacophony
Abynth	Abynthpdcdemo.exe	5,047Kb	98/M/XP/NT/2000	Limited trial	Software synthesizer with advanced sound modelling
ABView	ABView.zip	1,670Kb	98/M/XP/NT/2000	Limited trial	Simple multi-format viewer
AbyssAudio Pro	abysspro.zip	372Kb	98/M/XP/NT/2000	Free	Clean up your audio files
Ace DVD Copy	AceDVDCopy.zip	1,590Kb	98/M/XP/NT/2000	20-day trial	Back up DVD movies to VCD, SVCD, DivX or .avi formats
Ace-High MP3 Recorder	mp3recorder.exe	835Kb	98/M/XP/NT/2000	Limited trial	Record sound from your computer to .mp3 or .wav files
AcePlayer	aceplayer.exe	2,006Kb	98/M/XP/NT/2000	Free	Play songs and movies and view images
Acustica MP3 Audio Mixer	Acustica-MP3-Audio-Mixer-Installer.exe	1,400Kb	98/M/XP/NT/2000	Limited trial	Create your own DJ-style mix CDs and broadcast DJ sets via the Web
Advance MP3 sound recorder	amrec.zip	713Kb	98/M/XP/NT/2000	Limited trial	Record sound from any audio source
Advanced AVI Splitter	avisplit.exe	707Kb	98/M/XP/NT/2000	Limited trial	Movie splitter, audio extractor and video frames grabber
Advanced CD Ripper Pro	advanced-cd-ripper-pro.exe	1,830Kb	98/M/XP/NT/2000	Limited trial	Rip audio CDs into a range of digital formats – skinnable and fully CDDA-compatible
Advanced Encode Decode Tools	aedtools.zip	6,360Kb	98/M/XP/NT/2000	Limited trial	Convert audio between formats with this tool
Advanced MP3 Converter	advanced-mp3-converter.exe	2,060Kb	98/M/XP/NT/2000	Limited trial	Quickly convert .mp3, .wma, .ogg and .ape files to .wav and .wav files to .mp3
Advanced MP3 Home Station	audiocd.exe	5,976Kb	98/M/XP/NT/2000	Limited trial	A beginner's intro into the world of CD burning
Advanced MP3 Search	am3dinst.exe	199Kb	98/M/XP/NT/2000	Limited trial	Search for music and retrieve .mp3 and .wav files
Advanced Phone Recorder	apr.exe	1,670Kb	98/M/XP/NT/2000	Limited trial	Record phone calls to your hard drive with this useful tool
Advanced WMA Workshop	awmaw.exe	5,450Kb	98/M/XP/NT/2000	Limited trial	Encode .wav and .mp3 files into the .wma (Windows Media Audio) format
Album Tracker	atdl.exe	630Kb	98/M/XP/NT/2000	Limited trial	Catalogue your music collection
Alcohol 120%	Alcohol120_trial_1_4_8_1222.exe	3,510Kb	98/M/XP/NT/2000	30-day trial	A superb CD- and DVD-burning and copying application
Alive CD Ripper	AliveCDripper.exe	5,780Kb	98/M/XP/NT/2000	Level limited	A powerful and easy-to-use CD ripper
Alive Text to Speech	AliveTextToSpeech.exe	1,100Kb	98/M/XP/NT/2000	Free	Text to speech reader – hear words through your speakers
All Editor	aesetup.exe	2,760Kb	98/M/XP/NT/2000	Limited trial	Create a professional music studio on your desktop
All Media Fixer	MediaFixer.exe	1,007Kb	98/M/XP/NT/2000	Free	Repair partially downloaded or damaged audio and video files
All My Movies	amm_setup.exe	1,447Kb	98/M/XP/NT/2000	Free	Tired of managing movies – use this database
All Sound Recorder	all-sound-recorder.exe	1,380Kb	98/M/XP/NT/2000	Limited trial	Record sound from media players or any other sound source
All to Wave Converter	wave-converter.exe	1,050Kb	98/M/XP/NT/2000	Limited trial	Convert .mp3, .wma and .ogg files into .wav format – supports normalisation
All to WMA Converter	all2wma.exe	4,774Kb	98/M/XP/NT/2000	Limited trial	An audio conversion program which allows you to convert .mp3 files to .wma format
All Video Splitter	allsplitter.exe	1,510Kb	98/M/XP/NT/2000	Limited trial	Create video clips with some neat features
All WAV Recorder	awsetup.exe	343Kb	98/M/XP/NT/2000	Free	Record virtually any sound source – including streaming audio – to .wav files
Alpinysoft Cleaner for Amateur Video	avcleanup.exe	306Kb	98/M/XP/NT/2000	Limited trial	Clean your video with this tool for Windows
Alpinysoft Lossless Video Codec	astocodec_setup_1.6.exe	147Kb	98/M/XP/NT/2000	Free	Capture and compress video from a TV card or analogue video source
AMF Multimedia Jukebox	jukebox.exe	251Kb	98/M/XP/NT/2000	Free	Multimedia jukebox program for Windows – take control of your tracks!
Ampband	ampband576.exe	262Kb	XP/NT/2000	Free	Display the media name being played in Winamp 2/5, Power DVD and other programs
Analogue BitPolice	bpolice.exe	134Kb	98/M/NT	Free	Manage DirectX audio plug-ins
AnalogueX Bound	bound.exe	151Kb	98/M/NT	Free	Clamp an audio stream to maximum value
AnalogueX DXMan	dxman.exe	182Kb	98/NT/2000	Free	Manage your DirectX audio plug-ins
AnalogueX Vocal Remover (Winamp)	vremover.exe	177Kb	98/NT	Free	Strip out the vocal content from your .mp3 files
Analyzer Recording	AnalyzerRecordingSetup.exe	148Kb	98/M/XP/NT/2000	Limited trial	Capture an image from any windows with this program
Animator-9	animator.zip	440Kb	98/NT	Free	Animate your digital camera images
Anvil Studio	anstudio.exe	3,350Kb	98/M/XP/NT/2000	1-minute limit	Compose, edit and sequence MIDI – upgrade to the Pro version to create longer tracks
Anvil Studio Upgrade	astu.exe	1,850Kb	98/M/XP/NT/2000	Free	An upgrade for Anvil studio (install after you have installed the main program)
Apollo DVD Backup Pro	apolloedvdback.exe	1,720Kb	98/M/XP/NT/2000	Limited trial	Back up your DVD movies to .avi, SVCD, DivX and Xvid formats
ASX Maker	ASXMaker.exe	162Kb	98/M/XP/NT/2000	Free	Create a playlist from your video files
AtomixMP3	atomixmp3_trial.exe	3,110Kb	98/XP/NT/2000	Limited trial	Mix .mp3s on your computer like a real DJ
audirect	audirect-fastest.zip	28Kb	98/M/XP/NT/2000	Free	A fast and easy to use ActiveX-OCX component
Audacity	audacity-win-1.2.exe	2,840Kb	98/M/XP/NT/2000	Free	Create, edit and mix sounds with this fine free program
Audio Conversion Wizard	acwizad.exe	5,946Kb	98/M/XP/NT/2000	Limited trial	Quickly convert audio files between different formats
Audio Edit	Audioedit.exe	8,795Kb	98/NT	Limited trial	Decoder and editor for .mp3s, plus graphical .wav editor/recorder
Audio MP3/WMA Recorder	mp3-wma-recorder.exe	5,009Kb	98/M/XP/NT/2000	Free	Software for recording audio streaming
Audio Record Wizard	arw3.zip	2,410Kb	98/2000	Free	Record audio files directly from your sound card

Utility name	File name	File size	System	Notes	Description
Audio Station	austa_6.exe	13.476Kb	98/Mc/XP/NT/2000	Free	Play back your favourite audio files
Audio Streamer	as11.exe	4.858Kb	98/Mc/XP/NT/2000	Free	Stream audio off the Net with this tool
Audio Switch	au_swt145.zip	58Kb	98/NT/2000	Free	Cut audio files down to size
AudioBank 2003	audiobank2ksetup.exe	3.850Kb	98/Mc/XP/NT/2000	Limited trial	Manage your music easily with this tool
AudioBlock Edit	audioblockedit.msi	401Kb	98/Mc/XP/NT/2000	Free	Block-edit audio files with this program for Windows
AudioFilter	audiofilter.zip	245Kb	98/NT	Limited trial	Filter .wav files and encode them as .mp3s
AudioGrabber	agfreestup.exe	1.417Kb	XP	Limited trial	Record music digitally from your CD-ROM drive
AudioGrabber	agstsup.exe	1.417Kb	98/Mc/XP/NT/2000	Free	Record music digitally from your CD-ROM drive
AudioLib MP3 Recorder	alrecorder.exe	1.584Kb	98/Mc/XP/NT/2000	Free	MP3 recorder program for Windows
AudioRight Burner	arburn20.exe	7.580Kb	98/Mc/XP/NT/2000	Limited trial	A great audio CD burner with conversion software included
AudioRight Recorder	arec20.exe	6.870Kb	98/Mc/XP/NT/2000	Limited trial	Record voice from microphone, internet streaming audio or .mp3s
AudioShaker	audioshaker.zip	2.550Kb	98/Mc/XP/NT/2000	Free	Listen to and organise your .mp3 audio collection
AudioSphere	asup.exe	655Kb	98/NT	Limited trial	Find, organise, convert and transform with this program
AudioStudio	audiostudio.exe	9.331Kb	98/Mc/XP/NT/2000	Free	Record audio cassettes or vinyl LPs as .mp3s or burn to CDs
AudioTools	Atools60.exe	5.206Kb	98/NT	Limited trial	Record audio cassettes or vinyl LPs as .mp3s or burn to CDs
AutoPics	autopics.zip	9Kb	98/Mc/XP/NT/2000	Free	An instant slideshow creator
AV MP3 Morph	mp3morph.exe	5.447Kb	98/Mc/XP/NT/2000	14-day trial	Morph together .mp3s and create neat effects with them
AV3	AV3demo.exe	997Kb	98/Mc/XP/NT/2000	Free	Edit movies on your PC and capture the contents of your desktop

AVD Video Processor	advp.zip	1,004Kb	98/Mc/XP/NT/2000	Limited trial	A useful program for converting video files into different formats
AVI Constructor Pack	AVIconstructor.exe	2.263Kb	98/Mc/XP/NT/2000	Limited trial	Convert still images into animated .avi videos
AVI Edit	avedit.zip	72Kb	98/Mc/XP/NT/2000	Free	Edit small video files
AVI2BMP	avi2bmp.zip	105Kb	98/Mc/XP/NT/2000	Free	Convert .avi movie files to individual frames
AVItoFrames	AVItoFrames-1_setup.exe	459Kb	98/Mc/XP/NT/2000	Limited trial	Convert an uncompressed .avi into one large .bmp file which tiles the frames
AVS Audio Utilities	AVSAudioUtilities.exe	11.545Kb	98/Mc/XP/NT/2000	Limited trial	A package of powerful audio utilities
Awake Audio	awake83.zip	659Kb	98/NT	30-day trial	Convert batches of audio files into different formats
Axite FM Player Lite	fm207lite.exe	1.417Kb	98/Mc/XP/NT/2000	Free	Skins, hotkeys and task scheduling for TV-tuner cards
Battery	BATTERY_DEMO.zip	2.823Kb	98/Mc/XP/NT/2000	Limited trial	Sampled-based software for editing and triggering drums
Beat 2000 Jazz Version	b2107jazz.exe	1.644Kb	98/Mc/XP/NT/2000	Free	Create jazz music with this simple program
BeatBurner	bb1_demo.exe	2.555Kb	98/Mc/XP/NT/2000	Free	A professional sampling program for Windows
BestPlay	BestPlay_Setup.exe	780Kb	98/Mc/NT/2000	Free	Special multimedia, video and audio program
Blaze DVD Player	BlazeDVDSetup.exe	2,002Kb	98/Mc/XP/NT/2000	Limited trial	Create a home theatre on your PC
BOOMBox	BOOMBox_Setup.exe	1.832Kb	98/Mc/XP/NT/2000	Limited trial	Quickly search thousands of online radio stations
BPM-Studio Pro	bpmdemo.exe	8.333Kb	98/Mc/XP/NT/2000	Free	Run two players together and mix the tracks with this tool
BPS Audio Converter Pro	bpscp30.exe	9.677Kb	98/Mc/XP/NT/2000	Limited trial	Convert audio with this super conversion program
BRELS MIDI Editor	brelsmidi.zip	309Kb	98/Mc/XP/NT/2000	Free	A MIDI editor that supports many controls
BSPayer	bsplay08b499.exe	1,079Kb	98/Mc/XP/NT/2000	Free	Play back video and audio files
Burn CD Now	burncdnow.exe	1,180Kb	98/Mc/XP/NT/2000	Limited trial	Burn CDs quickly
Burn VCD	mkvcd.zip	3,100Kb	XP/NT/2000	Free	Quickly burn VCDs of your .mpg files to watch on a DVD player
Business Music System	bms.zip	1,719Kb	98/Mc/XP/NT/2000	Free	Play background music for shops and places of work
Cam Chaser Pro	CPro302.exe	371Kb	98/NT	Free	A viewer for image-based webcams with numerous options
Caotica	caotica2_installer.exe	2,300Kb	98/Mc/XP/NT/2000	Free	Audio synthesis and effects tool
caotica2 bpm calculator	bpmcalc_installer.exe	655Kb	98/Mc/XP/NT/2000	Free	Compute tempo from the loop time and vice versa
Capturex	Capturexshar.exe	1,270Kb	98/Mc/XP/NT/2000	Limited trial	Take bitmap snapshot from video files
CD Blaster	cdp.zip	1,359Kb	98/Mc/XP/NT/2000	Free	Combine CD burning and ripping with this handy tool
CD MP3 Burner	cd-mp3-burner.exe	1,420Kb	98/Mc/XP/NT/2000	Limited trial	Make audio CDs from your favourite .mp3s and .wav files
CD Player Maximus	maximus4.exe	768Kb	98/NT	Free	Play CDs and record track and artist information
CD Runner 2004	cdr2004.zip	7.262Kb	98/NT	Limited trial	A complete audio jukebox
CD Wave	cdwav182.exe	614Kb	98/NT/2000	30-day trial	Remove the background noise from your sound recordings
CDAD	cdaid.exe	355Kb	98/Mc/XP/NT/2000	Limited trial	Get more information on your CDs
Cdex	cdex_150.exe	1,101Kb	95	Free	Convert CD tracks into .mp3 files with this free and stable utility
cdcdao	cdcdao32.zip	982Kb	98/Mc/XP/NT/2000	Free	Record audio CDs in disc-at-once mode
CDrun	cdrun.zip	246Kb	98/NT	Free	A tiny, freeware audio CD player
Cheetah CD Burner	cheeta.exe	5,001Kb	98/Mc/XP/NT/2000	Limited trial	Burn audio files to CD with this program
Cheetah DVD Burner	CheetahDVDBurner.exe	5,850Kb	98/Mc/XP/NT/2000	45-day trial	An easy-to-use interface to create DVDs
Chopper XP	chopper.zip	809Kb	XP	Free	DVD editing program for Windows XP
Chords	chords.zip	216Kb	98/Mc/XP/NT/2000	Free	Identify which chords make up your favourite songs
Chromatia Tuner	ctuner30.zip	509Kb	98/Mc/XP/NT/2000	Limited trial	A multi-temperament instrument tuner
ClipFactory	clipfactory.exe	623Kb	98/Mc/XP/NT/2000	Free	Capture the content of your desktop
Cliprex DS DVD Player	cliprexdsfree.exe	1,970Kb	98/Mc/XP/NT/2000	Free	Watch DVDs or video files on your desktop
Cliprex Lite Video Player	cliprexlite.exe	1,536Kb	98/Mc/XP/NT/2000	Free	No trills video file player
Cmd2Wav	cmd2wav.zip	17Kb	98/Mc/XP/NT/2000	Free	Record any length .wav file from a command line
CoSoft Stream Down	StreamDown.zip	1,490Kb	98/Mc/XP/NT/2000	Limited trial	Capture streaming audio or video content to your hard disk

Utility name	File name	File size	System	Notes	Description
CombiMovie	InstCombiMovie.EXE	370Kb	98/Mc/NT/2000	Free	Combine two .mpeg movies into a single playable file
Comet eye	cometeye1.exe	2,437Kb	98/Mc/XP/NT/2000	Free	Keep an eye on your property with this video monitoring application
Compatible Optimizer	compatibleoptimizer.zip	3,400Kb	98/Mc/XP/NT/2000	Limited trial	Optimize your Shockwave animation files
Cool MP3 Player	coolmp3.exe	299Kb	98/Mc/XP/NT/2000	Free	Peruse your .mp3 files with this groovy player
Copypod	Copypod_v1.02.zip	366Kb	XP	Free	Save music from your iPod music player to your PC
CopyToDVD	copytodvd3_setup.exe	5,860Kb	98/Mc/XP/NT/2000	Limited trial	Back up data to CD or DVD disks
Cryptifix	ctx100.zip	925Kb	98/Mc/XP/NT/2000	Limited trial	Video player with encryption capabilities for Divx and .avi format movies
CSAudio	csaudio.zip	660Kb	98/Mc/XP/NT/2000	Free	Listen to audio CDs with this compact player that's light on system resources
CueListTool	clsetup.exe	608Kb	98/Mc/XP/NT/2000	Limited trial	Copy cue lists from .wav files
CwType Mouse Terminal	cwtyp130.zip	724Kb	98/Mc/XP/NT/2000	Free	A terminal program for CW-operators
CyberCam	CyberCam3611-1NS.exe	4,464Kb	98/Mc/XP/NT/2000	Limited trial	Create movies on your desktop
D4Sound	d4sound.zip	2,600Kb	98/Mc/XP/NT/2000	Free	Light colour and 3D graphic animation
dbpowerAMP Music Converter	DMC-r10.exe	1,510Kb	98/Mc/XP/NT/2000	Free	Convert audio files from one format to another
Deelaysystem	dsmkifree.exe	836Kb	98/Mc/XP/NT/2000	Limited trial	An audio player designed for and by professional DJs
DeepBurner	DeepBurner1.exe	2,630Kb	98/Mc/XP/NT/2000	Free	Create your own CD and DVD compilations with this powerful freeware disc authoring suite
Deformer	deformer.exe	6,008Kb	98/Mc/XP/NT/2000	Limited trial	Deform one image until it becomes another
Delta SP	deltasp.zip	4,006Kb	98/Mc/XP/NT/2000	Free	A sequencer, synthesizer and .wav editor program
Desktop Guitarist	dg25.zip	1,021Kb	98/Mc/XP/NT/2000	Limited trial	Play guitar... on your PC!
Desktop Juicebox Lite	dj40.exe	555Kb	98/Mc/XP/NT/2000	Free	Get music playback on your desktop with this program
Destiny Media Player	destinymvp3.exe	425Kb	98/NT/2000	Free	An .mp3 player with drag-and-drop capabilities
Digital MP3 Studio	digital.zip	1,925Kb	98/Mc/XP/NT/2000	Free	Desktop player for all your .mp3 files with a choice of skins
DirectDVD	DirectDVD.exe	5,030Kb	98/Mc/XP/NT/2000	Limited trial	Try this fully-featured digital quality DVD player
Divfix	Divfix110.zip	266Kb	98/Mc/XP/NT/2000	Free	Watch partially downloaded or damaged Divx movie files
DivX 4.12	DivXPro511GMBundle.exe	813Kb	98/Mc	Free	The final DivX4 movie codec plus free multimedia viewer
DivX 5.1 Bundle	DivX51Bundle.exe	5,189Kb	98/Mc/XP/NT/2000	Free	The popular video compression codec with dedicated player
DJ Decks	djDecks061.exe	3,025Kb	98/Mc/XP/NT/2000	Free	Use these decks to mix your collection of music
DJ Mix Lite	djmixlite.exe	502Kb	98/Mc/XP/NT/2000	Limited trial	Mix your .mp3 tracks like the best virtual DJ!
DJ Power	DJPowerDemo.exe	3,733Kb	98/Mc/XP/NT/2000	Limited trial	Get the power of the best DJs with this program
DJTray	DJTray1000.exe	562Kb	98/Mc/XP/NT/2000	Free	A handy DJ station for you to mix your tunes with
DM5	DMdemo.exe	17,456Kb	98/Mc/XP/NT/2000	Demo	A superb loop tool for Windows
Dojo Media Player	dojo.exe	2,675Kb	98/Mc/XP/NT/2000	Free	An .mp3 audio player/DJ studio for Windows
Dos MP3 player	dosmp3.zip	244Kb	DOS	Free	A DOS-based .mp3 player
Drive Info	pdfinfo-setup.exe	835Kb	98/Mc/XP/NT/2000	Free	Check the details and region information of your DVD drive
DRS 2006	DRS2006.zip	16,540Kb	98/Mc/XP/NT/2000	Free	Fancy yourself as the next Terry Wogan? This is the program for you
DSPlayer	DSPlayer_V06_LITE_BETA2.EXE	1,000Kb	98/Mc/XP/NT/2000	Free	A free skinnable DVD player
DV MPEG4 Maker	dvmpg4maker_setup.exe	1,970Kb	98/Mc/XP/NT/2000	Limited trial	Create MPEG4, DivX, .avi and .wmv videos from your digital video camera
DVD Backup Xpress	dvbx25.exe	5,370Kb	98/XP/2000	Free	Make perfect quality backups of your DVD movies
DVD Copy Express	dccsetup.exe	1,074Kb	98/Mc/XP/NT/2000	Limited trial	Back up DVD movies to VCD or SVCD with this simple tool

Miscellaneous

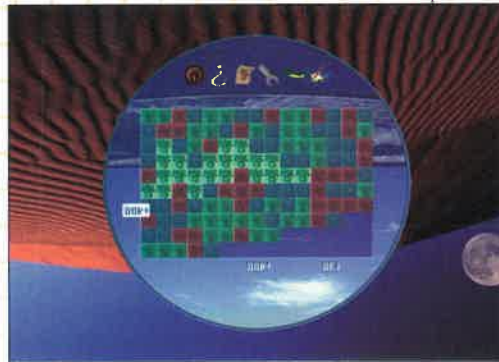

Bringing up the rear on our action-packed DVD-ROM is our collection of games, education tools and programming applications, as well as those utilities that don't really fit into any of our other categories. We have the ideal tools if you want to learn about the geography of the USA or manage your personal finances using a free financial-management program. Alternatively, if you need a break from optimizing your Internet connection or streamlining your Windows installation, then why not try out one of the hundreds of titles in our Games and Leisure section.

WinMind	wm32usa.zip	20Kb	98/Me/XP/NT/2000	Free	Break the secret colour code created by the program
Word Search Deluxe	wordsearch.exe	5,380Kb	98/Me/XP/NT/2000	Limited trial	Practise your skills in word searches with this program
Words	WordSetup.exe	307Kb	98/Me/XP/NT/2000	Free	Utility for learning foreign words and expressions
XO	xo1.zip	131Kb	98	Free	Simple board game where you have to arrange the tiles in straight lines
Xor	instal-xor.exe	2,410Kb	98/Me/XP/NT/2000	Free	Maze game that tests player's logical thinking
Zed	zed.exe	631Kb	98/Me/2000	Limited trial	Help Zed through 10 levels of platforming action

PROGRAMMING

Utility name	File name	File size	System	Notes	Description
Advanced Presentation tools	adpinstoolseval.zip	20Kb	98/M/XP/NT/2000	Limited trial	Add powerful presentations and functionality to your webpages
AJ Make	ajmake.version_030.zip	1,230Kb	98/M/XP/NT/2000	Limited trial	A GUI file maker program for Windows
Anti Piracy Tools 2004 Professional	ap.personal.zip	845Kb	98/M/XP/NT/2000	Limited trial	Protect the code of your software applications to prevent illegal copying and distribution
Anti-Spam Script Maker	assmk3.zip	760Kb	98/M/XP/NT/2000	Free	Copy and paste JavaScript into your scripts
Artisoft Winyntax	aswyt11.zip	431Kb	98/M/NT/2000	Free	A free PHP editor for Windows
Artifact Desktop	ad20.exe	9,512Kb	98/M/XP/NT/2000	Free	A personal code manager program
Assembler Edit	asmedit.zip	256Kb	98/NT/2000	Free	Create and edit pure assembler code
AXE	installAXE.exe	1,100Kb	98/M/XP/NT/2000	Free	Allow development, data salvage and low level engneel engineering
AYS-Mobo	AYS-Mobo.zip	115Kb	98/NT/2000	Free	Create round windows with this handy program
Backedit	backedit10.zip	1,000Kb	98/XP/NT/2000	Free	Suitable syntax highlighted editor
BBC Basic for Windows	bbcdemo.exe	1,300Kb	98/M/XP/NT/2000	Limited trial	Combine the simplicity of BASIC with a structured modern language
Big.Hex	big_hex.zip	103Kb	98	Free	Convert hexadecimal numbers into decimal numbers
Boxer Text Editor	boxertexteditor.exe	2,670Kb	98/M/XP/NT/2000	Limited trial	Allow colour syntax highlighting and printing
Browse For Folder ActiveX Control	demoseup.exe	363Kb	98/M/XP/NT/2000	Limited trial	Incredibly simple way of adding a "Browse for folder" dialog to your own programs
CAD Image	CADImage.zip	603Kb	98/M/XP/NT/2000	Limited trial	Revolution in custom CAD development with incredible speed
ClearSQL	cqsl.exe	75Kb	98/M/XP/NT/2000	Limited trial	Test and maintain a PL/SQL file
Code Starter	Code_starter.zip	17Kb	98/M/XP/NT/2000	Free	Create code by answering a few simple questions
CodeModeler	codemod.exe	408Kb	98/M/XP/NT/2000	Limited trial	Create, view and edit UML diagrams
Codekeeper .NET	Codekeeper.NET.zip	900Kb	98/M/XP/NT/2000	Free	Carry out operations on Delphi, IDL and VBScript
CodeThatMenu Standard	setupmenustd.exe	243Kb	98/M/XP/NT/2000	Free	Create advanced JavaScript navigation menus for use on your website
CodeX	codex_setup.exe	686Kb	98/NT	Limited trial	Send encoded text files with this program
CONTEXT	CONTEXTSetup.exe	940Kb	98	Free	CONTEXT is a small, fast and powerful text editor
Crimson Editor	crimson.zip	805Kb	98/M/XP/NT/2000	Free	Powerful source code editor for many popular programming languages
CuteSQL	cutesql.zip	1,220Kb	98/M/XP/NT/2000	Free	A super database program for Windows
Dacris CodeShip	codeship.exe	260Kb	98/M/XP/NT/2000	Free	Increase your daily coding efficiency
DBQwikEdit Lite	DBQwikEditLite.exe	1,300Kb	98/M/XP/NT/2000	Limited trial	Access and manage data in almost any database
DBReader	DBReader178.zip	1,310Kb	98/M/XP/NT/2000	Free	A hierarchical database program for Windows
DCC Workshop	DCCworkshop.zip	113Kb	98/M/XP/NT/2000	Free	Program DCC code yourself
DeadLine	Deadsmail.exe	663Kb	98/M/XP/NT/2000	Free	Identify the number of roots to an equation and get a precise estimate of those roots
Defect Tracker	track.exe	450Kb	98/M/XP/NT/2000	Limited trial	Debug your software releases
Delphi Project Launcher	dpl.zip	329Kb	98/M/XP/NT/2000	Free	Create a quick launch list of all your Delphi applications
Developer's Notepad	dnsetup.exe	160Kb	98/M/NT/2000	Free	Write notes with hotlinks direct to source code
DZEdit	dzeddi.zip	361Kb	98/M/XP/NT/2000	Free	Edit FILE.ID.DIZ files
DTM SQL Editor	se.demo.exe	720Kb	98/M/XP/NT/2000	Limited trial	A set of powerful database management tools
Dumphex	dumphex101.zip	32Kb	98/M/XP/NT/2000	Free	A Win32 command line hex viewer
EasyMap VCL	em.zip	1,404Kb	98/M/XP/NT/2000	Limited trial	A Delphi/C++ builder for Windows
EasySetup	easysetup2.exe	755Kb	98/NT	Limited trial	Compress files into a single executable installation file
EditCNC	EditCNC_demo.exe	5,211Kb	98/M/XP/NT/2000	Limited trial	A lightning fast text editor designed for CNC programmers
Edituix	ed.zip	2,160Kb	98/M/XP/NT/2000	Limited trial	A syntax highlighting text editor with ActiveX
Edited Pro	SetupEditProadProDemosnecr-epp-dl.exe	1,750Kb	98/XP/NT/2000	Limited trial	Write and edit plain text files like source code
EditPlus	ep2setup.exe	1,004Kb	98/NT/2000	Limited trial	Edit plain text files, HTML or programming code
ESP Toolbar	ToolbarDemo15.zip	73Kb	98/M/XP/NT/2000	Limited trial	Java-compatible tool that simulates the functionality of Internet Explorer 6 using Java Swing
Euphoria	e24setup.exe	952Kb	98/M/XP/NT/2000	Free	Fast multi-format programming language
ExamXML	examxml.exe	444Kb	XP	30-day trial	Compare multiple XML files visually to identify differences
ExesShield Deluxe	ExesShieldDeluxe-Setup.exe	2,020Kb	98/XP/2000	Free	Protect your Windows 32-bit executables so they can't be disassembled or tinkered with
ExCAD	ExisJar	19Kb	98/M/XP/NT/2000	Limited trial	A component suite for the development of CAD
Ezinstall	EZINSTALL.EXE	645Kb	98/XP/NT	Free	Create a self-extracting installer and uninstaller
FastReport CLX	fr250clx.zip	2,278Kb	98/M/XP/NT/2000	Limited trial	A powerful cross platform report generator
FingerSuite	FS_Eval.zip	3,346Kb	98/M/XP/NT/2000	Limited trial	A set of components for programmers
FlashTray	FlashTraySetup.exe	959Kb	98/M/XP/NT/2000	Limited trial	A multifunctional System Tray utility for Windows
FlexTracer	flextracer.zip	584Kb	98/M/XP/NT/2000	Limited trial	A powerful and flexible tracer of SQL queries
Force	Force208.exe	1,860Kb	98/M/XP/NT/2000	Limited trial	A fully featured programming environment
Free Java	FreeJava1_01_12003.10.20.zip	547Kb	98/M/XP/NT/2000	Free	A development Java program that helps beginners develop Java
Friend of Delphi	fodelphi.zip	230Kb	98/M/XP/NT/2000	Free	A collection of small Delphi tools
FuzzySearch	fuzzy.zip	1,358Kb	98/M/XP/NT/2000	Free	Tool for searching string occurrence
Get Colouring!	GetColSetup.zip	414Kb	98/M/XP/2000	Free	Ultimate code to HTML converter
GoAsm Assembler	goasm.zip	152Kb	98/M/XP/NT/2000	Free	Powerful and fast assembler for creating Win32 applications
Gobug	Gobugall.zip	972Kb	98/M/NT	Free	Windows debugging program
GoRC	gologo.zip	83Kb	98/M/XP/NT/2000	Free	Fast assembler with optimisation options
Grind!Soft Notepad	gnote.zip	1,007Kb	98/M/XP/NT/2000	Free	Programming tool for Windows
Haxial Textedit	Textedit-Win.zip	339Kb	98/M/XP/NT/2000	Free	View and edit unicode plain text files
Hex Edit	hexed.zip	3,000Kb	98/M/XP/2000	Limited trial	Handle a binary file editor tool

Utility name	File name	File size	System	Notes	Description
Hex Editor	hexedit.exe	1,000Kb	98/NT	Free	A utility that edits hexadecimal
HexCmp	hexcmp2_setup.exe	716Kb	98/McXP/NT/2000	Limited trial	Compare the functions of a binary file comparison tool and hex editor in one
HEXwrite -	hexwrite.exe	996Kb	98/McXP/NT/2000	Free	A file dump and printer utility
HJ-install	hjinstall.zip	127Kb	98/McXP/NT/2000	Free	Another hex editor program for Windows
HTML dot EXE	HTMLdotEXE.zip	162Kb	98/NT	Free	Add an installation routine to your programs
HTML File Translator	HTML10.zip	570Kb	98/McXP/NT/2000	Free	A simple HTML editor
IBLogScript	iblogscript.zip	485Kb	98/McXP/NT/2000	Free	Easy and fast translation of HTML files
IMS	ims-1111.0.zip	473Kb	Me/NT/2000	Free	Scripting tool for transference and undo data
INF-Tool	infTool.EXE	1,465Kb	98/McXP/NT/2000	Free	Track bugs in your software and monitor the life cycle of reported errors
Info Setup	setup-4-0.9.exe	1,060Kb	98/McXP/NT/2000	Free	Create smaller setup files for your programs
InfoSetup Icon Replacer	iscon.exe	78Kb	98/McXP/NT/2000	Free	Build installation routines for your homemade programs
Install! Creator	icnst.exe	2,431Kb	98/McXP/NT/2000	Free	Replace icons with this handy programming tool
Install! System	setupmak.zip	331Kb	98/McXP/NT/2000	Free	Create your own installation programs for your new software
IPtunnelManager	iptunnelmg.zip	1,160Kb	98/McXP/NT/2000	Limited trial	Make a setup file for your own software
irc SDK	ircsdk.zip	523Kb	98/McXP/NT/2000	Free	A good program used for IP tunnel management
JAC CLT	crf-2-1.exe	345Kb	98/McXP/NT/2000	Free	A simple iRC SDK program
Jainio	jainio-1.0.4-src.zip	118Kb	98/McXP/NT/2000	Free	Convert file extensions from an arbitrary code to a Windows code
JavaScript Buttons II	jsb2.zip	340Kb	98/McXP/NT/2000	Free	Compile and execute Java expressions or source files
JwELint	jwelintdemo.zip	180Kb	98/McXP/NT/2000	Free	Roll over JavaScript code generator program
Leopard	leopardsetup.exe	1,190Kb	98/McXP/NT/2000	Limited trial	Check your Java source code for potential bugs and weaknesses
Line Counter	c.zip	31Kb	98/McXP/NT/2000	Free	Programming language for beginners
LineStats	linestats.msi	132Kb	98/McXP/NT/2000	Free	A program that reports the number of lines of code in C and C++
Lite Edit	liteedit10.zip	315Kb	98/McXP/NT/2000	Free	Get a line count of source code or ASCII text files
LiveUpdate	liveupdate.zip	97Kb	98/McXP/NT/2000	Free	Use a programming tuned text editor
LiveUpdate	liveupdate.exe	97Kb	98/McXP/NT/2000	Free	Open source programming tool for adding live update facilities to home grown programs
LTProf	LTProf_setup.exe	1,601Kb	98/McXP/NT/2000	Limited trial	A small but powerful CPU profiling tool for Windows
MdbToMySQL XP	MdbToMySQL.msi	380Kb	XP/2000	Free	Useful tool for programmers migrating Microsoft Access 2003 data to MySQL
MMOger	mmoger20.exe	980Kb	98/McXP/NT/2000	Free	Make controlling characters in MMOGRPGs much easier
MoleZip	molezip.zip	57Kb	98/McXP/NT/2000	Limited trial	MoleZip is a COM/ActiveX component that can work with .zip files
MsgBox	msgbox.zip	7Kb	98/McXP/NT/2000	Free	A small program for programmers of the C language
NoteTab Light	Notetab_setup.exe	1,750Kb	98/NT/2000	Free	Free, powerful text editor
NSIS	nsis20.exe	1,471Kb	98/McXP/NT/2000	Free	NuSoft Scriptable Install System for creating program install routines
Paddy	paddy.zip	52Kb	98/McXP/NT/2000	Free	A small text file viewer program for Windows
Padgen	padsetup.exe	1,480Kb	98/McXP/NT/2000	Free	Generate Portable Application Descriptions (PAD files) for your own applications
patcher	patcher.zip	24Kb	98/McXP/NT/2000	Free	Create a patch from two like files
paScript	pa;ide.zip	873Kb	98/McXP/NT/2000	Free	Three interpreted, object scripting languages
PE Explorer	PE Explorer_setup.exe	1,170Kb	98/McXP/NT/2000	Limited trial	Source code analyzer and troubleshooting program
PEID	PEID.zip	91Kb	98/McXP/NT/2000	Free	Detect PE files in most common packers, decryptors and compilers
PowerGRIP	SetupPowerGripDemocnet-copy-dle.exe	2,005Kb	98/McXP/NT/2000	Limited trial	Regular expression search and replace tool for windows
Predictor	pred20.exe	2,300Kb	98/McXP/NT/2000	Limited trial	Edit text, HTML, source code and other files
QTam HexView	hexview.zip	132Kb	98/McXP/NT/2000	Free	A general purpose hex editor for Windows
RegWalker	RegWalkerSetup.zip	968Kb	98/McXP/NT/2000	Free	Locate your frequently used registry paths
Resource Hacker	ResHack.zip	542Kb	98/McXP/NT/2000	Free	View, modify, add and delete Windows resources
Resource Thief	res Thief.zip	6Kb	98/McXP/NT/2000	Free	Extract all resources from binary files
Robosoft	rs_setup.exe	1,241Kb	XP/NT/2000	Free	A submission program for shareware authors
SabaBrowser	SabaBrowser1.zip	1,400Kb	98/McXP/NT/2000	Limited trial	A Web application that enables you to edit databases and editing databases
Setup Creator for Dev C++	Setup210.exe	533Kb	98/McXP/NT/2000	Free	Create setup routines using Bloodshed Dev C++
Setup2Go	setup2go.exe	989Kb	98/McXP/NT/2000	Free	Design and create Windows installation programs
Shalom Help Maker	shelpm.zip	787Kb	98/McXP/NT	Free	Create your own help files
Simple Term SE	simpleterm_se.zip	1,191Kb	98/McXP/NT/2000	Limited trial	An advanced COM/RS232 serial port and data viewer
SimpleMM	simplemm-013.zip	170Kb	98/McXP/NT/2000	Free	An Open Source development project aimed at platform independence
SimpleParser	SimpleParser.exe.zip	4,797Kb	98/McXP/NT/2000	Limited trial	Get the most of formula parsing with this tool
SmEdit	SmEdit.zip	30Kb	98/McXP/NT/2000	Limited trial	Small text editor
SMProlib	smprolib_1.0.4_trial.zip	377Kb	98/McXP/NT/2000	Limited trial	A Java library that provides Java interface for working with small messages
SourceMonitor	SourceMonitorV1316.exe	812Kb	98/McXP/NT/2000	Free	Source code metrics measurements and history
SourceSafe Addin	SourceSafeAddinX86V32.exe	205Kb	98/McXP/NT/2000	Free	Prevents checking of files with low disk space
SQLTools	InstalSQLTools_141b38.exe	862Kb	98/McXP/NT/2000	Free	A range of SQL tools designed to aid in database development
SText	Stext05.zip	305Kb	98/McXP/NT/2000	Free	SText is a traditional menu-driven program editor
Stud_PE	Studc_PE1.8.zip	399Kb	98/McXP/NT/2000	Free	View and edit portable menu-driven files
SuperDI	SuperDI-3.3.U.exe	1,123Kb	98/McXP/NT/2000	Free	Edit text files on your PC, or on a remote server via FTP
SUSHI 2	sushi_setup.zip	1,100Kb	98/McXP/NT/2000	Free	Syntax editor for any computer language
The Shadow	shadow.zip	276Kb	98/McXP/NT/2000	Free	An event scheduler for Windows

Utility name	File name	File size	System	Notes	Description
Title Studio	ts.zip	1,685Kb	98	Free	A graphics development utility for game programmers
TKS	tk5-setup.exe	1,000Kb	98/Me/XP/NT/2000	Free	Free script language for Windows and Linux
TuHex	TuHexTralSetup.exe	1,430Kb	98/Me/XP/NT/2000	Limited trial	Compare files to find binary differences
VB Watch	vbw2.zip	4,502Kb	98/Me/XP/NT/2000	Free	A great visual basic code program for Windows
VeriLook SDK	viewok.zip	2,610Kb	98/Me/XP/NT/2000	Limited trial	A programming tool intended for biometric systems
Visual mc	visualmc.exe	237Kb	XP/NT/2000	Limited trial	Create and edit message files for use with Microsoft compiler
WinRazor SDK	wr50.zip	744Kb	98/Me/XP/NT/2000	Free	Create irregular-shaped objects with this program
Xchange	xchange.zip	925Kb	98/NT	Limited trial	Change text that's in hundreds of text files at once
XMLFox	XMLFox.zip	762Kb	XP/NT/2000	Free	Graphical XML editing tool for creating XML documents and XSD schema
MISC					
Utility name	File name	File size	System	Type	Description
#1 Video Converter	no1vc.exe	1,630Kb	98/Me/XP/NT/2000	Limited trial	Support a number of video formats and convert between them
1 ABFCFastDirectory	setup.exe	2,000Kb	98/Me/XP/NT/2000	Free	Create professional looking telephone style directories or photo directories in minutes
Aareus UpClose	UpClose.zip	250Kb	98/Me/XP/NT/2000	Limited trial	A magnifying enhancement tool that enlarges and displays portions of the screen
AbpMon	abpmon2d.exe	790Kb	98/Me/XP/NT/2000	Free	Automate Windows shutdown and restart routines
Ace Translator	atrans.exe	769Kb	98/Me/XP/NT/2000	14-day trial	Translate words and phrases between a number of different languages
ACProtect Standard	acpr_std.exe	1,570Kb	98/Me/XP/NT/2000	Limited trial	Protect Windows executables against piracy
Advanced SysInfo Tool	astra.zip	440Kb	XP	Limited trial	Perform computer configurations and analysis
AgeLong Tree	atree231.zip	1,260Kb	98/Me/XP/2000	30-day trial	Build up a display of your family tree and store data and images on all your relatives
AlphabPhone	hthap102.exe	112Kb	98/Me	Limited trial	Create your own words from any phone number
AnaGraph	AnaGraph.zip	69Kb	98/Me/XP/NT/2000	Free	Analytical data graphing tool
AnalogTime Lite	LiteAnalogTime.zip	345Kb	98/Me/XP/NT/2000	Free	View three analog clocks for multiple time displays
Anti Mosquito Software	antl_mosquito.zip	124Kb	98/Me/XP	Free	Use your PC speakers to drive away troublesome mosquitoes
Ask Guru Joe	askgurujoie_setup.exe	1,910Kb	98/Me/XP/NT/2000	Free	Whatever query is troubling you, Guru Joe has the answers
Atnotes	atnotesetup.exe	700Kb	98/Me/NT/2000	Free	Add Post-it style notes to your desktop
Atom Time Synchronizer	atbyn.exe	650Kb	98/Me/XP/NT/2000	Limited trial	Keep your PC clock accurate by synchronising with an atomic time server
AutoForms	af02.exe	2,250Kb	98/Me/XP/NT/2000	Limited trial	Get all the forms you need for life's legal woes
AutoInsult	Autins34.exe	366Kb	98/Me/XP/NT/2000	Free	Generate automatic insults using a range of styles, including Shakespearean slurs
Aye Shutdown Lite	asllite.zip	128Kb	98/Me/XP/2000	Limited trial	Turn off the computer at user-specified times
Balloons Screensaver	Balloons-install.exe	891Kb	98/Me/XP/NT/2000	Free	View a soothing screensaver featuring floating balloons
Baseball Browser	baseballbrowsersetup.exe	1,710Kb	98/Me/XP/NT/2000	Free	Get easy access to the best baseball news websites and baseball team websites
bed	bed-0.2.22_win32.zip	370Kb	98/Me/XP/NT/2000	Free	Menu driven binary code editor
BigClock	bigclock.zip	177Kb	98/Me/XP/NT/2000	Free	An on-screen dock featuring a useful timer
BigTime	bigtim10.zip	610Kb	98/Me/XP/NT/2000	Free	Easy to see count down timer, Great for classrooms and presentations
Biorthyms Studio II	DB52.zip	1,850Kb	98/Me/XP/NT/2000	30-day trial	Investigate the ebb and flow of your personal biorhythms
Bird Weather Professional	bwpsv.zip	893Kb	98/Me/XP/NT/2000	Limited trial	Keep track of the feathered friends that frequent your bird table
BodyTrans	bodytrans.exe	1,140Kb	98/Me/XP/NT/2000	Limited trial	Track your training, nutrition and mindset with this tool
Breaktru Automatic Simulation	autosim.zip	2,410Kb	98/Me/XP/NT/2000	Free	Simulation of the New York Transit Authority train system using working circuits
BREATHIE	BREATHIEdemo.exe	1,610Kb	98/Me/XP/NT/2000	Limited trial	Improve your chances of quitting smoking with this hypnotherapy component

Where to download

If the thousands of utilities on this issue's cover DVD-ROM don't meet your every need, there are some excellent websites where you can find the programs you require

Live Downloads

www.livedownloads.co.uk

If you're hankering after yet more utilities then what better place to get them than direct from the creator of PC Utilities and PC Utilities Plus+? The Live Downloads website is maintained by the same people who write and produce this magazine, so you're guaranteed quality as well as a massive selection of programs, tools and utilities. You need to register with the site to download files but you can search for free.

Live Downloads provides subscribers with access to over 18,000 files

RocketDownload.com

www.rocketdownload.com

No matter what type of utility you're after, RocketDownload.com is well worth a visit. What marks RocketDownload.com out from the crowd is its range of options for registered users. If you find software you like, you can add it to your virtual basket and then download the whole collection in one go using Download Accelerator. Registration is free of charge, so anyone can make the most of this service.

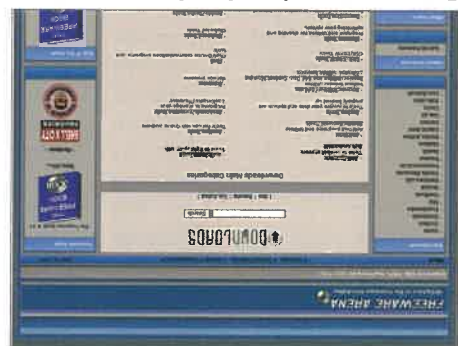

RocketDownload.com is well designed and offers thousands of tools

Freeware Arena

www.freewarearena.org

Freeware Arena is as much a rallying call as it is a download site, and much space is given over to promoting freeware software. Freeware Arena provides thousands of essential tools, split into a wide range of sensible categories, such as Anti-Spyware. Cleaning tools and XP only. Every tool is guaranteed 100% free so you won't find any shareware or adware at all.

Freeware Arena champions freeware software and offers thousands for download

Freeware Home

www.freewarehome.com

If your freeware search has been thwarted elsewhere, then Freeware Home may be worth a visit. This well-designed download site separates utilities into a large number of categories, making it much easier to locate programs for a specific purpose. It's possible to rate software to share your opinions with others, and overall user ratings are listed on the site so you can filter out the best software from the less reliable.

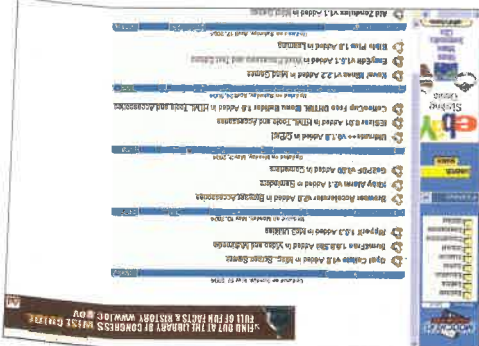

Most programs are rated so you can identify which tools are worth downloading

Moochers Freeware

www.moochers.com

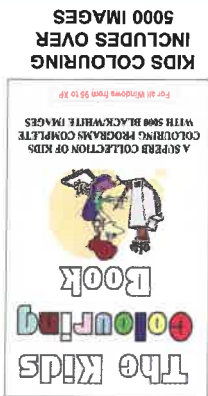

Moochers is another excellent site dedicated to freeware software. The site may not be updated with the same regularity as some higher profile sites, but new additions are made available most weeks and the site's opening page makes it easy to see the latest downloads at a glance. The Linux section is several years out of date, but stick with the Windows software and you won't be disappointed.

Moochers is another great site dedicated solely to freeware software
